PART 1

“spring of 1997”

In spring of 1997, which we were working at the time in Vancouver, located on west 5th Avenue, that's just below the Cambie street bridge, on the east side, being only one half block up, which we all started that job on Tuesday in the early morning of February 25th 1997. This particular strip-out job on the work site, had to be completed with-in four working days, which has been planned ahead originally for six working days. Remember that this is only a fill in job while we keep our work crew busy during this time which was Micky being the forman, following with Al, Josh, Barry, along with two part time laborers including myself and brother Dave. Now with all this extra help was there to push this particular job ahead, and that is to be completely finished there on time which was planned on that coming Saturday March 1, 1997. From there we are to move ahead on to a new demolition contract which was planned to start on that following morning March 3, 1997. Now to squeeze this one particular job in our schedule time frame, we all have to work a total of 12 hour days of which will work out great. There we all arrived on the work site on or around 7:00am as we all fight with morning rush hour traffic driving to work and finishing our work day just after the rush hour traffic dispersed from the area. Which will work out great to our schedule before long as our work progresses onward while the end of the first work day is also coming to a close. There I noticed that our onsite work crew is now getting itchy feet while they pack up all their tools and leave the work site only minutes to 7:00pm. Now for me expressing my own thought which I have to stay behind and secure the fences around the whole work site prior to myself leaving and also to see if any tools are left behind from our onsite security barricades which usually take me approximately 35 to 45 minutes in

total while this day has finally ended for myself in knowing that the site is secure though out this specified time frame. The settles down in the low areas of Vancouver being cold at which took place only on Tuesday and Wednesday. As the work crew progresses in making excellent time to meet our deadline with this strip out job being* finished approximately on Thursday afternoon. The local weather begins to change while the climate change is bad that encourage dense fog to settle down in low areas. During this precise timing with nature's course sets all the vehicle traffic along Hasting Street, during this time has slowed down to a crawl that backed up traffic for miles though out Vancouver area which has took place on Thursday evening. Now there I decided to pull over and eat something before I proceed any further as I am extremely tired and hungry while sitting in heavy congested traffic that does not help these particular matters. So there I decided to stop at Hasting's Dairy Queen in facing downward on the right hand side where the location I parked my unit directly on Dairy Queen's parking lot. From there I went inside and ordered one plain hamburger, a large vanilla shake with a side order of French fries. After receiving my order I we back to my pick up truck where I planned to eat there. During this precise timing while I was eating my prepared meal in my red chevy pick up truck, while an image appeared of a young lady walking through the dense fog as this party walked up the hill and knock on the driver's door window of my pick up. There I take notice of her standing at the door of my truck as I wind the driver's door window down and asked me if by any chance that you are heading towards Port Coquitlam? Of which she really surprised me at that time being totally off guard. During this particular time, there the young lady stated to me that she lives out in Port Coquitlam area that's located in a basement suite and requires a need for a ride back to her place. Being totally surprised over this I told her that I also live out that way and I would considerably be most honored to take you if you do not mind riding in my truck. Then this lady stated to me that she does not mind that at all, while I announced to her that's great, "Welcome Abourd". I said to myself, that it is not fair by any means for myself to continue eating while she watches me, so I offered to buy her something to eat as I was still parked along side Dairy Queen. There the young lady took me up on my offer while we both went in and bought her a casual Dairy Queen snack pack and for myself, I ordered another milk shake being strawberry during this particular time. From there we both returned back to my pick up truck where we finished eating our Dairy Queen snack pack prior to leaving their parking lot. As we were leaving Dairy Queen, the heavy dense fog was thinning out and once again the conjunction of vehicles traffic jam began to widely

disperse. During this same precise time frame, I asked the young lady, "If you do not mind me asking, what is your Christian name?" And the lady replied that her name is George Gina Dickens. Now I introduce myself as Robert William Pickton, but just call me Willie for short translation. About 45 minutes later we have arrived at her place of which the time was just topping off at 9:00 pm this Thursday evening. With total respect to George Gina Dickens where I pulled up along the roadside curb which was located directly in front of her rental property and parked there. Just as this was all taking place at the time where I have noticed a small group of family members was looking directly through the large upstairs living room window, While George Gina ask me to come in and there I will be introduced to her acquaintances, for they are really quite nosy anyways. There I tried for myself in to talk my way out of visiting them, which I am really quite shy being around people that I don't know. But everyone in there house was all staring directly at me in my pick up truck. I finally with much convincing decided to go with the flow. Now with exposure to encouragement in accompany with Miss George Gina Dickens invited me politely to meet the members of the family. There I met Gina Houston in the company of her two kids, Felisha and Matthew, following by one neighboring kid as a sleep over this Thursday evening by the name of Kimberly. Gina had one look at me and stated directly to me, "That I know you, " which really confused me at the time. There she stated, that I met you over at Piggy's Palace when I was at the time controlling the main gate entrance way for the 1996 motorcycle show and shine that was taking place during the time in midday May of 1996. Over this remark, I state to Gina Houston that I do remember briefly now which you were the gate person that is in control of the main gate accompanied with your friend in relation to all the motorcycles coming and going for the show exhibits of the 1996 motorcycle show and shine. "For recording only, " which I was not there in any relation to the party that has been on going through that Saturday. I was only there to communicate with my brother Dave for a minute or so and then I was off again. I announced to brother Dave that there is a large volume of people here today and Dave said, "That there has been around 800 people that have already came through the main entrance gate and climbing steadily according to the gate keeper with the time frame only at 2:15 pm in the early afternoon. With myself hearing that really surprised me of their large turn out that has participated. Brother Dave announced to me that it will be one extremely long day for me, but so far everything here is all going along great with in reason. During my short visit there I must say in surveying the onsite motorcycles that all who participate in this 1996 motorcycle show and shine,

while I walked by them in full view that everyone are all very nicely displayed row after row. With having the majority of them were all Harley-Davidsons along with some Honda's and other ones expressing an endless supply of polished creme to a mirror finish while displaying such a beautiful sight of motorcycles. Now to extent of what I was told for the final results that has came through the main entrance gates that day has reached over with amazing count of 1500 people along with endless count of motorcycles of all shapes and sizes for to complete this wonderful 1996 motorcycle show and shine. Now to continue back at George Gina's rental place of where I have met up with Gina Houston and her family as the novelty all wears away, as they return back watching television while Gina continues to share her thoughts with each other as time goes on. Prior of myself leaving their rental place, George Gina as me directly if I am going to work tomorrow morning back in Vancouver which I stated to her that I am, but I think it may be far too early for you. I will be leaving my place around 5:45am which I have to be at the job site approximately 7:00am start. With George Gina's remark, she stated to me that will be fine which I will be up waiting for you here. She said, before going to bed, I will set my alarm clock for 5:30am. Could you please stop by and pick me up on your way to work, as you are heading into Vancouver, while I said I could do that for you. As I was leaving their place George Gina has stated, "Here is my telephone number on this paper." Phone me prior of you leaving your place and I will be up and ready waiting for you in front of my house when you arrive. Then I said to George Gina, I will really appreciate that. In the intervening time period I left George Gina's residence approximately 9:45 pm Thursday evening, while I head home to feed my farm livestock animals in the barn and in bed by 10:45 pm. The following morning I was up by 5:45am and rushed around to feed my livestock animals being in an extreme hurry and finished everything by 6:10am. Know myself that's running under one's own steam being tired to the point of where I am running a little late which I tried to contact George Gina Dickens by her telephone number, that she handed me last night, but sadly to say there was no answer. With myself bond to a promise and now late to the point where I figured that possible George Gina could be outside her rental house waiting for me to arrive. Without have no answer on their telephone, I rushed off to pick George Gina up only hoping she is already to go. After I arrive there the whole house was in complete darkness which has come to my understanding that George Gina is still sound asleep in the house. I then knocked on the entrance door of their house several times over a ten minute time schedule, but once again there was still no answer. Now expressing myself being somewhat disappointed I head

on word to Vancouver while I am running extremely late which I arrived on the job site approximately 7:20am this Friday morning. The onsite work crew has stated directly to me that I am quite late. With having some complicated questions in respect to some minor errors. To override this situation I stated to the work crew that I slept into the extent of being extremely tired, only as a cover up.

Matthew 6:3-4 (3) But when thou doesn't alms and let not they left hand knoweth what they right doeth. (4) That thine alms may be done in secret and the father seeth in secret and that himself shall reward thee openly.

All throughout the whole morning while the weather climate in the surrounding area was heavily overcast with much of the abundance confirmed to be low clouds and by noon hour the local weather turned into heavy down pour of rain. Following within the next hour the westerly winds has blew violently in combination to the heavy down pour of rain that went on considerably all through the remainder of the day and well into the night. This particular type of weather has considerably slowed down our production work at the job site. This dilemma have no win situation to a point while we continue to push onward in spite of how wet we were at the time during the cold wet weather as our rain gear can only protect us for so long. To support this type of work method to our deconstruction strategies in prevailing all weather conditions as work continues onward. As the end of this day was creeping up fast which I gave the onsite work crew clarification that I will not be available here tomorrow while Brother Dave will be taking my place and filling in for me. Before long the onsite work crew left the jobsite only minutes before 5:00pm on this particular Friday evening, while they collect their pay checks which does continue to take place every second Friday. This also give the onsite work crew a break, as they are tired from these extremely long days of work under various types of weather conditions that we do face from time to time. Now for myself, as I continue on in working there under these site conditions for another two and half hours and left the jobsite approximately 7:30pm Friday night. As we are falling a little behind and I will not be working over here tomorrow. Now to the extent of myself being extremely tired where I arrived home approximately 8:45 pm where George Gina Dickens had left three related mountable messages upon my onsite answering

machine for me to return her telephone call as soon as you arrive. There I phone right away to the telephone number that she has left on the answering machine which is the same number which George Gina Dickens gave to me prior of myself leaving her rental property last night. There Gina Houston answered the telephone being on the second ring in possibly the reason is that Gina is the closest one to the telephone. There she called out to George Gina and stated that Willie is on the telephone for you. Before long George Gina Dickens answered and stated, "What happened to you, as I waited here all day for you to arrive." Now myself relating back to George Gina reply, which I stated that I tried to telephone you at 6:10am this morning, but there was no response. Then relating back with my thought that you are waiting outside for me to arrive, so I rushed over to your place. When I arrived approximately 6:25am being somewhat disappointed where I found out that no one was even awake yet. I further said to George Gina that your house has no door bell, so I knocked on the door several times over but once again there was no reply what so ever. Then George Gina announced back with her apology over ones regrets in saying sorry about that while she finally broke down in saying that I did not wake up until 10:30 am this morning.

But Willie by the way in putting all of this a side, what associated plans have you got tonight as it is Friday evening? There I stated to George Gina that I am extremely tired and I am going to bed right after I feed all my livestock animals and eat supper. Again and again being persistent expressing determination where George Gina tried to begged for me to go out with her tonight as she stated that I have been in all day long. There myself once again I am holding firm to my ground while, I said absolutely no way being exhausted and also extremely tired throughout. But never the less if you want to respect my formal wish, I would be most honored in to accompanying you out tomorrow during the early evening. There George Gina sighed for a brief moment, with a deep audible breath being somewhat disappointed while saying to me, "I guess that will be O.K.."

So we will make this a date for tomorrow evening. While having her emotions running high in saying around what time? Then I stated to her that I will telephone you first when I arrive back from Fraser Valley livestock auction, somewhere around 5:00 pm. Give or take a few minutes. I further stated to George Gina, that I formally wish to be back again in Surrey area which is located onsite at Ross auctions off of Fraser Highway that start at 6:00 pm sharp. To address this particular onsite auction sale will support mostly household merchandise that will only last somewhere around 2 to 2 1/2 hours long. Now after that

is over we will leave from there and have supper at a smorgasbord restaurant if this is o.k. with you? With another big sigh, George Gina stated that will be fine with me. Which I will be awaiting here for you call being somewhere are 5:00 pm evening. After some time negotiating with George Gina on the telephone, I head off to feed my group of livestock animals when I have noticed that the livestock sawdust bedding is extremely wet from all the heavy rain that continued onward throughout the whole regional district. With my self being exceedingly over tired to the point far beyond ones limits, which I see I have to put my full attention to clean out all of these box stalls tomorrow morning, as I head into prepare supper for myself. After I ate a light supper where I decided to get a hot bath, which that really felt good for a change from being wet and extremely cold, while I express this miserable cold wet weather, as this particular storm continues well into the night. Now ending this day of what I have been longing for is a good night sleep as the time progressing at 10:45 pm Friday. There I was out like a light while the nature weather climate resume on beating down in joint with the North Westerly winds that continue howling while I slept soundly throughout all of the racket until 8:10 am the following morning. By now with this interruption of the heavy rain storm has activity past by during sometime in the night. There I prepared breakfast for myself which included four nice size medium eggs along with eight pieces of bacon that has satisfied one's own desires. By now the time is pushing 8:30am Saturday. Next I went directly into the hog barn to fully excess all of all of the major damage and also to put my full attention into cleaning out the holding pens where I continue housing pigs, lambs, sheep and goats at times. For me to continue surveying all of the formal water damage which I noticed that all of these box stalls are now extremely wet dealing with the aftermath caused by the heavy rain that occurred from the storm. This has targeted to the point where the increasing water run off has rearranged the ground water table and presently leaking directly up through the concrete floor for me surveying this, that there is something definitely wrong with this picture as I investigate much deeper into this one particular situation. I then decided to check the outer foundation of the hog barn where I discovered the main problem to disclaim responsibility the ground was frozen solid while the heavy rain backed up over top of the drains to the point in raising the water table and presently flooding over top of the whole frozen ground. There I have worked feverishly hard, digging and chipping through the frozen solid ground where I have final arranged to dig a water canal while the waster slowly all discharged from that particular area. While I solved one problem here in lowering the whole water table where I now have to deal with

all of the after math which happens from time to time. Expressing myself where I rushed around to clean all the barn box stalls out as I completed by approximately 11:35 am which including bedding down the farm animals with dry bedding once again. Relating with this one mishap that has happened over this high water table continuing left me scrambling around, as I prepare my truck and rush off at 11:50 am to Fraser Valley livestock auctions. Located in Langly. I arrived there onsite at 12:25 pm in making good remarkable timing for livestock auction to resume at 12:30 pm sharp. Throughout this specified time period where I bought a total of 122 various size hogs and 4 yearling sheep along with 3 pigmy billy goats. That total of 129 head of livestock. As soon as all the sheep was sold that was scheduled that day in the open market livestock ring, with the time rounding off approximately 3:15 pm on this Saturday afternoon where I left the auction ring and went into their office to arrange full payment. A short time later with the help of the onsite work staff there we arranged and separated all of the onsite livestock animals that I have bought and before long they were all placed together as one lot and finally loaded them all into my truck being a full load. By 4:05 pm I finally left Fraser Valley livestock auction in Langly being homeward bound and arrived home approximately 4:40pm Saturday. Without wasting anytime I decided to unload all my livestock animals from my truck as I relocated them into the own newly designated stalls which there I have appointed for them. By now the time is pushing 5:15 pm and I went in to telephone George Gina Dickens, as I relate my problem directly to her that I am once again running a little behind. For my plan now is tendency to arrive there at her place by approximately 5:15 pm sharp and only in regards to let you know being aware in having adequate knowledge of the time to be ready as I have to be in Surrey by 6:00 pm. There I arrived momentary at her rental property for only briefly, while I stop to pick up George Gina and off we went to reach our predetermined destination which was on location at Ross auction in central Surrey and we arrived there onsite at 6:10 pm. Never the less I managed to buy some merchandise at their auction in buying items at very reasonable prices to be further displayed for prospects through our retail outlets of P & B new and used building materials in Surrey B.C. throughout this occurrence, after some time and just prior to the onsite auction sale was winding down to a close. At this time is where we both decided to leave that location as the time was approximately 7:45 pm Saturday. For the main reason of that was the climate temperature being extremely cold while having all the three large exterior doors wide open. During this time frame the onsite public was removing their merchandise that they have purchased earlier in the auction sale.

After Leaving Ross auctions we went directly over to Uncle Willie's Smorgasbord which that is located on 152 Street. This is where we had supper to end this day prior returning George Gina Dickens back to her own rental property as we arrived back approximately 9:35 pm. After dropping George Gina off, I myself head back home to feed all of my livestock animals that I have there on hand while ending my day at 11:05 pm that Saturday. I woke up the following morning at 6:50am and on the contrary being extremely tired from much lack of sleep over these past few days. There I once again push myself beyond my limit as I got up while I prepared breakfast which ended to be for pieces of bacon and three medium size eggs. By now the time is 7:15 am Sunday. While I head off to check on all of my livestock animals in the barn which they were all resting quite comfortable. Now without wasting anytime being already 7:45am where I decided now to head off to Ross auction in Surrey and pay for all of the merchandise that I have purchased the night before. When I finally arrived at their site location of Ross auction approximately 8:10am and during this time there was not even a sole person around to be found. Now with having much respect of their work crew which they could also be running late and possibly only hoping that their work crew will show up soon while I wait patiently in my truck.

Throughout the whole duration to support the time of 25 minutes where I have extended my time waiting when the auction sale staff has finally arrived at 8:35am. There I paid for all the merchandise onsite, following with the work staff as they helped me load my truck while I rearranged everything all in one full load. With my truck loaded down accompanied of house hold items and soon I was back on the road which I made good time driving. I arrived home 9:45 am where I unloaded my try by 10:10 am. I then decided to contact Brother Dave on his cellular telephone, for information only to understand if our work crew is completely finished their job over a the Vancouver jobsite while I can formally plan my day ahead. Dave said that the whole work crew is heading in today and finished off that job. Dave further announced, all is left to be done is only the final clean up in have waste material scattered among the whole worksite. The work crew should be there by now starting approximately 10:00 am sharp. Additional to this he stated in asking me, are you also going in there to help them? In response to his request which I might as well head in

and presently I will take my one tone flat deck truck with me to help with the final clean up that is in progress. In presently using my one ton truck during the final clean up will be much easier loading the smaller waste material from the ground with an empty truck than a full loaded truck. Brother Dave said that is a great idea, "Let's do that." I stated to Dave that I should be there in around 11:45 am, give or take a little. But first I have to feed all my livestock animals in delaying me to leave right now. The Dave said, "hurry up and do your chores which I will probably see you there as I am on my way in while we speak. Then I said OK, I will meet you there around 11:45 am, bye. Now planning my day ahead of which I decided now to contact George Gina by the way of telephone, and to see if she wants a ride back to Vancouver. There George Gina decided to except my offer on the spot. During this precise time period I announced to George Gina that I will be at her place in a half hour from now approximately 10:45 am sharp and can you be ready to go? George Gina stated that I am all ready to go now. Then I said, "OK bye." As I went to feed my livestock in a hurry and momentarily, I head off with my one ton truck over to George Gina's rental house. When I arrived there George Gina was already waiting for me and before long we departed from there. I gave her a ride into Vancouver and dropped her off directly in front of Dairy Queen restaurant on Hastings Street being in the precise location where I had met her originally. There George Gina stated to me that she works at the Shell service station being a block down from here that's located right on Powell Street, which she insisted that she will walk from this location. After myself dropping her off from there I went onward west 5th Ave. of where I met up with our own work crew at the job site approximately 12:00 noon Sunday. Now working at the jobsite from 12:00 noon to 2:30pm for a total of 2 1/2, hours on this Sunday afternoon, while everyone of the crew is cleaning up the worksite by hand and loading the remainder of the scattered debris on my one ton truck as this particular job is now winding down to a close. With all do respect to Brother Dave as he just arrived at 2:15 pm to see how we are progressing there as Dave stated that everything looks good. While I secure my load down of debris that I had on for transporting, as Brother Dave was explaining to our onsite work crew, where the next job location is that will start tomorrow morning approximately 7:00am sharp. All the work crew dispersed from the jobsite at 2:30 pm. While I left there for the last time at 2:40pm just after Dave helped me resecure the property work site in company of these onsite barricades. Then Dave left in his pick up truck, while I head home and arrived there at 3:30pm. From there I unloaded my one ton truck that was over% loaded of waste and debris behind the Piggy's Palace while

adding to the ongoing pile of demolition that's located on the Burns Road site. By the time I manage to unload my truck by hand the time was now pushing on to approximately 5:30 pm Sunday afternoon. As soon as my truck was unloaded from all of the waste debris where I returned back to the dominion site which I decided now to examine much more closely on the merchandise items that I originally bought from Ross auctions last night while being in the company of George Gina Dickens that is placed under a blue colored fiberglass tarp that's outside the mobile home. For these particular items were two older style oak writing desks, two swivel office chairs, one new kitchen table, that mounted on caster-rollers, along with some other merchandise that will be for re-sale purposes over at P & B new and used building materials. After removing this blue fiberglass tarp, where I decided to relocate all the materials that I can man handle by myself into this 12 by 70 foot mobile home where I stored everything in the area of the living room that is located directly in front of this unit facing north of the property while the forecast weather is now changing into rain. There I managed to get everything all inside the unit except these two large older style oak writing desk, which are extremely heavy that I planned to relocate these two particular units in the center of the mobile home for the office work area. For that I have to wait until Pat Casa Nova arrives here which he usually show up around 7:00 to 7:15 pm, just after he finishes with his last delivery of the day. There I will arrange for Pat to contribute his time in helping me while the water basin container is slowly warming up to the temperature of reaching 139 degree Fahrenheit. Pat Casa Nova did finally arrive at the farm with reference to 7:55 pm as he state that he was running a little late during last delivery of the day being in North Vancouver, B.C. With local rain begin to shower over the land and expressing our own extreme effort while we work there hand in hand with some difficulty struggling to relocate these two wonderful oak desks side by side that fits snugly into this particular cavity of 17 feet which worked out great for the onsite work office to support our top soil sales. With having reference to this time was approximately 8:35 pm in making perfect timing while the water temperature is ready as we begin to prepare for our second shift. During this particular evening, we managed to butcher a total of seven head of pigs and finished off the second shift at approximately 11:15 pm. While Pat organized much of the clean-up and as for myself, I was feeding all my livestock animals that I had on hand there during this time frame, which both of us ended off that Sunday evening March 2nd 1997 at 11:45. The following morning March 3rd at 7:00am our own work crew has once again relocated themselves to a new demolition worksite. This particular site location was at the Kingsway

Motor Hotel that is located directly on Kingsway in the District of Burnaby B.C. There I met up with P & B work crew at 9:00 am while I helped them remove and organize the building materials for resale use. Such as remove the floors, strip the door frames, lights, switches, main breakers and other items. We continue to roam up and down the main corridors all throughout the Kingsway Motor Hotel.

"we all stick together"

My heart was so free, That I roam like a bee, As I sipped every-flower
And I changed every hour
But every flower is united.

Author my father and I

I have written this little poem with having my thoughts as I roam from room to room all throughout this hotel while we continue to re-cover salvage materials for resale.

Matthew 13:52 for then he said unto them, as there-fore every scribe which is instructed into the kingdom of heaven is like unto a man that is a house-holder which he bringeth forth out of his treasure things of old and new.

While we were continue doing much of the strip out to the onsite hotel room apartments and dwelling of this Kingsway Motor Hotel, while the property owner arrived approximately 10:30 am Monday March 3rd 1997. There he met up with Brother Dave for their third time which the property owner stated that he has not yet received their onsite demolition permit and that could be delayed for another 5 to 10 working days from the Burnaby municipality metropolitan area. The municipal has was delaying with their demolition permit for extra time while there are some minor complex problems to iron out with their architect and to add to their new original construction onsite work plans. The property owner stated to Brother Dave that our own onsite architect is dealing with this particular problem as we speak. Never the less we have received the greenlight of conformation to continue as we were doing while removing all these articles of any value which has nothing at all to do with

the demolition permit All throughout the day we continue to push forward while we remove a large volume of interior doors, with many to reference in having in having complete door casings, as we work from the onsite hotel living accommodation starting with the upper third tier. There we removed everything of value as we go from the portable onsite night stands, to doors of various sizes, following with bathroom fixtures, lamp stands, apartment size refrigerator, light switches, white toilets along with many more items arranged a total of three full truck loads of all salvaged household material for re-sale purposes at whole sale price through P & B new and used building materials. At the end of the day after I unloaded my truck load of merchandise that we reclaimed from the Kingsway Motor Hotel for strictly only resale purposes that's located onsite P & B new and used building materials on Tannery Roan in Surrey. After leaving there I arrived back home at approximately 6:10pm on Monday of March 3rd 1997. While I arrived home early this evening, I then decided to rearrange the onsite mobile home which we bought in late January of 1997 being 12 feet wide and 70 feet long. Now to display the house hold merchandise that I have formally purchased from Ross auction prior of myself into starting the second shift. At the present time to up date with the after effect having a pair of beautiful oak writing desks in its proper place resting side by side with the extreme help of Mr.Pat Casa Nova last night. Now adding the separate individual articles of household merchandise which I have purchased was two used swivel chairs and one used three foot by four foot cork board that permanently has installed on the north wall of the writing desk which I will use displaying all onsite top soil orders where to be delivered on a timely schedule. Addressing to my opinion the onsite office is now beginning to look quite charming all throughout while making me very pleased to receive such a wonderful gift as this for this purpose. After that I relocated my brand new four foot by six foot butcher block design kitchen table which is quite suitable for the kitchen area of its formal size. As I was just arranging this item of where Pat Casa Nova just arrived while the time is already 7:15 pm. At this stage in time, I asked Pat to come in and have a brief look around to see what he actually thinks about the whole lay out. There he has stated that everything looks really respectable, but you are desperately in need of a refrigerator and some kitchen chairs. There I explained to Pat that I might find these particular item tomorrow over at the Kingsway Motor Hotel that may possibly find something tomorrow in filling the order and if nothing is available there I will retrieve a refrigerator from our sales department at P & B new and used. Before long we both head off to the barn and prepare for our second shift as Pat pre-occupied his time with his respect while organizing the water temperature in the basin container as I

went to feed my livestock animals in the process. During that Monday evening shift we managed to butcher a total of head of feeder hogs and 3 head of pigmy billy goats while we end our day after cleaning approximately 11:45 pm March 3rd 1997. With myself being exhausted to the utmost degree, that Monday evening was the very first time I have slept in this one onsite mobile home. Without having no bed of any sort onsite while expressing myself while I plan to sleep on the white floor shag carpet that is located in the living room. Also having no heat in the mobile home during this present time while exposing myself in reference to a long cold night that a waits for me as I rolled out my dark green colored sleeping bag and there I slept quite comfortable all night long. As Spring weather is closing in fast being only days away, which I well bear with this cold weather until then. For the main reason of this change intended to change location from the dodge motorhome into the onsite mobile home in having now a permanent residence for myself there onsite. This particular change over, was to free the didge motorhome which was scheduled to be relocated on the job site at the Kingsay Motor Hotel. This particular move was for having a mobile first aid unit there onsite while the onsite deconstruction demolition progresses ahead. This also fully corresponds to the workers compensation board of British Columbia in joint while having first aid medical treatment onboard, in regards of showing full tendency to protect our own onsite work crew from any type of their injuries that they may receive onsite. The following Tuesday March 4th 1997 I woke up around 7:30am being a little cold at the time as I climbed out and rolled up my sleeping bag for another day. After that I returned to the dodge motorhome for the last time and warmed up while I prepare breakfast for myself consuming some bacon and eggs. By now it is 8:10am as I removed all of my personal belongings of which I had in the dodge motorhome and relocated all that into the living room of the 12 by 70 foot onsite mobile home. Also during this time with the excess material that I had placed in the living room of the mobile home from Ross auctions which I now reloaded all that material in the back of my one ton truck having the sales merchandise deleted down to only a 14 of a load of commodities for resale purposes. After I finally managed to organize all of that, I head off to feed my livestock animals and by 9:30am Tuesday I head off to Kingsway Motor Hotel where I met up with the both work crews onsite. As the both work crews work hand in hand removing more and more valuable onsite commodities while we stock pile everything at the main emergency exit door. There I arranged for Micky to help me finish loading my truck what ever there fore accordingly material onsite. After strapping my load down with Micky help for security measures, as I head off to P & B new and used building materials of where

I now arranged Doug, being our sales representative, for his full support in helping unload my truck to located and displayed for the consumers confidence to purchase these particular items that they desire at the time, and I arrived back for the second load by 11:30 am. After we load my truck for the second time around of reclaimed materials. Gary being on of P & B onsite work crew announced to me that our work crew can only work here until late Thursday afternoon March 6th 1997.

Gary further explained that we have other work sites scheduled to do other strip out jobs planned to begin first thing Friday morning March 7th 1997 and that will extend for the next week that our work crew is fully booked solid. Now myself in understanding that, where I told Gary to grab the flashlight from his service vehicle and we will walk around to get a more better of our own understanding of what reclaimed material we have here to support the abundance of house hold items. Through the onsite journey, we went down the long corridors of this particular site while we roamed from place to place for the next hour where we arrived into a secured area of which supports abundance of specific activities. With our own understanding we came to the conclusion that this particular area is where the dance floor been at the time. As we enter the main stage area we discovered this area is where the women perform their own duties inside of the Kingsway Motor Hotel.

Being a little confused which we believe that the people's audience was below directly facing at all these eye catching exotic entertainment moments. I also have noticed under observation with the flashlight a joint to the service bar which I also noticed a public lounge area where groups of people sit around and relax for the enjoyment to ones attention of some special specific activity that use to run certain times of the day and that continue well into the night. Now leaving enjoyable thoughts with only the remembrance left of the Kingsway Motor Hotel that will be missed by many people while making room for new development. This particular property site is now zoned for high rise apartment dwellings as we move ahead to progress into the 21st century which this property site is worth a whole lot more than the building was. At the end of the journey on route which I have never seen any type of a frost free refrigerator that is big enough to fill the order for the onsite mobile home. For myself in knowing that I have no choice in the matter, buy now to retrieve a unit from our

sales department. In response to our one hour excursion all throughout the Kingsway Motor Hotel, we finally realized that there is much more re-claimed materials of all sort to be done in every location there is throughout the Kingsway Motor hotel. With the assistance of Gary, which he help me to secure the second load down today and before long I was off to P & B new and used building materials in Surrey B.C. I arrived onsite approximately 1:45 pm where I once again arranged for Doug's assistance to help unload my one ton truck that took a total of 20 minutes. While this was taking place during the last few items that was on my truck, where I asked Doug a question being the sales representative. By the way do you have any type of used frost free refrigerator on hand and his response stated that we have four on hand of which is in that room over there. After finish removing the remainder articles from my truck, which I now decided to briefly drift off to that particular location and look over these onsite frost free refrigerators and went back to our sales off to speak with Doug over the refrigerators after myself viewing the merchandise where I stated that you got a light green colored refrigerator there which it looks like it's been there for quite sometime. Over this one remark Doug stated that we had this one unit here for over five months, as colored units here are extremely hard to sell compared to white ones. I then said that unit has got my name written all over it which he laughed and said, "That unit is yours." Take it by all means. I took him up on his offer and loaded that refrigerator in my truck with the formal help of Doug and off back to the Kingsway Motor Hotel which I arrived there onsite approximately 3:15 pm while P & B work crews loaded their two trucks of reclaimed materials and left at 4:00 pm. Now only leaving our own work crew as they continue stripping out more salvaged materials while they finished off the third tier level and moving down to the second tier level of abundance of these group in relation to more apartment dwellings. By 5:00pm Monday March 3rd 1997 our work site crew also retired for the day. Reviewed back over yesterday and today and working between both work crews which we have reclaimed seven fully packed loads of merchandise to support the store assets from the Kingsway Motor Hotel. Now continuing repeatedly for the several days that all we dealt with while we dismantled and transported abundance of materials to support our representative sales department, that is located in Surrey B.C. only for resale purposes at wholesale prices. Now moving on to Saturday March 8th 1997.

I head off to Langly livestock auction while Brother Dave arrived and organized the onsite work crew which he announced that we have not yet received our demolition permit that we cannot in any way harm or even physically touch the outer structural frame. But never

the less we have finally received their authorization in permission to start removing all of the drywall from the walls and ceilings from the upper third tier of the guest rooms. Brother Dave further announced that the particular onsite area we have to concentrate on is to begin precisely located parallel in the boundary to the far north west corner of this onsite parking lot and slowly move eastward room by room being established in joint to their parking lot. Remember that all types of drywall is 100% recyclable material and this must be all removed prior to any type of demolition ever takes place. Moving ahead to Tuesday March 11th 1997 in the very late afternoon which P & B new and used building materials has now been officially awarded with the onsite demolition contract in response to the full removal of all onsite demolition debris. That has been fully approved by the Burnaby municipality. According to the demolition onsite permit contract will last a total of a 12 week time frame while we have to remove everything off of that particular property by then, lock, stock and barrel. Starting on Wednesday March 12th 1997 is where we have to now enlarge our onsite work staff employees from a four member work crew to a seven member work crew and with myself being on hand making me the eighth crew member. There they will be rearranged into two groups while Micky take charge over three co-workers as a team. As their onsite job description at the time was removing all of the broken up drywall that's located on the third floor and load that recyclable material directly into our 60 yard demolition semi trailer end dump. For loading this unit we managed to relocate it right alongside of the building, right below the site work area they are working on for easy loading, dropping from above. Now for myself which I took charge over the other three onsite co-workers and went up on the rooftop where we manage to peel, strip and remove the tar and gravel from the roof. During this particular process, we toss that group of material over in a isolated area that has a certain type of barrier across intended for protection to the ground below, for only safety reasons. After this was removed now fully exposed to all this beautiful old first growth Douglas fir lumber and timbers that formally supports the walls, floors and ceilings from room to room.

This is what the next stage is called deconstruction of much re-useable material from waste products to be reclaimed for future use. Understanding this while recycling old used building materials as lumber is now saving our forest products and introducing a more greener world for younger generation to fully explore our nature country in the whole process. This particular type of deconstruction should be done by every demolition contractor on all big or small jobs that goes on undetectable by their onsite work crews in construction.

Speaking from much knowledge that there should not be any demolition permits at all being authorized in the process unless there is some type of recycling through recovery over reclaimed materials that's being salvaged during the whole time this type of demolition is going on. As this is all salvageable lumber material that's worth money instead of being wasted forever in our land fill sites. We expressing the people in general must reduce our waste while we re-use of what we got in support over a recycling program for others to fully enjoy as things were once before from our previous generation of our late ancestor's background experiences. If we do not change our own ways and recover more of this type of material, it is gone forever being heavily affected by much human activity on planet earth as this has already been quite a heavy burden throughout the earth's surface.

Ecclesiastes 1:8-11 (8) For all things are full of labour and no man can utter that and the eye is never satisfied with seeing, now is the ear filled with hearing (9) For the thing that hath been, and for it is that which shall be. For that which is done (10) For is there anything of where it may be said, and to see this in new? For it hath been already of old time, which took place long before us (11) For there is no remembrance of those former things that are to come and with all those that shall come after.

Now between Monday March 3rd 1997 onward to the following next Tuesday evening March 11th 1997, our work crews have now already formally removed much of the reclaimed assets from the Kingsway Motor Hotel apartment dwellings. Now starting on the following Wednesday morning March 12th 1997 with myself to alternate my own time schedule while I am in charge of three onsite co-workers. There I have to be up before 6:00am to arrange my time schedule to be at the work site by 8:00am start, in putting more pressure on myself in lacking sleep. During this precise time period where I have to prepare breakfast for myself and also take care of all my livestock animals on the farm prior leaving at 7:00am. This is to arrive at our demolition jobsite in the ball park around 7:45 to 8:00am while only depending upon the traffic at the time. Towards the end of the work day, I usually do not arrive back home from work jobsite in or around the time of 7:30 to 8:00pm while Pat Casa Nova routinely be there in greeting me with total respect prior in starting our second shift. Before long we both continue on our second shift from precise timing and continue to work.

through while finish off the second shift just prior to mid-night, give or take a little on any work day. This particular work continues onwards from Sunday to Friday which everything all depends on the whole volume of livestock that I may receive from week to week while for filling Pat Casa Nova's orders. This continues to bounce around from week to week which goes on having unpredictable results to ever iron out all these problems that starts right from day one. Over this situation totally depends only on whatever livestock that is available during the time of the livestock auction. Additional to this over marketing value that's only based on the actual price of each animal that is sold in process with having total regards to the marketing dollar as Pat Casa Nova for fill all his ongoing orders to engage this into the Philippine community. Now being strictly based over this situation is where Pat Casa Nova decided to use these chest type deep freezers which has come into his operation more and more frequently while persevere overstock commodities from time to time, for further sales. In doing this particular way Pat Casa Nova can organize various sizes of fresh frozen whole barbecue pigs on hand which will meet all the necessity requirements of each order fulfilled. This also satisfy all their demands of everything that's required to each individual purchase order that officially comes from his own Philippine community. To prepare one whole barbecue rotisserie pig which takes between 5 1/2, to 7 hours depending on the particular size of each order that is prepared, monitored and fully cooked during this precise time frame prior to any delivery. "From one to another." These particular whole barbecue style rotisserie pigs weigh out between 65 to 120 pounds each for large group gathering, weddings, celebrations, ceremonies, parties, picnics, anniversaries, along with many other events as the list goes on. Addition to this, upon every delivery being on a timely schedule, Pat prepared in contribute accordance to their true old style Philippine culture which is one gallon jug that's containing their prepared seasoning sauce indicated to suit their taste, piping hot. Now understanding the knowledge from the extremely long hours that I am working during this time in combination to the full benefit connecting these double shifts in reference to time. As you can definitely see that it is extremely lucky if I get a full 6 hours of sleep per average day. On March 13th 1997 which I arrived home after another long day at work while we strip more tar and graven off of the roof top just prior to 8:00 pm. Before long we have both started well into the second shift of when I received a surprise telephone call being George Gina Dickens on the Thursday evening at 9:35 pm. There I announced to her at the time that I have not heard from you since I dropped you off in front of the Dairy Queen on Sunday March 2nd 1997 about 12:00 noon. There I further stated, by the way how are you doing?

Which George Gina said that I am fine, but I would really like a ride back home. Is there any way you can see your way clear to come over here and pick me up? Then being somewhat curious I said, "By the way where are you?" While George Gina announced that she is in Vancouver a just finished her work shift at the Shell gas station. During this time frame, I was extremely tired as I had to stand my own ground and sadly to say in being somewhat defeated while I had to turn George Gina down. At the time implying of my own condition which I am in no particular shape to drive at all the distance way back to Vancouver and home again. Further more I have stated that I have just arrived from the work site being on location in the North Burnaby area, not long ago and all do respect that I am well into my second shift in push myself fare beyond my limit which I have to continue onward until my second shift end on or around 11:45 pm. Towards the end of our telephone call that ha lasted for roughly 10 minutes of much coaxing with myself in no condition to ever drive my pick up truck the distance. In turning her down where I announced to George Gina in the up coming future, could you please let me know ahead of time. Where I would be most gladly to escort you back and forth from your rental property here in Port Coquitlam to Vancouver B.C. Now sadly to say on that particular Thursday evening March 13th 1997 was the very last time that I ever heard from Miss George Gina Dickens ever again. But this is far from the end of the story about her. During that particular evening we arranged to butcher a total of six large size pigs and one light weight market hog during the process of the second shift. Now holding steadfast to my word while day after day has drifted by as there was no message related of what so ever on my telephone answering machine about George Gina Dickens. This was to prearrange more ample time that's intended to pick her up after her shift change was over and return George Gina Dickens back to her rental house in Port Coquitlam on a regular timely schedule. Moving ahead to the following Thursday March 20th 1997, being a week later when Gina Houston left a message during that day on my telephone answering machine as the information relaying for me being urgent to return here telephone call at their rental house of when you arrive. There I returned Gina's telephone call, which she announced directly to me that George Gina Dickens made a whole lot of lengthy long distance telephone calls that had total to the full amount of \$1500.00 phone bill that has shocked me severely. Miss George Gina Dickens is a friend to me which has originated from a ride expressing Dairy Queen restaurant that's located in Vancouver directly off Hastings street and I formally drove her over to her rental property located in Port Coquitlam. Now only to keep the peace in the family among friends, I decided now to pay

the household members of Gina Houston and their family a Total sum attached of \$1500.00 from the bottom of my heart. Between me and you while I have negative feeling over this where I do not believe that George Gina Dickens even made one long distance phone call. Now having positive feeling where I truly believe beyond any doubt that this whole episode of events was fabricated to the point of where Gina Houston scammed \$1500.00 from me as Gina continue to with held particular evidence to support their telephone bill or any proof to back up Gina's word.

Psalms 37:21-24 (21) For the wicked to borrow and never re-pay, but the godly are generous givers (22) And for all those that's bless by the lord will inherit the land. But for all those who cursed by him will die (23) And with the steps of the godly are directed by the lord. For the lord delights in every detail of their lives (24) Through they stumble but they will not fall, for the lord supports them by his hand.

There have been many times that I undergo with my own personal thought being on the back of my mind leaving with many un-answered question which Miss George Gina Dickens can only answer. Now if I could in some way into go locating her and to full understand the whole truth behind the scene of this particular bazaar event over \$1500.00 telephone bill. Based only on the information of what little I know that Miss Gorge Gina Dickens work is at the Shell service station that's facing on the north side of Powell Street and she gets off work around 9:30pm. Besides this, it is not for me to ever interfere into her own personal lifestyle, or even asking foolish questions behind the scene about Gina Houston while looking for the correct answer to rest my own thoughts. But there is one thing that I will say in knowing Miss George Gina Dickens for only of brief period which she has cost me a total of \$1500.00 for something I know nothing about at all, in leaving me at the time extremely short on funds. Now back to the location at the Kingsway Motor Hotel as the demolition worksite is moving right ahead on schedule. Now expressing over the past week with the help of our work crews which we have removed the whole we have removed the whole third floor of the apartment dwellings and hopefully the way we are progressing later today we will be finishing off the majority of the second floor. The continuance of this operation that we are revealing is our physical effort that we have engaged in dismantling

the Kingsway Motor Hotel. Exposing much of our work we have reclaimed 90% of the majority of this delightful first growth Douglas fir rough cut lumber from eight foot studs to the long heavy floor joist timbers a like express all in beautiful shape. Now on Saturday March 22nd 1997, I never went over to the Langly livestock auction market on that particular day for the main reason with myself being extremely short on funds by paying Gina Houston \$1500.00. I usually never work on any Saturday unless I am working for myself in being a day of rest to support our Christian Sabbath. But on this particular Saturday I had my own reason to be onsite working there with my onsite co-workers. Now approximately 11:45 am March 22nd where Mr. Pat Casa Nova arrived there at the demolition worksite in North Burnaby and he paid me in full for the group of livestock animals that I have previously sold him on credit while totaling to the full amount of \$3450.00 in cash. During this time I have to head into Vancouver area right after I finish work today and pay Mural for a vehicle that I have purchased from Empire Auto Wrecking, while being on credit about a week earlier for a total of \$350.00. Mural is the long time caretaker at the Empire Auto Wrecking. I promised Harry in being the sole owner of the Empire Auto Wrecking, where I will pay him as soon as I can and when I see my way clear to pay him, as once again left me extremely short by paying Gina Houston. For the onsite work location of the Empire Auto Wrecking was located one block west of Clark Drive down 5th Avenue and north on Glen Drive, onward across the train tracks that's located directly on the left hand side which has now been closed down some time during the late summer of 2001. This particular property site location is to be developed for the full benefit in making extra room for the overhead sky train which is expanding their operation in the whole area. Now for the disadvantage in losing that particular specified field of auto working was the only one located on the east side of Vancouver and will be heart breaking to see this operation go. For this one exceptional parcel of land is far too valuable for the purpose that it was indicated and used for representing a scrap yard while we move ahead into the 21st century. With my firm understanding that this Empire Auto Wrecking scrap yard has been established there onsite for many years in the past according to Harry as he is retiring for health reasons who was the sole owner of the company affairs.

1 Thessalonians 5:13-14 {13} For think highly of them and give them your whole hearted love, because of their work and also remember to live peaceably with each other. (14) For brother and sisters, that we urge you to warn those who are lazy, and to encourage those who are timid. Take care of those who are weak and be patient with everyone else, for this

is the will of god in Christ Jesus concern you.

That Saturday afternoon between myself and my three onsite co-workers was dismantling much of the rough cut 2" by 4" studs from the walls of the second tier, that's a-joining to neighboring apartment dwelling. Currently at this time while representing Micky along with his three onsite co-workers in accompanied below on the main floor of these apartment dwellings as they all participate to remove more and more drywall that's in conjunction with one another while we continue onward to keep the work site moving ahead in stages. Being on a regular schedule which our onsite work crew left the Kingway Motor Hotel demolition jobsite approximately 5:30 pm while I once again usually stay behind and do some onsite clean up around the worksite for the following day. During that particular evening all I did is load an endless supply of beautiful Douglas fir rough cut 2" by 4" by 8 foot long wall studs that was sitting in group piles on the main floor of the second tier construction where I hand loaded them on the forks attached to our skid steer bobcat. From there I have relocated vertical stacked this reclaimed material into 4 foot by 4 foot square piles of beautiful used lumber which will be all% inch steel strap banded attach to each unit tomorrow morning, prior of transporting any of this material off site. To arrange this type of steel strap banding for used lumber in that category support a whole lot more volume of material bound together. Also throughout this whole particular process that we do, which makes our onsite machine operator a lot easier to handle, stack and store following the transporting of used lumber from one onsite location to another location in a very short time. On Saturday early evening March 22nd 1997, between 5:30 to 8:00pm of where I have relocated a total of 4 1/2, lifts, in connecting to an endless supply of 8 foot used 2" by 4" wall studs being turned from the direction of waste material into valuable assets for re-sale purposes located at P&B new and used materials. I retired at 8:00pm and journeyed off to Vancouver where I arrived onsite at the Empire Auto Wrecking around 8:30pm Saturday, long after our work crew retired for the day. That I just surely be able to kill two birds with the same stone in dealing with Mural fir and following with Miss George Gina Dickens being second, in conjunction all done during the same round trip journey on route. Now expressing my own deepest thoughts while I drive the distance to Empire Auto Wrecking in saying, "What about if Mural is not there?" without giving the whole matter full consideration. Then I said to myself, that I will patiently wait there for him to arrive as there has been times Mural goes out for a late supper. As I approached the Empire Wrecking worksite location which I have seen his scrap hauling truck inside the property

while saying to myself, that's great, for I now know that he is there of where I pulled right up to the main entrance gate. There I parked my Chevy pick up truck and knocked heavily with a strong force on the tin sheet that's sitting brood side along the entrance way to the yard. A short time later I finally received his attention when Mural turned on the outdoor porch light. A short time later he approached the security main entrance road gate on the inside where he called out, "Who is it?" There I announced to Mural, that it's me Willie. Of which Mural unlocked the main entrance gate and there I entered inside their yard at the time. Mural asked me, "What in the hell are you doing here this time of the night?" Being somewhat in a confused state of mind. I explained to Mural that I owe Harry some money for a vehicle that you brought over to my place a few days ago, which I was quite short on funds during that time. For I should honestly say that my whole life has always been a day late and a dollar short by helping people in time of need. I really hate in owing people money which there has been so many times that I really have to sell something while I buy something else of similar value, as a type of bartering all throughout. Now for this certain particular case where I owe the money directly to Empire Auto Wrecking which currently dragged on for exactly five days now for a motor vehicle that I have purchased sight unseen over one telephone conversation.

Proverbs 22:1-2 {1) For a good name is rather to be chosen than a world of great riches, and the loving favour rather the silver and gold. {2) For the rich and the poor have only one thing in common. For the lord all mighty is the maker of all.

At this appropriate time, I am here to pay Harry in full for vehicle while I paid the money directly to Mural totaling \$350.00 cash including delivery where I have promised Harry in the manner that I will pay him in full as soon as I can see my way clear to do so. During this particular time while communicating back and forth where Mural announced to me that you really look extremely tired and the condition of your eyes are incredibly blood shot, as he sympathized to me in being no shape to drive. For then I declared to Mural that I have just retired off of a 12 hour work shift and yes I am severely tired from connecting long hours with very little sleep during the process. Additional to all of this while fighting with much fine dust surrounding us as we all work from the many long years of service

in separating the majority of the good used reclaimed lumber from the waste material. To control a large part of this we have to continuously spray water from the fire hydrant upon the demolition debris in keeping the onsite dust reasonable under control from time to time. I further announced to Mural, how about you work with us in dismantling the Kingsway Motor Hotel? It will be just like old times. There he turned me down cold turkey and smiled while he hold his ground in saying no, no, no. For I am now a truck driver in hauling around vehicles from place to place. Mural stated that is my job now being an owner operator and no more demolition work for me, as he made that plain to say. There I continue begging for Mural's help on our site while I continue to explain to him that we can really use you there. Now to a more advance point with all else failed, where I have announced directly to Mural in leaving that position wide open on the matter, that's if you ever decide into changing your mind and take me up my offer while you make some extra pocket money. There I will keep this job offer open for you, as I have already announced that we are working on dismantling the Kingsway Motor Hotel. Towards the end of our conversation that has lasted approximately 20 minutes long while I been accompanying Mural at the Empire Auto Wrecking. After I paid Mural in full where I pleaded with him one last time, "If by any chance that you reconsider my offer, we start at 8:00am from Monday onward to Saturday and Sunday at 10:00 am start?" As I was departing from their work site location precisely at 8:50 pm Saturday.

March 22nd 1997 in which Mural has again stated to me that you are in no shape to drive back home in your condition. There I have assured to mural that I will be okay where I explained that I will possible pull over on the roadside and have a power nap on route for about a 1/2 hour or so, the onward home.

As I was leaving in my red Chevrolet pick-up truck while Mural was chaining up their main gate again for their security measures. There I yelled out to him, by the way say hi to Harry for me during the time I was leaving their worksite. From this particular point in time where I drove down 5th Avenue that leads onto main street of the east side of some unknown fixed address being accompanied in front of a parking meter that is next door to a telephone pole. Now myself being extremely tired, where I dropped some coins into that particular parking

meter which has accumulated up to 35 minutes total on the time clock. From there I returned back in my red Chevrolet pick-up truck and locked both doors for security measures as being in that particular area where I have fallen into a deep sleep. The very next thing I knew that someone is now knocking repeatedly on my driver's door window which has startled me from my sleep. At this point I decided to wind the driver side window down only to see of what they want at the time while these street patrolling officer's announced to me that your meter has expired and it is now about time for you to move on. There I have noticed that I am the only vehicle left that was parked along the roadside street, during the time of my depart. At this precise time that I have noticed where I have now over slept my time schedule planned, being now at 10:15 pm this Saturday March 22nd 1997.

Jeremiah 31:25-26 (25) For there I have satiated the weary soul and I have replenished every sorrowful soul. (26) For upon this I awoke and looked up around, and beheld my sleep and been very sweet.

There I dispersed from this specific area in feeling a whole lot better over the power nap which I decided to stop at this convenience store that is just up from the Patricia Hotel being indicating that the site location is on the left hand side where the store is facing directly onto Hastings Street. There I have bought myself a light snack which involves one cream filled donut, one liter of 2% chocolate milk and package of plain potato chips to munch on while I continue to over rive my own tiredness so that I can proceed on in driving home bound. But holding to my word on route as planned with the support of speech, "In killing two birds with the same stone." And being in Vancouver which I am going directly by the onsite location where Miss George Gina Dickens work at the Shell service station that located on junction of Powell Street. For I desperately like to talk to her in person about Gina Houston over her \$1500.00 phone bill scam and hopefully with her ability where will finally receive the whole truth behind this particular bazaar insolent. By now the time is 10:35 pm when I have returned back into my Chevrolet pick-up truck and there I ate my creamed filled donut while I continue heading down east bound on Hastings Street. For there I slowly urge my truck into the left hand lane with having the extreme volume of vehicle traffic leaving the Vancouver are at the time which has took me almost two blocks.

long. There accordingly to the heavy traffic where I finally arranged to make a left hand turn directly off of Hastings Street while driving left being northbound on some unknown side road adjoining to Powell Street which is only a one way street that's going eastbound. With having a tremendous volume of traffic coming down Powell Street that is only a one way street going eastbound leaving out of Vancouver. There I also re-arranged my vehicle also going eastbound being in the far right hand lane with less traffic. There I continue driving ahead down Powell Street, in the line of forward motion with the traffic and down the road roughly about a half of block ahead in the distance where I noticed this poor girl hitchhiking off of the sidewalk as this party continues walking backwards in the process while facing her attention to the surroundings. There at the point in speech, as things unfold before me while I never really knew the situation of what was happening until she stumbled off the sidewalk and fell directly onto the roadway of Powell Street which extending to the movement that has taken her was directly into the path of my pick-up truck. Immediately under these particular circumstances which I had to immediately stop with having alarming suspicion that something definitely happened to this particular lady with myself tendency taken while I secure the roadway with my truck and put on my truck emergency four way flashers. Then I momentarily exit my pick-up truck to see what I can do to arrange and help this party back on her feet once again of where I thought that maybe she could be intoxicated, but that is also utterly not the case. Without any hesitation, this thoughtless irresponsible lad had then thank me for stopping in the time of need of which I had no choice in this situation but to stop my vehicle in the process. Now to update with this particular party informal conversation where she has stated directly to me, that she was extremely over tired and quite clumsy on my feet in connecting to the main reason shy that I have been partying for more than 30 hours non-stop in a, without any sleep. Additional to this where this lady asked me directly if by and chance, are you interested in having a date with me, "For I give good head?" by this particular remark indicated that this party deliberately thrown herself directly out of her fierce anger and disposition herself in front of a motorized vehicle while hoping that someone out there would feel sorry for her while she only there to arrange a formal date. ("Which again is pure evil behavior").

Romans 3:12-18 (12) For they are all gone out of their way and they are all together, and they become un-profitable. There is none that doeth good, no not one. (13) And for their throat

is like an open sepulcher and with the support of their tongues, they have used deceit, with the poison of asps that's under their lips (14) And for their mouths are full of cursing and bitterness (15) And with their feet are swift to shed blood (16) And where ever they roam destruction and misery following them (17) For they do not know what true peace is (18) And there's no fear of god, before their eyes.

I then shook my head while I said directly to her, that you foolish dumb crazy fucking wacko for you can get really physical injured by playing around recklessly in being one of our own home grown terrorist extremist. Further more being somewhat upset over this mishap that happened there, I said no for I am not in any way interested as I am heading homebound and going right to bed being extremely tired.

Then the lady announced that nobody is stopping out here and I am cold too getting desperate while the business our here is extremely slow tonight. The lady went on babbling that she has no place to go and living on the street which she stated that I can surely do with a good night sleep to boot. I do believe beyond any doubt that this is her evil plan all along, only to receive someone's attention to stop, while they all get wrapped up into her cobweb being fully conceived of mischief then taking to her after exchanging views of guilt where I felt somewhat sorry for this lady while she begged me to help her. There she stated that I do not have any money or even a place to stay, so there I offered the goodness of my own heart, into the comfort of my own resistance. For there I will give this person a place to stay only for the duration of the night and offered \$100.00 in the making furthermore, I announced to her directly that I will personal have you back in the Vancouver area around 9:00 to 9:30am Sunday morning which I have to be back on our demolition jobsite prior to 10:00 am start, and this lady fully agreed to these terms in having a good night sleep.

Isaiah 58:7 For I want you to share your bread with the hungry, and welcome the poor wanderers into your houses. And when you see the naked in need, for that you cover them, and that you hide not yourself from you own flesh. Therefore, I hold firm onto my solemnly word of assurance and accompanied with having full support of our Lord Jesus Christ while being somewhat blind during the process.

Now in spite of the fact that I have invited a total stranger into my place of stay without me fully understood this whole situation of what is really there in store for me upon our arrival. Additional to this while expressing myself in accompanied with these thoughts that is linked to the fact where I am way over tired. Now after somewhat agreeing onto my terms in support of these minor gestures which I one again returned back into my pick-up truck where I unlocked the passenger's side door and let this woman that is in distress climbed in upon one's own effort. For me bearing down with the fact into contributing time being approximately 11:10 pm on this Saturday March 22nd 1997. During this time I turned off the four way emergency flashers, and then without any delay released my trucks emergency brakes while we went onward to see if it is able to locate Miss George Gina Dickens on route. For all one knows that she could be walking along Powell Street from the Shell service station. Furthermore where ever this particular party was during that time periods which has left me total unable to locate this particular person. Now understanding the total awareness of expressing the travel distance apart from the site location where this one foolish woman thrown herself directly into the pathway of my vehicle was only about 1/2 of a mile away from where George Gina Dickens works. This was the very first time that I have ever intercept some unknown woman while I brought her over to my place of residence and not even actually knowing what I am getting myself into. Later on I have came to my own understanding that her real given Christian name came across as, Wendy Eistetter. From this particular time where we journeyed by following along the accordance plan to our agreement while we exit up Powell Street in associate linking to a joining street that connects directly onto the Trans Canada Highway, being the 401 leaving Vancouver. As we continue from there we traveled onward in route to my residence that has taken approximately 40 minutes of driving time and arrived on location at 11:50 pm Saturday. There accompanied by Wendy Eistetter where we entered into this 12 by 70 foot mobile home which we just bought two months earlier in January of 1997. I pointed out the whole lay out of the unit to Wendy, as I formally explained the small bedroom to the left, following by the bathroom then to the onsite office that I have just installed about two weeks earlier. Moving ahead further is the kitchen area being a joint on the far left side is the washer and dryer, while that accompanied directly to the right is the oil furnace and finishing off north of the kitchen is a large living room. After I explained the whole lay out Wendy Eistetter, I went onward to check on my telephone answering machine that was intercepted by two messages while Wendy went to check out the bathroom. While Wendy at the time to my belief was freshening up

in the bathroom, where I went on into the formal living room that I use only for my own temporary bedroom. There I prepared for another night sleep which I convert this particular good used Chesterfield into a full out bed prior to the benefit of settling down. Now to update this good used Chesterfield combination bed along with the matching chair that has mysteriously appeared in the living room of the mobile home when I arrived back from the ongoing demolition worksite back on Tuesday evening March 18th 1997. Later on I have learned that Brother Dave has arranged to purchase this good used chair Chesterfield combination bed set at a very reasonable price during the Monday evening auction sale while selling variety of household merchandise during the Maple Ridge auctions, located in Haney. After I prepared the bed for the night, and with having extra support where I rearranged my own green sleeping bag while using that as a top comforter in having a form of energy for the long cold night ahead with no furnace heat. A short time later I shouted out with reference to Wendy Eistetter twice from the location of the living room for over 20 minutes now. For myself, at this time I was already quite comfortable in bed which we have to get some shut eye to the benefit observed that morning arrives early. But during this whole time I am having no type of response at all which has full alarmed me to some extent that maybe something has possibly happened to Wendy Eistetter in the bathroom for me being tired as I was has alarmed me to the point that there is something wrong when I decided to get dress again and went over to the bathroom where I knocked on the door and said, "Are you alright Wendy?" There having no response of what so ever has alarmed me more and more beyond exceedingly to the point that there is something definitely wrong with this picture. During these ongoing circumstances where I have only silence throughout this specified time period leaving me with the consequences of one's actions where I decided to knock on the bathroom door a little harder in saying to Wendy Eistetter, "Are you okay?" Then I final heard the bathroom toilet flush in knowing that this party is alive with a voice in the background stated that I will be out shortly. There I announced to the party that the bed is already made, and I am going to bed promptly where Wendy join up with me in the living room while there I am already in bed. I told her to come and lay down right beside me as I am trying to comfort Wendy into bed as the morning arrives early. Next thing I noticed that this party has now got completely different plans while she came out with this one condom sheath that Wendy has formally brought with her and she insist forcefully engrossed to have sex. I said to this woman that the only thing which is on my mind for representing myself is to only going to sleep. As I am really extremely tired when

I further said to Wendy Eistetter, "That if you really wish too?" We will have formal sex first thing in the morning being refreshed. For what is the difference if we have sex or not which I assure you that you are still going to be paid no matter of what the situation is being paid in full of \$100.00 as I have promised you, for my word stands forever.

1 Corinthians 3:11-14 {11} For other foundation can no one man can lay than that is already laid which is Jesus Christ.{12} Now if anyone who builds on that foundation may use gold, silver, precious jewels, wood, hay or straw.{13} But there is going to come a time of testing at the judgment day to see what king of work each builder has done. For everyone's work will be put through the fire to see whether or not it keeps its value.{14} If the builder survives the fire, that builder will receive a reward.

Before long, I finally gave in while I surely can now see that I am not going to get much sleep anyways until this is put to rest, where I went onward with the flow. For I really kind of regret that I ever came across this woman's path but in regardless that is water under the bridge. This situation is now her show, as I totally invite Wendy Eistetter in being that lady function in distress, which I have allowed into my place of residence with have the time now approximately 12:35 am Sunday March 23rd 1997.

Following first of all this so called ignorant woman demanded to be paid all in advance which I then handed over to Wendy Eistetter one hundred dollar bill that I had laid to aside in planning to give her at the time of our depart which was to occur during later that following morning. But once again, sadly to say, while introducing the situation did not please her as this woman is determining now in playing hardball with me. During this time, the foolish woman that's lacking much knowledge while she insist now that she wants five separate twenty dollar bills of which still total to the full equivalent sum of this particular one hundred dollar bill. Then instantly without me thinking over this situation twice being extremely tired, where I reach for my both money wallets where I was carrying all of the remainder in totaling to \$3000.00 cash where I exchanged these dollar bills around. Now into address over the main reason why I am carrying two money wallets, which I use one strictly for holding the volume of all the smaller bills while the other wallet is supporting all the larger bills in a form of separation between one to the other of where I have

found out this works out great. There immediately Wendy Eistetter saw that I was carrying in support of unlimited amount of cash on me at the time where I have just got paid by Mr. Pat Casa Nova in full earlier that day. Here is where I have made a very bad mistake on my own behalf from being extremely over tired and now somewhat confused. Remember this is all strictly her performance while undertaking business which I have never engaged in something like that before while Wendy finally re-arranged this particular one rubber condom sheath in its proper location. Then before long we both engaged into this so called sex with one another where Wendy Eistetter stated at the time is 50-50. Then with myself being somewhat confused to accompany that extravaganza remark on all of this where I ask Wendy a direct question over this, in wondering what does that really mean through the word of speech? To update this particular remark where Wendy stated, that means in another way half head half lay stupid, for what the hell do think that means? With this very rude remark that I have received from Wendy Eistetter, where I said to myself oh okay. Then to cover my thoughts over this of where announced to her that I have learned something new that I have never heard before while I know very little about any type of sex. Now being a green horn, I would like there to announce I had sex only once before while going as far back to the time frame in early summer of 1992 which I will not mention in regards to her name. This is to protect the right of the innocent in connecting to any wrong doing and only specified one's actions in showing full appreciation that I have little experience about women over sexual intercourse as sex is sin without marriage, to the point of where I am guilty.

Galatians 5:16-18 (16) For I say unto you, walk in the spirit and you will not carry out the desire of the flesh (17) And for the flesh sets its desire against the spirit, and the spirit sets its desire against the flesh. For these are in opposition to one another, so that you may not do the things that you so please (18) But if you are led by the spirit, you are not under the law

Now after we had this so called sex which during the time I forbid this particular episode of events upon that early Sunday morning pushing approximately 12:50 am. After that I slowly removed this one rubber condom sheath which was the very first time I have ever used one. Now during this precise moment in time where Wendy Eistetter got up and hurdled

off back into the bathroom once again while she's moving along foolishly in her steps taken accompanied during the course that she traveled. The grueling symbolic gesture has really alarmed me in having great concern over her own welfare as the consequence to support the fact that there really is something wrong with this particular picture. Meantime to our updated plan where we are supposed to be going to sleep right after we had sex according to my own understanding which I thought, but this has once again took another detour route. Currently myself being extremely somewhat confused by now, more than ever before. This is where I once again climbed out of this comfortable bed to the point indicated of me getting dressed which I am now shaking my head in wondering what in the hell is wrong pressing upon this urgent need over this one idiotic crazy lunatic of a so called woman that rushed back into the bathroom. After I got dressed repeatedly where I one again went back to the location of the bathroom and knocked on the door which I ask politely, "Are you okay?" As I received to type of response back leaving only silence that has lasted for about a minute or two longer. Then breaking the silence as Wendy Eistetter flushed the toilet which again was probably another cover up of when she shouted out of the blue in saying, "That I am okay." While this has dragged onward for an additional 15 minutes. By now the time has extended to 1:05am on this early Sunday morning when she finally retrieved out from the bathroom. During this precise time period where this one irresponsible lunatic was all completely changed individual with her own mischievous characteristics in having a brain storm which really makes no sense what so ever. Now this particular person engaged with her corrupted mind revolving quite rapidly has decided now to use my on line telephone into communicate with her party drug friends as she decided desperately into contacting them at this specific moment in time, for them to come and party at this remote place. In knowing of what she has now decided being a hypocrite where I decided in holding my ground while I directly told Wendy Eistetter that systematic plan of hers definitely will not happen of what so ever.

This is only to alert Wendy Eistetter over this particular situation and in relationship that's addressed to her where this is really my place and not yours. By this time I am way over tired being under these specified conditions to the limit of where I cannot think normally. To address over this particular essential characteristics in having that type of un-conditional over her behavior that I am witnessing directly in front of me, has changed Wendy's uncontrollable reaction in not have her own way, while her wickedness of evil aroused promptly.

2 Peter 2:11-14 (11) Where as angels, which are greater in power and in might, and bring not railing accusation against them before the lord (12) But these as natural brute beasts are made to be take and destroyed that speak evil of the things that they understand not and they shall all utterly perish in their own corruption (13) And they shall receive the full reward of their unrighteousness, and as they count it for pleasure, riot in the daytime. Their spots and blemishes are sporting themselves with their own deceiving while they feast with you (14) Having eyes full of adultery, and that cannot cease from sin. Beguiling unstable souls and hearts for they have exercised with covetous practices and to curse children.

Wendy still being totally ignorant, and still insist that she is going to take full control of my land line telephone and to contact all her formal party friends, and for them to arrange and relocate themselves and party over at my place while she slowly works her way toward the office area where my telephone and answering machine was located. Going against all my wishes where Wendy decided to reposition herself on the swivel office arm chair that is located right in front of the second office desk and she reached for the white pages of the telephone directory service. There she began to scan throughout the white pages while looking for some group of on line telephone numbers to get in contact with these clusters of party people as all of these things slowly unfold directly in front of me to the full extent.

Wendy's own actions to where this particular party continue to go against all of my wishes. At that moment in time, to fully understand that particular whole configuration as we are only here to sleep for the remaining time of the night. There with our original fore thought plan where we are to return back expressing our ongoing regular duties later that morning after I dropped Wendy off in her area of Vancouver, and there I will donate her \$100.00.

Romans 2:14-16 (14) For when the gentiles which have not the law, do by nature, the things contained in the law. For these having not the law, are the law unto themselves (15) Which shew the work of the law is written in their hearts, and their conscience also bearing them witness, and along with their formal thoughts, and meanwhile they are accusing others, etc.

else they are excusing one another (16) In that day is when god shall judge the secrets of men by Jesus Christ according to my gospel.

Being under these present on going circumstances with myself as an individual person living in this one particular remote isolated area which you really never know who is around there on daily bases. In that whole are, there has been so many times that groups of people been loafing around all night long and towards the weekends are the extreme worst all throughout that particular area. Now presently myself being under these specific conditions which has occurred to me during the time frame of mid-summer

2000. This was when I was out for the majority of the afternoon at Fraser Valley auctions in Langly B.C. When I arrived home on that Saturday evening approximately 6:30 pm when I caught three individuals being, two men and one women, this took place while I walked in the onsite mobile home when I noticed all three were perched up on my bed during my discovery. There with my startling find where I ordered these three unknown individuals out of the mobile home and off the property. This is the precise reason that I carry a pair of portable handcuffs on hand for my protection as regards in use for strictly emergency use only, that I have removed from the old Dodge motorhome several weeks ago, which I now relocate that unit into the onsite mobile home. As Wendy is beyond controllable to the point of where I left her minding her own business while she determining to solve this situation by scanning continually through the white pages of the telephone directory, only to contact her party friends. During this time I dispersed and went into the other room to retrieve that particular pair of handcuffs that I placed there for emergency use of my own protection. Concerning myself, after retrieving this one particular unit where I went back to the office area of the site connecting in associate of where Wendy is continued goofing around during this time frame. Before I even jump into any conclusion, where I will try again in reasoning with her for the one last time while I try intermittently to talk things out. Now in corresponding with her for the very last time to where I offered to take Wendy Eistetter back to the precise location from where she originally came from in Vancouver area.

Additional to this being on the other hand for the catastrophic result while I fully jeopardize the risk of my own self as being beyond incapable to even drive that distance which is held in accordance to my normal state of mind. Now to elaborate over these new updated design

change of her game plans as Wendy's deceitful scheme while being extremely determined that she insist to contact her drug friends by using my online telephone. For much of her own configuration of arrangement and in joint to her auxiliary power being under these present circumstances where she wants her drug friends to accompanying us on route into a remote site location of Vancouver. There I once again state directly to Wendy, that will not happen as she already know that I am carrying a large volume of cash in supporting total of \$3000.00 in the balance. I might be a fool, but I am not that big of a fool to the point that at least I surely can read in between the lines which it is extremely plain for everyone to see and fully understand these true facts that has generally occurred and implying much publicity into this particular case. From this uncontrollable eccentric performance that was take place expressing Wendy's odd alternating behavior of psychological disorders. Now in spite of the fact that whatever this particular party was on at the time, possibility in being high on something or her capability in having extremely weird abnormal behavior as nothing functioning here at all that ever makes any type of sense. Now expressing myself, while I am here running out of all options to the point of no return which I removed the white pages from her own hands and replaced that back up the office desk top. Then during this precise time period where I have took I upon myself to finally now use these portable handcuffs for the very first time ever over this extraordinary event as I arranged to clasp one end in fastening that directly upon Wendy's left wrist. Now formal plan in conjunction to clasp the other end directly to the door knob for security measures, and then following with the procedure from there into contacting R.C.M.R.

by using my land line telephone. For myself in doing this protects me from whatever Wendy has in store for me and get the police department to deal with the home grown terrorist and remove her from my onsite premises, so that I can finally arrange to get some sleep at last. But now going back to these ongoing proceedings that was underway at the time when this was taken place. There Wendy Eistetter jarred the other end of these in being portable handcuffs, recklessly out of my hand and wandered into the onsite kitchen area, as she goes bolting ahead with her devilish outrage of her own foul gibberish language that came directly out of her mouth. For this particular style of human outrage reaching from deep inside which only describes a graphic image expressing only that demons can every justify for the type of evil wickedness and observed total around her own emotional suffering.

Ephesians 6:12-15 (12) For our struggle not against the flesh and blood, but against the rulers and the powers and against the world forces of the darkness, and against the spiritual forces of wickedness in the heavenly places (13) Therefore take up the full armor of god so that you will be able to resist it in the evil day and having done everything there to stand firm (14) Now stand firm therefore in having girded you loins with the breast plate of righteousness (15) And in having you feet shod with the preparation of the gospel of peace.

Now moving into the kitchen area of the mobile home as the situation is getting right out of control while I struggle against the world forces of darkness. There on the right hand side of the counter that is just below the end of the set of these upper kitchen cabinets being a joint to the kitchen sink was this particular knife in needed to be cleaned along with some pots and pans. Now Wendy seen her opportunity to where she grasp onto this knife for all she's worth with a firm grip in her right hand while in conjunction to this precise time period, to where the other end of the portable handcuffs which was still strapped to her left wrist. For her settled opinion by using this knife as a weapon with in-Wendy's own characteristic as being out of control to the extent seeing a troublesome race, concerning her own violence against me. There this squirrely out of control woman that has savagely attacked me in accompanies with a knife, while I was slashed over and over again. Never the less, before I even know of my own situation that was in and this really actual happening to me being on the receiving end as a victim concerning crime related and now extremely exhausted. In a very short time, there I was already severely slashed directly across my throat twice following the direction left to right. Now during the course through this major hurdle which was savagely been penetrated deep within my jugular veins of my neck, and while I was bleeding like a stuck pick that carries the blood flow from the heart directly to the head. Also in relating to her extreme fierce anger as this Wendy Eistetter has further knifed me directly through my left check which has total involves removing my two upper rear molar teeth from the upper left hand side of my mouth the I do dearly miss from time to time. Additional to this where I have formally learned through our scientific advancement that has also been distinguish by the mighty power of the knife which has also forcefully removed over half of my upper part of my palate structure where located in one's mouth cavity of open vertebrates. Besides of all these physical life threatening injures that I have received by Wendy where this bizarre individualist finishes off with my both arms are also

severely knifed. During this time over that insolent of which surprisingly only took that particular on crazy unstable woman less than one minute to do all of that damage to me as the victim over violence located at my place. Now I pause momentarily to pre-occupy over one's mind in having straight common sense that has demonstrate to the scientific theory to support the evidence that lays before you in logical proof. Now this particular information is left for the readers into monitoring this as they also arrive to their conclusion for the whole truth must be told that goes on behind the scene. For Wendy's outrage characteristic for have a unstable mind which indicated by gesture that covers over two main reasons and accordance with the possibility of the third reason that demonstrates for this one unusual particular ladies behavior that brought forward her rage.

Example One: For the extreme fear of her life while she's defending herself from the force exerted to her mind in resisting attack in the process which all relates to this particular bazaar outrage. Example two: For this particular lady only wants my unlimited amount of cash money that I was carrying on that particular night into achieve with one's own desire to support all of her drug party friends that relates back to this bazaar outrage. Example three: For that this particular lady got much frustration been built up during past, while her former experience has been rejected in not having her way for so long as Wendy's emotions finally exploded with her anger and using me as her victim that relates back to this bazaar outrage of Wendy's behavior. This display is only for the readers to test their theory.

Ephesians 2:2-3 (2) For where in the time past as ye walked in according to the course of this world and also according to the prince of the power of air and also for the spirit that now worketh in children of disobedience (3) And among to whom we also had our conversation in time past. And in the lust of our own flesh while fulfilling the desires of the flesh and the mind. For also by their nature in close relation to the children of wrath and tender even as others.

Now with my self holding on to a certain qualification of this short term relationship, while I under go this particular type of experience that relates to my deepest emotions based

on the contrary of ever crossing this woman's path. For me being there as I maintain one's ground where I announced directly to Wendy which I stated without due regards to common sense saying, "You fucking mean horrible bitch!" Of argument in exchange over views that you knifed me of all things. For myself being under these present circumstances and also being overwhelming with my own logical safety that has really alarmed me to most highest degree, to the point of where I said, "Enough of this fucking crap." As I continue to bleed heavily while I exit out from the onsite mobile home and leaving a trail of my own blood behind me where ever I went. To accommodate over myself without any particular reference to my time schedule and in my position expressing this point where I truly believe I do not even have any type of lee way at all, or even attempt in using my online telephone into contacting our local RCMP detachment headquarters. The main reason why this is not possible in know that this crazy insane woman is now somewhere behind me with this particular knife that's in her right hand. Additional to this data as I relate back to this one wacked out crazy corrupted lady that is still out of control while really unknowing what actually she is capable of doing next, as she watches me like a hawk over one's prey. During this precise time span where I truly believe Wendy Eistetter was monitoring my movement by utterly viewing through the east side window of the onsite mobile home. There anyone can have perfect overview of the site location as I was walking towards my own pick-up truck. Besides this is where I further believe within that split second time frame and without me in knowing of what exactly is really going on in her evil mind. There Wendy also exit the onsite mobile home in pursuing not far behind me to prevent myself from ever leaving these onsite premises. When I arrived at my 1981 Chevy half ton 4x4 short box pick-up truck with my hands all covered in my own blood at the time while I contribute to with having all respect to my completely fully restored unit in being only a month old. I therefore immediately hesitated for a moment or so prior of myself opening the driver's door where I did not want to smear all of my own blood over the newly painted surface. Now over riding my own emotional feeling to the point of life and death as I climbed into my pick-up truck by supporting my left foot directly in the lower corner door jam. There I support my body by using my right hand in holding onto the steering wheel to override the extreme height of this four wheel drive because having large inflated tires on that unit. Now during this whole process as I was climbing directly into my pick-up truck with support of the driver's door which been protecting my whole left backside. Now with all my thoughts put to aside while unknowing what this evil mischievous woman is up to next. There thinking

about what she is capable of doing while Wendy was sneaking up directly behind me at the specific time frame with the knife. There once again this particular evil witch has surprised me when she knifed me in conjunction to the right side of my lower back. For the precise location was just below my rib cage in the flank area. Now this particular type of injury has caused astonishing sharp nerve pain feeling throughout that devastated area of my lower back that has alarmed me to the full extent that something is very wrong. During this time I was only about half way entering into my pick-up truck to where I had to retrieve and stand back up solid ground. Now expressing full confirmation is where I have found out that this senseless irresponsible woman named Wendy Eistetter has now remarkably knifed me directly in the back. Ding under these state of affairs which this mischievous disrespectful woman performance is no more than a back stabber to where you very rarely hear except in the movies, "But this one situation, it is real life."

Luke 11:23-28 For he that is not with me. Is against me. And for he that gatherth not with me, they scattereth, and when the un-clean spirit is gone out of a man for he walketh through dry places, while seeking rest and finding none. There he saith that I will return unto the house whence I came out. And when he cometh, he findeth that it is swept clean and totally garnished. Then he goeth and taketh with him seven other spirits, being a lot more wicked than himself. For there they enter in and dwell there, and the last state of that man is worst than the first. And it came to pass as he spoke these things, for a certain woman being in there company that has lifted up her voice and said unto him. Blessed is the woman that bare thee, and the paps which sucked through. But he said for yea are rather be blessed for they that heareth the word of God and keep it.

There I reached with my right hand while over riding her right hand as Wendy Eistetter continue in holding onto that particular knife, when I removed this item by pulling it directly out from my lower back and with myself there following the whole procedure in the series of steps that's taken, as I turned around in facing her directly saturated in my blood. Now being in conjunction to this evil witch that's named Wendy where this wicked person cannot directly face me to the point of where I have spoken some unpleasant words. During this time is where I communicate over gesture in her disrespect of life extensively and

general. That particular situation where I will not repeat this over again in owning to the fact that I have said this out of anger. At this mentioned time while I continue on holding to Wendy's right hand with a firm grip while being connected with this one unreliable person, that completely is full of her own anger and she still holding onto this knife. To justify this type of evidence in defending myself from having another brutal attack where this Wendy is definitely capable of performing it over again. Now to conquer this bazaar rude insolent to where I am having no sense of any remorse for Wendy during this particular type of her weird unraveling behavior. There I have formally decided to return some of her own type of medicine that I received during this bazaar attack. This is when I came to the conclusion and turn the knife blade towards Wendy's upper waist area and insert the knife blade all the way in with all my might. For I did this strictly over self-defense in this one specific alarming situation while choosing life over death. Now with reference to this particular actions did not merely stop there while this crazy ridiculous woman still has full control of the knife when he retrieved the knife out from her piercing wound in the upper waist area accompany with her right hand and being devastating to attach me over again. There I had no choice in the matter but to grab her right hand again from resisting attack while Wendy is still holding onto that knife. There I again repeat this same procedure and this time she lowered herself to the ground from being somewhat over exhausted and with abundance to support her stomach pains, while I said good which Wendy Eistetter deserves every bit of that. For myself progressing ahead with my blood all over my truck driver side door and bleeding consistently throughout this ordeal as I hustled myself back into my 1981 chevy pick-up truck and backed out of my parking area there onsite of where I started heading down the drive-way of my place.

Leviticus 24:19-20 {19} For if a man cause a blemish to his neighbor as he hath done, so it shall be done to him {20} A branch for a branch, an eye for an eye, a tooth for a tooth, as he caused a blemish in a man, so it be done to him.

Now for the readers to take this manuscript under advisement to the most extreme of which even myself is her having a hard time into believing this particular episode if I have never really witness that unspecified even with my own eyes. This so call erratic wacked

out crazy woman now in having no fixed course of direction is somehow current at the moment running directly behind my Chevy pick-up truck as I continue driving slowly up the roadway in knowing the feeling of my satisfaction that this particular party is not dead. During this process Wendy Eistetter is continuing whaling the know that in her right hand from side to side as she is screaming in a very high pitch voice saying directly to me, "That will kill you yet, over and over again." Surprisingly I just made it out of there by a narrow margin of my life and to overcome this particular episode of events to where I accelerate my pick-up truck faster in speed as I left her way back in the dust.

Jeremiah 9:3-9 {3} for they bend their tongues like their bows of lies. But they are not variant for the truth upon the earth. For they proceed from evil to evil, and they know not saith the lord {4} And there take heed to everyone of his neighbors and trust ye not any brother. For every brother will utterly supplant, and for every neighbor will walk with slander {5} As they have taught their own tongues to speak lies, and weary themselves in commit iniquity {6} For thine own habitation is in the midst of deceit and through deceit as they refuse to know me, saith the lord {7} Therefore thus saith the lord of hosts, behold I will melt them, and try them, and for how shall I do for the daughter of my people? {8}

For their tongue is as a arrow that out, for it speaketh deceit. For everyone speaketh peaceably to his neighbor with his mouth. But deep in his heart he layeth and wait {9} And the shall my sould not be avenged on the behalf of a nation such as this.

Now with having reference to this confirmation as I drove my 1981 Chevy pick-up 4x4 from the property site of 953 Dominion Street location to where I express my formal thoughts and consequences being originally in her company and severely knifed by Wendy's unprovoked rage. Also to back up this one particular location with have my testimonial reports that all leads up to this one bazaar incident while being in one's company and separated by Wendy's devastated outrage behavior that make no sense at all. After leaving Wendy Eistetter in the dust while she was left defending for herself in the center of nowhere to which I drove approximately 2 1/2 miles to the Coquitlam R.C.M.P. detachment. This site is located 1 1/2 blocks north on Christmas Way which is off of Westward Street. Furthermore to update the particular site location is directly behind the brick ware house of the Westwood mall.

there I parked along the roadside curb in facing southbound. Now from there I walked up the wide spread concrete stairs that lead to the main onsite entrance door of our community police department when I found out that their glass door onsite was locked tight at this precise time that really baffled me to a point. During this time I have left a much smaller volume of blood being now only droppings on route leading up to this main entrance door which has considerably slowed down in bleeding from my exit wounds that I received by Wendy's anger. Now with my hands being completely saturated in the company of my blood from my exit wounds as I left abundance of blood being heavily smeared all over their glass door by knocking on it while only hoping to a point that someone was there onsite would possibly hear me and final let me inside to talk to one of their onsite officers. This situation that I was in was hard for me to grasp as myself to ever believe while providing full support when one desperately wishes into contacting our own community police inside this department. There the onsite police staff are at the point in being nowhere to be found, which I came to my own conclusion that truly believe this is nothing at all to really be alarmed about. Four our local police staff decided to lock their door and now treated themselves over at Tim Horton's donut restaurant. Furthermore I said to myself, that I believe they should be back here very soon while I sat there and waited on their concrete stairs that lead directly up to the community police department while wondering about how long they would be before these officers return. Under these circumstances I believe I waited there about three to five minutes the most upon my own understanding while I am lost in time, and for myself being so eagerly to speak with the upon their arrival. As the time was continuing rolling in breaking day, and myself failing all resources ability to contact the police department, without success which I now decided to drive myself onward to the hospital if the police staff fail to arrive back here soon. To understand this whole situation was simply for myself to get mended up at the hospital, and by the time I arrive back here the police department should definitely be open by then. With results over one's actions into considering the main reason why I wish to contact our police department staff is to notify them that my own family members onsite could be in extreme utmost danger as a result of this one crazy women that is momentarily terrorizing foolishly around the family farm. Also bearing in mind for the police own safety and others in advising full caution while they approach upon this particular woman named Wendy Eistetter. This party has got a knife located in her right hand and a handcuff that's strapped to her left wrist while this party will be easily to distinguish upon immediate eye contact. Now relating to much of

her performance over this one wild uncontrollable behavior that this woman is extremely vulnerable in doing anything noxious, as being physically, mentally and also emotionally disturbed. But again there on no onsite police co-workers around to be found of what so ever. Now with the police squad taking action following immediately over one particular event which I formally learned through my defense lawyer, Peter Ritchie from their police official reports that they have formally received during the police investigation. There Peter Ritchie stated to me over this particular person indicated as Wendy Eistetter while she been playing with some illegal drugs which has took place in your bathroom of the onsite mobile home. This totally expresses all of her obvious formal reactions of her own characteristic impose condition over Wendy's hostile aggressive behavior. Furthermore with support having this particular evidence in being extremely curious to a point where I have learned through my defense lawyer of which this one home grown terrorist at the time was using needles and shooting herself up with cocaine and heroin. As these are extremely powerful drugs to which many people under estimate these factors in mixing together are magnifying one's energy to the point being heavily confused to where these individuals overdose. Additional to this in when mixing these deadly drugs together while conflict to their downfall that relieves sudden spontaneous impulse exertion that arise into their own body reaction which cause spur of the moment hallucination experiences. Beyond this particular information that I have studied up on in books, which I truly have no idea at all what the stuff really is or what kind of formal reaction this particular type of drugs really does upon one persons mind over time. Cocaine and heroin substances are both a type of narcotic drug that fights against one another which they are totally illegal in the country of Canada and being contrary throughout our Canadian laws nationwide. During this time while helping that one particular woman from her distress call as I have now open the door of hell, being the biggest nightmare and the most terrifying experience into the world of unknown that I myself have ever encountered. With myself having full respect to the word of god honoring The Holy Bible. Of where I have invited Satan himself into my place, expressing his demonic power and that have taken place within the knowledge of one individual. The figment of one's own imagination being under the influence of drugs having fiercely energetic within this troublesome person.

Cocaine: This particular type of drug is from white crystalline-alkaloid, derived from

coco-leaves which also used as a local type of anesthetic, or used in many other various forms of narcotics soporific drug that also brings forth emotional effects to the mind and along with other types of physical feelings such as this symptomatic mental disorder. There have been many other times by using this narcotic drug in being heavily confused with having optical illusions of one's imagination.

Heroin: This is a completely different type of narcotic drug which is also an extremely different type of narcotic drug which is also an extremely high addictive type of substance as this is being developed from white crystalline analgesic and with the juice of the opium poppy. This is also used in medicine and combination of these analgesic drugs, additional to these narcotic drugs. For it is the same substance in having both morphine and heroin structure relieves as this pain causes drowsiness, affects behavior and mental disorder of the mind.

Job 14:1-4 (1) For a man that is born of a woman and within a few days being full of trouble (2) Being like a flower while we blossom only for a moment, and they slowly wither away. Like we be as a shadow of a passing cloud and soon we all will quickly disappear (3) Through these troublesome actions within thine own eyes and bringest me into the power of the judgement and such a one with thee (4) For who can create purity in one born, in pure? "Not one".

Now continue from the location where I left off sitting on the concrete stairs of the police department while waiting for them to arrive back to where I got fed up in waiting here any longer. From there I returned back into my pick-up truck and dispersed as I pushed myself onward to my new destination. Now intending to arrive at the Eagle Ridge Community Hospital while leaving my thoughts on the back of my mind in only hoping that my family will be okay in the process. The hospital is only approximately 1 1/2, miles away in further distance from the site of our local community police department. Now on route to the Eagle Ridge Hospital as every went on without any trouble during the journey until the time when I approached the last traffic stop light prior of entering directly into the main hospital's drive-way parking lot. There I noticed that the traffic signal turned red which I stopped from being only shy of entering upon my arrival at Eagle Ridge Hospital and with not even a single vehicle on the road or any police around in sight of what so ever. While

I wait thee for the traffic light to turn green and connecting with my own feelings being a little light head of drowsiness where I shook my head to wake up while driving a motorized vehicle on the public highway. For the consequences of my action is caused over one of these two main reasons to support this scientific theory specified. From much lack of sleep or achieving a greater efficiency from extreme lack of blood and to my own understanding at this time frame, I really do not know of which one it is. As I continue on waiting then for the light that remained to stay red to turn green while I myself is getting by the minute very blurry through my eye sight vision. This is when I took upon myself and decided to drive through the red traffic light and finally parked my pick up truck most eagerly in the lower end hospital parking lot. While myself enter into their empty parking lot where I have notice two vehicles located in the far west side which I thought that was unusual at the time, but that I do believe would have been onsite hospital staff. As for me to suppose the location where I decided to park my vehicle was located on the east side of there being closest to the hospital with having a concrete sidewalk that lead directly towards the main hospital entrance doorway. Never the less, there I walked up the sidewalk very proudly towards the hospital's door in a bloody mess and in knowing that I have overcome Satan and his evil spirit of this world, in joint with the power of darkness, but always remember that nothing comes without its consequences.

James 4:4-7 {4} For ye adulterers and adulteresses in knowing ye is not that the friendship of this world is inimicity with god? For that who so ever, therefore will be a friend of this world is an enemy of god {5} And do ye think that the scripture has saith this in vain. For the spirit that dwelleth within lusteth to

envy {6} But he giveth of more grace to wherefore he saith that god will resisteth the proud but there he giveth grace unto the humble {7} For you must submit yourselves therefore to god, and resist the devil, for he will then flee from you. Draw high to god and he will draw high to you.

For there I walked along on route by following the concrete sidewalk while ending my journey directly in front of the Eagle Ridge Hospital sliding glass power activated door. Once again this particular door has also refused to open for me being under its own physical

power for some unknown reason while separating me of my desperate motivation from entering inside. Myself being courteous at that time in questioning my own personal thoughts in concerning that I know the Eagle Ridge Hospital site there is really open of when I decided to know on the sliding glass door, where I left some more of my blood stains upon that door too. Before long I received attention by one of the onsite security guards that was sitting comfortable on a chair while reading the local newspaper at the time when he glanced up and there he noticed me knocking upon their door from the outside. For this incident aroused the onsite security guard, to his sense that this party is physically injured, when he got up from that location and came over to activate their glass door of the hospital's lounge from the inside. After all this nerve racking experience which was going through my mind at the time to where he officially let me enter into the eagle ridge hospital, upon my own will power. Now to update all of this puzzling confusion, as where I have learned through the on-site security guard information at the time that I received from him. "he stated" that this is the exit door that's leading directly to our lower parking lot, and for our main entrance door is located north of hear, being at the other end of the hospital site. A short time later, I collapsed right down upon the eagle ridge hospitals floor, from my physical body break down, while expressing the most extreme loss of blood, as I continue going in and out of un-conscious-ness at this point. Now with this alarming experience resulting from this, at this same time frame, when I finally came in contact with one of the formal members of our community police task force. But during this same precise time frame, which by now I am far to weak to even talk with the police superintendent, being in conjunction to Wendy Eistetter, as my life was passing me by, to the point of death. There I was trying to communicate with the police, while the on-site medical practioners announced directly to me into save your own energy, and they ordered the police to leave the site area. During this particular time period, the physicians had to rush around in the spur of the moment, for their on-site equipment while they resuscitate me from the point of death, with having the re-serve material on hand to support the hospitals on-site blood transfusion that they had on hand. Now after a whole lot of scrambling around to where the on-site physicians finally got me stabilized while being in extreme critical condition, while he is presently in holding on his own breathing normally. Being under these present circumstances, the onsite physicians wish now to talk directly in correspondence with the party that has brought me into this one particular hospital. Before long, the onsite physicians has learned that I had no choice in the matter when the general practitioner found out that I drove myself to the

Eagle Ridge Hospital in being under estimated over these extreme circumstances. For these medical physicians that were there on hand at the time was totally astonished that I myself was all most dead when I formally arrived at their hospital site. Understanding this over my own situation which was now left these medical practitioner totally baffled that someone really in that particular condition could drive a vehicle far beyond all mean and arrive here to their point of death. Shortly after the onsite physicians finally got me holding onto life support, being in stable condition when they announced directly to me that this hospital establishment do not have the particular type of equipment in this hospital to deal in corresponding with your injuries that you are suffering from. Now to update this conversation of what the physicians are really telling me that we are going to arrange an ambulance technicians into transport myself over to the Royal Columbian Hospital as in dealing with this particular type of operation. Through my formal thoughts, this was a little unusual for the onsite physicians to actually say that. For I truly believe that one hospital establishment has got the same surgical equipment that the next hospital establishment got on hand. Here I believe that the onsite physicians are here passing the buck around, while I am getting a whole lot more confused by the minute following orders as I go between with having very little to say. Then I said to the physicians in making this simple, being in a normal state of body and mind, while expressing to the majority of my internal external exit wounds that I received to the point where I have to drive myself from here now onward to the Royal Columbian Hospital. At this time in questioning over my comment as the physicians announced to me that will not happen, for this time the ride is on us.

3 John 1:2-4 (2) Thou dearly beloved, as I wish above all things that thou mayest prosper, and be in health, even as thy soul prospereth (3) For I rejoice greatly, and when the brethren came and he testified of the truth that is in thee, and even as we walkest thou in the truth (4) And therefore I have in no greater joy than to hear that my children walk the truth.

Soon the ambulance paramedics took over and removed me from their surgical operating room of their hospital establishment while they relocate me onto a portable metal frame roller type stretcher, and they strapped me into this unit, as snug as a bug in a rug. There they carefully escorted me out from there without any time wasting, as these two ambulance

paramedics are pursuing in the company of this body stretcher while accommodating one assistant to each side controlling the unit which I was rapidly rolled out of there in a flash. Following from there on route, I was rolled directly into a medium size cube van type of an ambulance that was awaiting there at their emergency loading dock which is located at the rear of the hospital site. Before long this portable metal body stretcher was automatically locked into a secure device that been built with in the cube van type vehicle. Soon we were off proceeding from the Eagle Ridge Hospital site location, on word lickety split in accompanying with the driver, two paramedics and myself. As we left that particular site location with having the vehicle warning lights all flashing along in company with its own built in siren device, blazing out loud while on route. Additional to this we were moving along wildly down the road, and drifting through many red traffic light, while shipping around the early morning vehicle traffic that's on route. With much rapid vehicle reaction taken on route we arrived there on location at the Royal Columbian Hospital, in the district of New Westminster a short time later. Now myself being in the company with these two medical paramedics, while I in their honorable care to where I am only here to express a smooth comfortable ride ending another journey. Upon their arrival at the Royal Columbian Hospital where I rolled rapidly out of their ambulance is all I can remember. From there combined these resources together as everything else is formally lost in the paper work and in the group of onsite medical surgeons that has attended to me which was all caused by Wendy Eistetter's behavior.

2 Timothy 4:6-8 (6) Now as for me, my life has already been poured out as an offering to god. For the time of my death is near (7) For I have fought a good fight, while I have finished the race, and I have remained faithful. (8) And now the price awaits me with the crown of righteousness, and that the lord being a righteous judge, and he will give me on that great day of his return. And this price is not just for me, but for all humanity who eagerly look forward to his glorious return.

The next formal thing that I remembered is wakening up long after my surgery ended, and myself compelled to one of their onsite hospital beds which was located in their recovery room of the Royal Columbian Hospital. Under these circumstances this whole episode of

events was originated from these life threatening injuries that I have received earlier the day while in the company of Wendy Eistetter and there I am recovering during the last hours of that one Sunday evening approximately 11:435 pm.

1 John 3:1-2 (1) for behold, what manner of his love the father hath bestowed upon us that we should be called the sons of god. Therefore the world knoweth us not because, they knew him not (2) There dearly beloved, in knowing that we are the sons of god, and for he doth not yet appear of what we shall be. And we know that when he shall appear, we will be like him, for we shall see him as he is.

Now to look back and update all of the people with my own conclusion for this one bizarre attack which I do truly believe, and every one of you will also arrive in your very same final termination outcome. During this particular hostile proceedings while in according to understand one's corrupted mind in making alterations to the point where this whole episode started from the excess amount of evil greed over money. During this time Wendy continue to crave in support of her own drug habit, while this part will do anything to enforce this within her evil power, even to their point of contacting all her beloved past friends and get them totally involved. In additional to all of this by using these illegal drugs most carelessly while Wendy inject herself with cocaine and heroin substances brings out her rational state of mind. Mixing these type of drugs in relationship to one another brings out her evil wickedness, right from deep inside just waiting to explode their energy.

1 Timothy 6:10-12 (10) For the love of money is the root of all evil. And some people crave money and they have in fact wandered from their faith, and pierced themselves with many sorrows (11) But thou o man of god, flee from these things. And follow after righteousness, patience, godliness, faith, love and meekness (12) And fight a good fight of faith, and lay hold onto eternal life. Where thou is also called to eternal life that god has given to you, which you have confessed so well before so many witnesses in Christ Jesus, our Lord.

Now to understand the desperate situation in regarding Wendy Eistetter, of when the time I have left her back in the dust while she was running down the road behind my 1981chevrolet pick-up truck as she repeatedly in saying over and over, I will kill you yet. Now to further update over this home grown terrorist of her evil characteristic behavior from that point while terrorizing all though out the whole neighborhood as I have learned directly through statements of their eyewitness accounts and through the evidence that I learned from my own defense lawyer, Peter Ritchie received. For this information was related from their own words while dealing with these legal documents. They stated the this particular one wacked out crazy woman there was running foolishly down Dominion Street going east bound. She was whaling a knife wildly at anything that moves in which was still located in her right hand and having a handcuff that was still attached to her left wrist. Now expressing Wendy Eistetter's journey which been declared to be short lived and ended directly in front of 930 Dominion Street, as being only a short block away. For there I have learned where this particular party at the time, trying to knife one of their onsite windows that's in front of that particular house. To address over her satisfaction as that particular wild woman planning to break inside. Through this eyewitness account with having to name mentioned of who this individual was at that time. But with respect to that particular party was driving their vehicle on journey homeward bound, down Dominion Street as this related back during these early morning hours of March 23rd 1997. With their evidence through legal documents stated, during this precise time period they noticed that this particular woman there was trying to break into this one house with the knife that she had by going directly through the window. With their own curiosity, they stopped their vehicle and ordered that on individual to drop the knife which was located in her right hand in connecting to the particular time frame of where they decided to give Wendy Eistetter a ride from there for I really do not know if this particular information is 100% accurate, but within some reasoning I will have to live with that. I have heard two different versions over this that relates back in company to the story, as they got their own personal story to tell. Upon this further one occasion, who really transported Wendy Eistetter over the Royal Columbian Hospital is left unkown to all involved throughout this ordeal. Now to accommodate the consequences of the fact that Wendy Eistetter was trying with all her might to break inside that house for whatever reason is.

This particular episode of bazaar experience give our own community police their power and ability to break that door in while specified the particulars of what Wendy Eistetter was

after at that time. This type of curiosity invite our own police force to investigate of what is really occurring in that house with have an unexpected approach in maintaining public order. After the police arranged full conformation to break the door in at 930 Dominion Street with having full authorized search warrant as they discovered a large marijuana grow operation inside the house.

Marijuana: For this particular type of a root plant which is being produced directly from seed, and it needs some professional care for this to mature and also to germinate in the rapid growth. For marijuana residue is being developed from its dried leaves and flowering blossoms with the stem of their hems. This is an intoxicating drug, and having hallucinogens beyond self control and usually consumed by smoking cigarettes.

The property site location at 930 Dominion Street is on a seven acre parcel of farmland which has being shared in and among the company of Hell's Angels. Looking ahead in the very near future where this certain piece of farmland being in joint with other neighboring properties that is all located among that whole area will soon be re-zoned for light industrial and recreational purposes. But until that time actually arrives, everything is all on hold of where Hell's Angels got their advantage into leasing this one particular site for supporting their regular onsite parties.

Revelation 19:1-3 (1) After these things, I heard a great voice of much people in heaven saying alleluia. Salvation and glory, and honor, and power, unto the lord our god (2) For true and righteous are his judgments. For he hath judged the great whore which did corrupt the whole earth with her fornication and hath avenged the blood of his servants at her hand. And again they said alleluia, and there the smoke rose up forever and ever. Amen.

For their onsite parties around 8:00 pm Thursday evening, and that continue onward through to Sunday midnight, being their three day event. During this precise time period

which Hell's Angels parties that been on going as they contribute a never ending supply of cocaine, heroin and along with their home grown marijuana while this completely covers everything that they have there onsite to support all their drug addiction habit. Additional to this report which continues on a regular weekly intervals as of when Hell's Angels parties are proceeding ahead. Also during this same precise time period where Hell's Angels drift off into the area of Vancouver's east side and they hustle up a group of onsite street girls that are will to party with them at their site location. After they have formally received their quota of street girls while they all return back to their onsite location at 930 Dominion Street. After arriving, they all intertwine there together and partied with all their own group of honorable Hell's Angels biker friends located on that seven acre parcel of land.

Romans 3:19-21(19) For we know that of what things so ever the law saith, as it saith to them who are under the law. For that every mouth may be stopped, and all the world may become guilty before god (20) Therefore by the deeds of the law, there shall no flesh be justified in his sight, and by the law is the knowledge of sin (21) But now the righteousness of god without the law is manifested being witnessed by the law and the prophets.

Now without having any solid evidence to back up my own theory of opinion which may never be proven in the court of law. While I update this information to where I truly believe that the readers will also agree far beyond all reasonable doubt that Wendy Eistetter was one of these party girls that has partied there onsite at Hell's Angels property site. To understand more on this issue while questioning you own thoughts that this is the very same onsite location where Wendy was determined to break directly into that particular house. I will assure you that this property site is well known to her as Wendy partied there onsite with the company of Hell's Angels some time prior to March 23rd 1997. Now using rational judgment on Wendy Eistetter's behalf in connection of this whole episode expressing events that results solely now upon nature in being so close for mere coincidence, as I do not in any way think

to be even a second. Now while I am exchanging views in thinking back to the practical time when this one bazaar incident took place, just prior of myself in picking up this disrespectful witch. For this whole sequence of events has all started when Wendy

decided to dislodge herself deliberately in front of my 1981 chevrolet 4x4 pick-up truck while travelling on down Powell Street. As Wendy Eistetter being under much substantial drastic pressure, she stated directly to me that she did this because no one out here is stopping for me as work has been extremely slow on this particular Saturday evening. Addition to her public disturbance as Wendy formal excuse was over her clumsiness behavior of she stated that she has been partying for over 30 long hours without any sleep. Furthermore she went on in babbling about being homeless with no place to go. There I stated to her that I am heading home and going right to bed following with her reply being up for hours and being homeless begging to me that I would be very grateful if I can go home with you and also have a good night sleep.

1 John 3:9-11 (9) For who so ever is born of god deeth not commit sin. For his seed remaineth in him. And he cannot sin because he is born of god (10) And in the children of god a righteousness is manifest. And for the children of the devil that who so ever deeth not any righteousness, neither of god, and neither he that loveth not his brother (11) And for this the formal message that ye have heard from the beginning that we should love one another.

Now proving some insight while we review back to the property located at 930 Dominion Street and in joint being connected to the company of Hell's Angels in probability of wondering why was Hell's Angels not partying onsite at their location that particular weekend. While to compensate with this regards over that particular weekend in March 22nd and 23rd of 1997. For the company of all Hell's Angels motorcycle club was performing the spring break remote location off site accompanying with all their honorable biker friends. Now understanding this is the reason why that no one was partying there onsite at 930 Dominion Street location which fell on the one particular Sunday morning during this precise timing of when Wendy Eistetter was breaking into their house.

Luke 6:34-36 (34) For if ye lend to them of whom ye have hope to receive, for what thank have ye. For sinners also lend onto sinners to receive as much again (35) But love your enemies and do good, and lend, hoping for nothing again, and your reward shall be great.

There ye shall be the children of the highest for he is kind unto unthankful and to the evil
(36) For ye be there merciful, as your heavenly father is merciful.

For myself in dealing with the aftermath when I have learned that Wendy Eistetter has also ended her journey being in the company of surgeons located at the Royal Columbian Hospital, in response corresponding to her life threatening injuries. During this particular course of action where I totally admit in taking 100% responsibility for this unmannerly type of her behavior that I caused which I did only in self defense and protecting my life in the process. There I had no choice over the matter or even any alternatives while compelling only to the situation that in conjunction to escape from this malice, ungrateful woman. This she planned while failing to reach her group of party friends during the time when this particular party took upon herself where she stabbed me with a knife over and over again.

But take in to account that this individual reaction embarked over Wendy Eistetter spontaneous impulse, which is a home grown terrorist as this character is extremely wired heavily on drugs in the process. Now additional to this is what really alerted Wendy when she learned that I was carrying a large volume of cash totaling to the amount of \$3000.00. There I believe beyond all doubt that any individual in my particular situation being located in a remote isolated area, and they would exactly do the same thing that I have done, in being extremely over tired from working long hours with having little sleep.

Matthew 7:11-12 (11) For is ye being evil and also know how to give good gifts unto your children, and for how much more shall your father which is in heaven that gives good things to them that ask of him (12) Therefore all things of what so ever ye would that man should do to you, and so ye even to them, for this is the law, and the prophets.

For I have learned this information after I regain my total awareness being in the hospital's recovery room that this Wendy Eistetter ended up in the same surgical operating room that I myself was in during the time while only leaving a set of overhead draw curtains as a means of separation us both.

Now being confined into these onsite chambers while the onsite surgeons can roam about in doing their onsite work quite comfortable as they proceeded on in doing their job and the time period considered on the contrary, which believe me, this is not my choice at all in the matter. From there following events after leaving the hospital operating room where I finally ended up awake located in their recovery room. This particular location is completely separate and isolated from where the hospital staff re-located Wendy Eistetter. Now back to my location where I was the only one in the recovery room with support of the community police standing by on the outside doorway of my room that only lasted for one day. From there the staff transferred out of that location on Monday March 24th 1997 in the early afternoon approximately 1:15 pm which I was relocated into a private room being on the west wing of the third floor. During this particular time is where I have seen and talked to many different onsite hospital surgeons and surgical doctors that operated on me in their onsite operating room while repairing of where all this surgery was performed in very extensive series of restoration. This was caused by Wendy impressively powerful drugs with the aftermath effects of her uncontrollable evil behavior therapy and being accomplished by her wickedness towards the incisions are consisting of an endless supply of eternal and external stitches that's required to repair both arms and also directly across my throat from the extreme far left onward to the right side of my neck. This type of destruction has overwhelmed me and while unspecified things happen leaving many nerve control circuits severely injured on the left side of my head and ear, expressing this particular type of injury that I received in that location left me currently having no feeling at all, leaving only numbness in the after affect.

Hebrews 7:26-28 (26) For such an high priest become us, who is holy, harmless, undefiled, separate from sinners and made higher than heavens (27) And for who needeth not daily as for those high priest, as to offer up their sacrifice first for his own sins, and then following for the people's sins. For this he did once when he offered up himself (28) For the law maketh men high priest which have infirmity. But the word of the oath which was sworn by the law, maketh the son who is consecrated for ever more.

Additional information to this one onsite surgical doctor that has stated directly to me up

this examination through major investigation over my injuries. For me not to be surprised that you may never have any feeling on you left side of your head and ear again. There was so much internal damage done in that particular area that we were unable to fully repair all the nerve cells deep within the neck muscles which may never be restored as only time will tell through long term healing. Now hearing this particular type of information from the onsite medical surgeons that has formally operated on me has left me somewhat baffled over all this bazaar confusion in having no feeling and therefore myself being knifed directly in my lower back while escaping from Wendy's company. This is all related from these physical aspects of internal wounds that I have received being in the company of Wendy is nothing short than pure evil and now suffering these consequences, as I can only rest in their hospital bed being on my left side with the least pain. Additional to all these multitude of internal injuries that I have formally received in Wendy's company except one item which was totally over looked by their on duty surgeon doctors. This particular portion was from my upper palate structure tissue of my mouth cavity, as I arranged my local dentist to finally remove that several days later. Following by my release from the Royal Columbian Hospital as this unique item was very irritating whenever I eat.

1 Peter 1:6-7 (6) Where in greatly rejoice, through now for a season, and ye are in heaviness through our manifold temptations (7) For that the trial of your faith being much more precious than gold that perisheth, and through it be tried with fire, and this might be found unto praise, and honor, and glory, at the appearing time of Jesus Christ our lord.

Through the police reports that I formally received from my defense lawyer, Peter Ritchie, which was after I have learned that this Wendy Eistetter has arrived mysteriously at the Royal Columbian Hospital. During this precise time period is when Wendy was formally carrying three flaps of cocaine and also having two flaps of heroin, to where the R.C.M.P. constable removed and confiscated these particular items. Now in going back to the police investigation report where Wendy Eistetter left behind in the mobile home bathroom over evidence that formally corresponds with leaving one used flap of cocaine wrapper and one flap of heroin wrapper that I have further learned this to be a speed ball. During

this immediate past time as I am reading through the police investigation of their firm scientific examination reports which in having additional evidence that also relates back to Wendy's psychological make up proof her own DNA. That once again corresponds to her own relationship in according to these used drug wrappers and her needles while the containing with illegal narcotic drug type residue of which Wendy Eistetter has left behind on the sink vanity in my bathroom of the mobile home. Now to this day, I have no idea at all of what so ever a drug wrapper flap really is, as I never have used drugs. Now back to Wendy when she got in my pick up truck while she was at the time carrying a volume of support seven flaps of illegal narcotic drug in all connecting to Wendy at that time. This I believe without any questioning that this particular person is also being a drug dealer in the process. Never the less having this much particular evidence on hand that relates back to Wendy Eistetter, to the point where the R.C.M.P. could not in any way charge me being connected to her illegal drugs while she maintain occupancy there. Now having only her DNA on all this material where the R.C.M.P. would really look quite stupid into charging me with these particular type of illegal drugs. (Where believe me they tried that also) Several days has now passed where the R.C.M.P. failed into charging me with any of those illegal drugs. Failing on all counts when the court prosecutor came into focus and through their evil will has set into motion where they formally laid these two false criminal charges against me with support of their first charge, attempted murder. Following back to back with support of their second charge, unlawful confinement. By this time they have outlined their whole systematic cover plan that took over three and an half days has already past which is now Thursday March 27th 1997. Late afternoon at approximately 3:30pm. Also during the same precise time period when I learn that I finally going to be released from the hospital where I have formally received over 700 plus surgical stitches from being knifed by Wendy. Now to address over Wendy Eistetter situation of which I was told by the onsite hospital staff that she has been formally released back on Tuesday morning around 11:00 am, two days ago. Now to my own firm understanding that Wendy got her hands slapped while dealing with these illegal drugs in corresponding to the police department while having no criminal charges laid on her behalf at all. To confirm over her testimony of evidence is where the whole court case was built and based upon Wendy's behalf and also being in agreement with her testimonial evidence that Wendy has submitted to the onsite police officer prior to her release from the Royal Columbian Hospital. Expressing my thoughts on the matter in dealing with the after math that has been submitted into evidence of her testimony indicated to

used in the court of law. After myself reading over her transaction in order to testify against me, to where this party has failed drastically while leaving every second word ending into a lie though out as everyone will see.

Proverbs 1:10-15 (10) My son, if sinners entice thee, and consent thou not (11) And if they say, come with us, let us lay wait for blood, let us lurk privily for the innocent without cause (12) And let us swallow them up alive, as a grave. And whole as for all those that goes down into the pit (13) For there we shall find all precious gold and other substance, while we shall fill our houses with spoil (14) And cast it into thy lot among us, and let us all have one purse (15) My son walk not thou in the way with them, and refrain thy foot from their path. For their feet run to evil, and make haste to shed our blood.

During Wendy Eistetter's interview with the R.C.M.P., as she convinced to the police that this was not her fault at all which again it totally wrong in this particular situation. It is 100% her fault every inch of the way. When I have heard of this drastic news to support these false pretenses against me of what was actually coming down the wire to the point which I was really a little upset over the matter of expression at this particular point. Now being under these circumstances with having two criminal charges over my head while during this time I refused to even talk in the company of the police at all over this situation. Furthermore, at this particular point in time, the more you actually say to the police, the worst things my get as they will twist my own words around and use that against me. Through this one course in time which I decided to go with the flow as I am going to be formally charged anyways. Now to focus on the court prosecutor where they have already made up their own minds to except this information into the law courts and believe me there is nothing going to ever change that situation of what so ever. As for myself in having my firm opinion over this episode of events which I believe that the court prosecutor is truly using Wendy's testimony as their star witness in my up and coming court trial. There we have to fully understand why to explain how low can the police actually go in defending the guilty, meanwhile prosecute the innocent bystander.

Lamentation 4:17-20 (17) Now as for us our eyes as of yet failed for our vain help. In our watching, while we have watched for a nation that could not save us (18) As they hunt our steps that we cannot go in our streets. For our end is near, and our days are fulfilled (19) And our prosecutors are swifter than the eagles of the heaven. And for they pursued us upon the mountains, and they laid wait for us in the wilderness (20) And the breath of our nostrils and the anointed of the lord, and the very life of our nation was caught in their snares. For of whom we said being under his shadow, we shall live among the nations of this world.

Now presently at this time in having these erroneous criminal charges hanging over my head with having the first offense laid in being, attempted murder. Following back to bail with the second offense laid in being, unlawful confinement. Now over these two configurations of criminal charges which I was ordered by the attorney court officials to where they place me on temporary court bail bond for a total estimated amount of \$2000.00 in reference to restraining order to restraining order bodily freedom. While expressing myself in having water under the bridge to where I continue in looking ahead and paid the justice of peace in the full totaling the amount of \$2000.00 cash for my bail. This is to remain in process until the court prosecutor pursuing the matter which is scheduled to start later in this fall of 1997. Having the crown prosecutors studying through this particular court case where they finally arrived to their own conclusion that there are no grounds at all to support Wendy's allegation to even stand on in the criminal court of Canada. While my provincial court case trial was relatively right on schedule, and now planned to start within three days at the time as the court prosecutors decided to pull the plug right at the very last minute. At the precise timing, the prosecutors have decided to drop all of the formal charges in this court case which ended their procedures against me. As for myself, in being somewhat upset over this whole ordeal of which has formally twisted everything around, while this court case ended and thrown a loop whole into my whole plan over this particular court trial.

Genesis 6:5-6 {5} For God saw that the wickedness of man was so great upon earth, and that every kind of their own imagination, and in their own thoughts, and upon their hearts were filled only evil continually {6} And for this has repented the Lord that he made upon the earth, that this has grieved him deep with his heart.

At this mentioned time only expressing myself secretly with my own personal thoughts going

through this court trial as we continue to move ahead what has been formally planned. If the provincial court went ahead with this one court trial proceedings and of when the head crown prosecutor finally come to cross examine me, where I would have made them into the biggest fools time and time again. Then with much blasphemy against me, I will reverse all these charges and go after the government of Canada while being wrongly accused with a false crime. At that time following behind as I now formally go and charge Wendy Eistetter for a criminal law suite having this evidence if reference to my claim over a multitude of bodily injuries that I have formally received being in her company. For this was strictly of the \$3000.00 cash that I as was carrying at the time, with much of Wendy's ravenous greed over money of her evil wickedness. For understanding Wendy's greed where she will do anything to support her on going drug habits, as this also concludes her loyal party friends in being heavily wired on a combination of illegal drugs.

Psalms 5:4-6 (4) O god, for you take no pleasure in any wickedness, and you cannot tolerate the slightest sin (5) Therefore, the proud will not allowed to stand in your presence, and for you to hate all who do evil (6) For my enemies cannot speak even one truthful word, as their talk is foul, and their deepest desire is to destroy others, as the lord detests all deceivers and murderers.

While I was absent from work indicating our demolition worksite that's located at the Kingsway Motor Hotel and there I merely recuperate from the effect of all my life threatening injuries for a total of three and a half days while I slowly recovered at the Royal Columbian Hospital. During this time while I was absent from work, where my brother Dave found a single portable fold up cot along with two used single mattresses as this onsite demolition continues onward being at the Kingsway Motor Hotel. There my brother Dave has relocated that particular portable fold up cot along with two used single bed mattresses to the onsite mobile home trailer's bedroom for me strictly of when I finally get released from the Royal Columbian Hospital. This episode been arranged to take place on that particular Thursday late afternoon approximately 3:30pm of March 27th 1997, while I was in a room located on the west wing of their third floor. From the time I arrived at the Royal Columbian Hospital and then released was only three and a half days past which by far

being related to my injuries, where I was not ready to go by any means of transportation. I risked putting extreme pressure on these stitches. But again the onsite hospital staff insisted that they really need that room accommodation, so I packed up the little I had and left the area of the hospital in a wheelchair. As this one event was occurring, and with myself who was having interferences of spontaneous back pain coming from the area where I was originally knifed by Wendy in my lower right back. As I was suffering with abundance of lower back pain to the point where I had to arrange the hospital's onsite assistance into contacting the Royal City taxi cab. From there I got the hospital staff to direct me into which way to go and meet up with the taxi cab. Going through the long corridors that I was escorted from to where I finally arrived at their exit emergency door to where the Royal City taxi cab was there onsite waiting for me, being only minutes away. As I relocated my broken down body inside their taxi cab to where I took up the whole rear seat while I relaxed in one position without having extreme intensity of back pain. Before long, we left the hospital site on route back to the family farm, in feeling every single bump along the way being affected by unpleasant bodily sensation and soon we arrived back on location at 953 Dominion Street.

We arrived there approximately 5:45 pm Thursday March 27th 1997, when I met up with my brother Dave as a homecoming welcome which he had a surprise waiting for me there. Being in extreme pain left me to the point where I was not very talkative at the time when I only wish to lay down, being exhausted as I slowly worked my way towards the onsite mobile home. Upon my entering there, which has really surprised me into receiving such a wonderful gift that brother Dave laid out for me.

Proverbs 8:33-36 (33) For you hear my instruction and to be wise, and refuse it not (34) blessed is the man that heareth me, and there he watches daily at my gates, waiting at the posts of my door (35) For who so ever, findeth me, findeth life, and they shall obtain favour of the lord (36) But he that sinneth against me wrongfully have injured themselves, and all who hate me loveth death.

Now expressing my home coming which was over this one portable fold up cot that brother Dave stated that he found the unit at the demolition worksite in Burnaby and now this unit was relocated in the bedroom which was situated in the far south corner of this single wide.

trailer unit, being a joint directly next to the bathroom. There brother Dave went out of his way in helping me in time of need which I deeply thank him entirely for all his determination in thinking of me over one's deepest concern of my well being.

Now what really makes this wonderful dingle fold up cot so precious to me which was actually placed in its precise location being extremely comfortable to suite the whole layout of the small bedroom. Additional to this one remarkable arrangement was the two used mattresses that was located, one directly on top of the other for extra inflated padding. This unit was only place in that precise way while giving extreme ease to the benefit in having comfortable body back support from when I was knifed directly in the area of my lower back located on the right hand side. To achieve this for expressing myself in having the unprogressive determining factors of being over abundance, expressing spontaneous back pain the same time, it was really quite noticeable. For I was way over exhausted by the time I arrived home from the taxi cab ride to the point of where I had to rest in that one unique bed which has been prepared only for me. As for the adhesive bandage material that the hospital stall

placed on me for extra back support while that material covered a large group of external surgical stitches from my back injury. For that material was severely saturated with my own blood oozing out from my wounds by moving around where I came to rest only on my left side. There I rested quite comfortable in spite of my formal condition that I was in while myself suffer the extreme statistics over these accumulation of internal and external injuries. This whole episode of events been encountered from Wendy's cruel wickedness while she continues to indulge in her evil pleasure along with the extreme greed for their love of money.

Matthew 13:39-43 {39} For the enemy that sowed them is the devil, and their harvest is the end of their world, and their reapers are their angel {40} As therefore the tares that are sown and burn in the fire, so shall it be in the end of their world {41} For the son of man shall send forth his angels, and they shall gather out of his kingdom, all things that offend, and also for them which do iniquity {42} And his angels shall cast them into a furnace of fire. There they shall be wailing and gnashing of teeth {43} And then shall the righteous shine as the sun in the kingdom of their father who hath ears to hear, let him hear.

Now besides of my most extreme back pain and dealing with some bloody bandages, more over to the greater extent, that I am once again happy to be home. Furthermore, for myself to finally get away from the dreadful hospital meals that staff fed us while one reside there which I really do believe quite strongly is the same style of prepared food that they provide for human babies. In on or around roughly 6:10 pm, Brother Dave left the onsite mobile home while he is having extreme concern over my wellbeing as I recline on that marvelous bed. There I located my broken down body in one position with having my spontaneous back pain slowly mellowing out in comfort. There I truly believe that brother Dave has finally realized how rough of a shape that I am in, while suffering over many parts of my body has been savagely attacked. While Brother Dave was approaching his pick-up truck I was having his extreme concern over my condition being under the weather and in poor physical shape that I am in. During this time is where Brother Dave decided to contact Lisa Velds on his portable cellular telephone which she has been a longtime friend of mine. I have originally met Lisa Velds back in the very late spring of 1985 while I was relocating this on a delightful large three vehicle garage, being 24 feet wide by 28 feet long by 8 feet high. This really is one marvelous used building that was up for demolition which originally been located on Lisa Velds rental property with their address of 1300 block Dominion Street. There I have took up myself into salvage this wonderful unit which I retrieved this unit by moving that particular garage upon my four wheel hay wagon back to our family farm of where located 953 Dominion Street, as I update this unit into my further plans. Now back to Lisa Velds to where my Brother Dave decided to arrange for her to come over while she had to symphasize in all her re scheduling plans and look in on me from time to time. During this precise time period where I have to give so many extra thanks to the company of Lisa Velds while she was there to comfort me in time of need as I slowly recuperate myself back to health. There has also been several long nights of when Lisa slept overnight and helped me to attend in changing my old bandages and replace them with fresh ones. Also at the same time checking up over the abundance of other stitches that are fully exposed and to make sure that there is no sign of any deadly infections setting in these particular areas.

Galatians 5:13-15 {13} And for you have been call there to live in freedom, but not the freedom to satisfy your own sinful nature. But for your freedom there to serve one another in love. {14} And therefore the whole law can be summed up in one command. "That for

to love your neighbor as yourself." For this love does no wrong to anyone, so love satisfies all of god's requirements.

Now to understand myself in being somewhat impatient, as it is hard to keep a good man down, while I think back over one's thought that has occurred and left this poor broken down body in such a defenseless condition. There after everything that I have been put through as I head back to work on that following Tuesday morning April 1st 1997, and there the only physical work that I was doing at the time was driving a truck. But for myself pushing far beyond all my limits while suffering these consequences in having extreme pulsating back pain as I put extra stress pulling pressure directly on the group of back stitches from my physical force while I climb in and out of my one ton truck. All throughout this particular course in time where I have hauled a lot of this beautiful reclaimed lumber. This specific material that we have formally retrieved was strictly from the ongoing demolition worksite, located at the Kingsway Motor Hotel and transported offsite to P&B new and used building materials in Surrey for re-sale purposes, addressed to the public at wholesale prices. From this point in time and onward, of which I have never ever went back to the Vancouver east side again by myself and look regard into George Gina Dickens whereabouts. This was over myself in knowing of the situation that I have been put through which I truly do not want to repeat this episode over again with the same kind of lesson that I received from Wendy Eistetter over her extreme greed of money. Now in resulting over this \$1500.00 that I have paid over to Gina Houston in expressing to her phone bill is left unknown, and lost in the paperwork as a lesson that is well learned. Moving ahead to Tuesday April 15th 1997 of when I decided to do some physical labor work once again for the very first time since I have been severely injured back on March 23rd 1997 while adjoining with the onsite demolition work crew. During this precise time period I helped the work crew into removing a large volume of beautiful 2x12 rough cut Douglas fir first growth lumber totaling to be 28 feet long. Believe me I was quite sore that night from over excessively lifting ability and in working under these conditions, but over and above, for we all have to live with a little pain from time to time. To a greater extent expressing my back pain which was reaching to the most extreme, as I went on beyond my limits in covering that where taking other precautionary measures of

my thought that I still have no recovery feeling at all on my left side of my face and my ear. This is so much more harder to cope with than on going pain while having so many nerve control circuits been severely slashed, and now only leaving much numbness in having the effect from that particular unfortunate grief.

Revelation 2:9-10 (9) And for I know all about you suffering, and your poverty, but thou sayest thou art rich. And I know of the slander of those that opposing you. For they say that they are jews, but they really aren't, because their site is a synagogue of satan (10) Don't be afraid of what you are about to suffer. For the devil will throw some of you into prison, and thou wilt be put to the test. For there you all will be persecuted for ten days. There thou shalt remain faithful even when you are facing death, and I will give you a crown of life.

Now I would like to formally address the whole progress about the deconstruction at the Kingsway Motor Hotel is still right on time schedule, to match in with our onsite demolition contact dead line is coming up on Wednesday June 4th 1997. This is to have everything that's located onsite removed, and all demolition debris is cleaned up from that location where the Kingsway Motor Hotel once was. Moving ahead to Tuesday May 13th 1997 when the onsite demolition is winding down to a close at the Kingsway Motor Hotel of which Gina Houston approached me around 2:45 pm in the mid afternoon.

During this time I was unloading our single drop bed triple axle semi trailer load of reclaimed Douglas Fir overstock lumber at our own storage lot in conjunction with the on site gas powered fork lift, that located onsite at 2552 Burns Road site in Port Coquitlam. This way only one of eight full loads of this over stock material that's supporting this beautiful reclaimed lumber that we have salvaged and transported this unique merchandise to the Burns Road site location. This onsite storage lot which that particular merchandise will be all transported in the very near future back in the company of P&B new and used building materials our lumber material slowly diminishes while all these articles are sold to the general public at wholesale prices. To support the large volume of used lumber resources.

that our work crews has physical salvaged from this worksite containing over 225 considerable banded size lifts that only consist of first growth Douglas Fir lumber materials. For all this magnificent material has now been diverted from our landfill sites into valuable commodities.

"Having a word of thought to every home owner"

During this time period indicated by gesture as all this beautiful reclaimed material which our onsite work crew laborers have salvaged, for having other people to pleasantly enjoy these commodities while we reduce our own foot prints into a more greener world. Now having a word of advice addressed to every home owner; That on any average two to three bedroom house, depending upon their size of the building structure which uses somewhere around 40 to 50 evergreen trees that makes up the majority of materials required to support the walls of the house. For the word to the wise as this does not cover the lumber materials required for sheeting the floor, the ceilings, and rafters, along with other miscellaneous wood products needed for finishing off the house could very well reach another 40 to 50 more evergreen trees. "Wow" when you total all that lumber material together in reaching on or around 80 to 100 evergreen trees removed from our wood forest to build one house on a vacant lot for a family.

Now going back to Gina Houston, in representing her views when she approach me on Tuesday afternoon May 13th 1997, while I was unloading the lumber from the trailer. Over this conversation, Gina Houston asked me if I could arrange for myself somehow to give her a ride into Vancouver's eastside over the next day or so or where Gina wishes to talk in the company of George Gina Dickens. To get my own confidence back from my latest experienced from going down there, Gina further stated to me that she also know where the house location that George Gina Dickens lives at when she is in that area. Now somehow momentarily Gina was unable to contact George Gina Dickens by their way of telephone communications for one reason or another. Now for myself being a close friend between two parties and mollifying my formula with me, in having some other views to accommodate an expression of disagreement which I could not hardly refuse her offer in reference to my time of need. There I announced to Gina that I was booked up solid all day tomorrow Wednesday while I am loading more of our onsite material from the Kingsway Motor which I will once again add this onsite material to be stored on the Burns Road site for understanding my own situation of when I had to rearranged my schedule

while making some extra time for myself to take Gina Houston into the area of Vancouver on this Thursday morning in or around 10:00 am which definitely will work for Gina also

land {34} For they should be all treated like everyone else. For you must love them as you love yourself. Now remember that you were once before, all foreigners in the land of Egypt, for I am the lord your god.

Now on Thursday morning with myself being on schedule to my time frame of which I picked up Gina Houston at her rental property at 9:45am and presently being a little early when I transported Gina to Vancouver. Going directly on route following Gina's own instructions where we have finally arrived in some abandoned parking lot at 11:05 am which she instructed me to park and wait there upon Gina's return. For this particular site location of where I parked my pick-up truck was facing north side of Hastings Street and directly behind a large group of old style buildings that's all connecting side by side which is located on the Vancouver's east side. There Gina addressed me, for myself to wait there on location as she will be back in about ten minutes, which could extend that to fifteen minutes at the most. From the precise time that Gina Houston abandoned me from the parking lot as she left me patiently waiting for her to return upon her own instruction, the time scheduled was already at 12:45 pm. Gina Houston has been gone for a total time of one hour and fifteen minutes compare to her estimated time of fifteen minutes. During this particular time I had a kind of thought that Gina is only making a damn fool out of me, or maybe she kind of got lost in shuffle while forgot all about me as I wait very patiently in my pick-up truck upon her arrival. When Gina arrived back to the location where I was, I told Gina Houston of my own personal pre-occupied thought over the whole matter while worrying that something has definitely happened to you from being gone for so long connecting to time reference. Relating to my remark, Gina only smiled and said, "Whatever." With having a sense of humor, where she stated directly to me in her extreme disappointment that George Orwell is not there at this particular location with having no forwarding address. This led to my striking impression where Gina was a little bit disappointed at the time as we headed home empty handed, being only a wasted trip to my own understanding never

less, there is definitely something more here which really tells me over again that I am not receiving the whole picture where I unmistakably could be wrong while the whole truth always lies beneath their smile. During this precise time schedule, while rotating every second to third week where I continue to make a formal delivery to the Vancouver area when Gina hitched a ride with me on these two special occasions. Now to react on this particular timing that has occurred during the mid-summer of 1997 when Gina came with me twice while Gina continues to look for George Gina Dickens in the progress of our journey in according to Gina, where she stated to me that she has never again heard from George Gina Dickens, and relate over the \$1500.00 phone bill remain with so many unanswered questions to all and everyone that involved over this particular insolent.

Matthew 18:12-14 (12) Now if a shepherd has one hundred sheep, and one wanders away, and is lost, what will he do? Won't he leave the ninety-nine others, and go out into the hills, and there search for the lost one? (13) And if he finds it, he will surely rejoice over it more than the ninety-nine that did not wander away (14) Is it not also the same way that my heavenly father's will as he does not want even one of these little one's should ever perish. or telephone communication.

and (14) For they should be all treated like everyone else. For you must love them as you love yourself. Now remember that you were once before, all foreigners in the land of Egypt, and the lord you god.

On Thursday morning with myself being on schedule to my time frame of which I picked up Gina Houston at her rental property at 9:45am and presently being a little early I transported Gina to Vancouver. Going directly on route following Gina's own instructions where we have final arrived in some abandoned parking lot at 11:05 am which instructed me to park and wait there upon Gina's return. For this particular site location I parked my pick-up truck was facing north side of Hastings Street and directly in front of a large group of old style buildings that's all connecting side by side which is located

on the Vancouver's east side. There Gina addressed me, for myself to wait there on location as she will be back in about ten minutes, which could extend that to fifteen minutes at the most. From the precise time that Gina Houston abandoned me from the parking lot and she left me patiently waiting for her to return upon her own instruction, the time schedule was already at 12:45 pm.

Gina Houston has been gone for a total time of one hour and forty minutes compare to her estimated time of fifteen minutes. During this particular time I kind of thought that Gina was only making a damn fool out of me, or maybe she kind of got lost in shuffle while forgot about me as I wait very patiently in my pick-up truck upon her arrival. When Gina arrived back to the location where I was, I told Gina Houston of my own personal pre-occupied thought over the whole matter while worrying that something has definitely happened to you from being gone for so long connecting to time reference. Relating to my remark, Gina only smiled and said, "Whatever." With having a sense of humor, where she stated directly to me in her extreme disappointment that George Gina Dickens is not there at this particular location with having no forwarding address. There to my striking impression where Gina was a little bit disappointed at the time as we both head home empty handed, being on a wasted trip to my own understanding never the less, there is definitely something missing here which really tells me over again that I am not receiving the whole picture where it is unmistakably could be wrong while the whole truth always lies beneath their smile. During this precise time schedule, while rotating every second to third week where I continue to make a formal delivery to the Vancouver area when Gina hitched a ride with me on the two special occasions. Now to react on this particular timing that has occurred during the mid-summer of 1997 when Gina came with me twice while Gina continues to look for George Gina Dickens in the progress of our journey in according to Gina, where she stated to me that she has never again heard from George Gina Dickens, and relate over a \$1500.00 phone bill remain with so many unanswered questions to all and everyone involved over this particular insolent.

Matthew 18:12-14 (12) Now if a shepherd has one hundred sheep, and one wanders away and is lost, what will he do? Won't he leave the ninety-nine others, and go out into the hills, and there search for the lost one? (13) And if he finds it, he will surely rejoice over it more than the ninety-nine that did not wander away (14) Is it not also the same way that

heavenly father's will as he does not want even one of these little one's should ever perish.

Now reviewing my own thoughts while not presented with the whole picture where I would like to address my firm opinion on this theory step by step, as the truth here is hidden behind their own words been spoken. For Gina stated to me that was total unable into reaching George Gina Dickens by her way of telephone communication. There I once again do not agree with this situation, as I truly believe beyond any doubt that Gina Houston did talk to George Gina on her telephone. There I further believe George Gina Dickens refused to continue on renting Gina's basement suite of her rental house. This system is not profitable at all over her own behalf while working in one area and living in some other area estimated around 17 miles apart with additional time frame being at the middle of the month. This is why I believe that Gina Houston approached me on Tuesday May 13th 1997 and for me in knowing George Gina as a close friend to me. There I would be very easily to be swindled into taking Gina Houston to Vancouver on Thursday morning May 15th 1997 so that Gina can hopefully iron out their differences between one another. This will accumulate for the time lost as I continued waiting in my pick-up truck from 11:05 am to 12:45 am, being over 1 1/2, hours past by the time Gina returned. That fully adjust for everything and makes total sense with all respect to regards. Now to address over these two special occasions that falls in the time frame when Gina Houston hitched a ride with me to Vancouver during mid-summer of 1997. To my belief Gina was not really looking for George Gina Dickens as she stated to the point where I was really led on to believe. To my knowledge Gina Houston was looking for some of her old time party friends that she knew from where she has been briefly staying in Vancouver are prior moving to Port Coquitlam area. This will help pay while sharing a portion of her rental house with having joint to her family in the Port Coquitlam area. Now for me to address another following event while going to Vancouver on Thursday afternoon May 15th 1997 which originally took place on our journey to Vancouver as we head home empty handed in the company of Gina Houston being somewhat disappointed at the time. There I decided to comfort Gina, into cheering her up, and not really interfering over any of her ongoing problems that she is presently going through. There I decided to ask Gina a direct question, "I by any chance that you and your

kids would be interested in going with me and to fully explore the whole Cloverdale rodeo at the fairgrounds while examining all the agricultural exhibits that's located onsite." This is all coming up on this Victoria Day weekend that all start off with the Cloverdale rodeo parade at 10:00 am. The parade slowly drifts through the main street of Cloverdale which is located in the District of Surrey Municipality. For this Victoria Day weekend of 1997, start off with their main opening rodeo parade following in conjunction with the main exhibit that begin at 1:00pm Saturday and they end of this rodeo competition is over at

6:00 pm on Monday May 19th 1997 in ending that three day event. Now with respect over this matter where Gina jumped in and acted there voluntarily upon my counter offer without even confronting with her own family members to express their own wishes what their plans are. For me showing my full appreciation of gratitude upon dropping Gina off at her own rental property in having her firm authorization. Soon after I arrive at the place, the news spread rapidly among her family members right away being confirmed on their own behalf that we are now going to the Cloverdale Frontier Rodeo this weekend with Willie. How sweet it is? There I announced to Gina's family that I will be here at approximately 8:45am on this upcoming Saturday May 17th 1997 and make sure that you people are prepared and ready to go when I arrive here which the whole Houston family state we will be ready.

Leviticus 19:33-34 (33) For show your own fear of god by you standing up in the presence of the elderly people and to show my full respect for the aged. And do not exploit the foreigners who lived in your way (24) And though he fall, but he shall not be utterly cast down. For the lord up holdeth him with his right hand (25) For once I have been young, and now I am old, and as yet I have never seen the righteous been forsaken nor his seed begging bread (26) And he is forever merciful to give generous loans to others, and their children shall have a blessing.

Now for me representing over this particular Saturday morning to the point where I finished feeding all my onsite livestock animals. While I realized the time schedule

alternating my steps as I rushed around to hook up my livestock trailer onto my one ton flat deck truck. Following from there in running late, I drove my combination truck trailer unit over to Gina's rental property and parked across from their place in facing northbound approximately 9:10am. Now during this precise timing while the Houston family members noticed me parking my combination unit over on the other side of the road, as they can see very clearly from their upstairs living room window where the whole family waited very patiently for me to arrive. Now following with their actions, as they all rushed out of their rental house to meet up with me, and without wasting anytime as there was a small group of teenaged kids accompanying with Gina Houston. There I had one small problem over this particular situation in having Gina Houston and her family of two Matthew (10) and Felisha (13), following their company with having their two neighborhood kids as their friends, that total to be five people and six including myself. Now for me expressing inside my pick-up have only limited room while supporting only three seat belts total. In understanding that being legally responsible for my own actions, there is no way that I can take all you people inside my truck. Then Gina suggested to all involved and having a good sense of humor, that all the kids can ride inside your livestock trailer. There upon Gina's own request as the whole group of four teenage kids insisted among themselves that they prefer to ride in the empty livestock trailer. With having myself being way out voted, five to one or when I finally broke down at the end and allowed this to happen which is by the way 100% illegal these modern days. Before long we all dispersed from Gina's onsite residence with my having some minor disagreements as we are already running quite late now being approximately 9:25am on the particular Saturday. As we arrived into the Cloverdale district Municipality area that coordinates to the fairgrounds which is located directly on 176th Street at 10:20 am. As we journeyed along route in the heavy congested traffic, which I noted that there are many illegally parked vehicles along the route as we continue toward our destiny. There we finally arrived with the skim of our teeth, while leaving only a few feet away from closing down 176th Street, by the local community police department making room for their parade route festival that will shortly end when they arrive at the Cloverdale fairgrounds, which is located eastbound on the side road and disperse there. This is also the same particular street location where I parked my vehicle at the fairgrounds with having a maximum of two hour parking, and being in joint to their main live-entertainment of the fairground location. While being extremely late upon our own arrival at the beginning of the whole parade festival coming our way as I truly declare,

we watched the entire parade go by in perfect view. The entire rodeo parade was standing as it support so many wonderful beautiful displayed floats that are all decorated out competition with one another. Between the ongoing floats having ever so many different musical bands all back to back surrounding the radius of the main land and far beyond territories while perform their best in this rodeo parade. Moving along into another area of all fully decorated with their accessories have many different styles to support their own county style exhibits that completes this delightful rodeo. Now for me referring back to the precise of 1997, where I must give many thanks to all of these individual people that participated into making all of the 1997

Cloverdale ever so great as they continue putting their best foot forward. Now for the whole extended length of the 1997 Cloverdale rodeo parade took a total of 2 1/2 hours long, where the parade slowly creeps by from the location of where we've been standing along 176th Street, being one block from the onsite fairgrounds. There the rodeo parade ended on the side street facing eastbound, directly in joint to the Cloverdale rodeo fairgrounds which surrounding the location I parked my vehicle. Finishing off at the end of the rodeo parade was the portable street sweeper in cleaning up all of the onsite discarded debris that was left over from the participants of the parade route that's lying all along the road surface supporting 176th Street, Cloverdale.

John 17:21-23 (21) As for my prayer to support all of them is that they will be one, just you and I are one. Father, just as you are in me, and I am in you, so that they will be one and for that the whole world will believe that you have sent me (22) For me, I have given them the glory that you gave me, so that they may be one as we are one (23) And for that they and you in me, are all in being perfected into one. For that you loved them as much as you have loved me.

Before long, all of the traffic barricades came down from this one particular intersection affected over the rodeo parade route and relatively soon all the vehicle traffic in the whole area begins to resume once again, which was extremely back up about a mile long on the roads that's entering into the Cloverdale area. With having only limited parking throughout this whole area, as the tow trucks were all out in full force while they were out rolling.

the dollars from a large group of abandoned vehicles been illegally parked all along 176th Street and in adjunction to various side street though out the Cloverdale area. Now regarding back to me which I only lucked out in finding myself a parking area at the time

while have livestock trailer in combination to my one ton flat deck truck that the unit supports over all the length of 40 feet long in making this unit rough for parking on any side streets.

John 13:33-35 (33) For my dear children, and to hear my words in saying how brief are these final moments are, before I must go away and leave you. And through you may search for me, but you not truly come to me, just as I have told the Jewish leaders (34) So as for now I am giving you a new commandment, that for you to love each other just as I have loved you (35) By this testimony shall all men know that you truly are disciples, if you have loved one another.

As soon as the Cloverdale rodeo exhibit display ended in following all throughout the whole rodeo fairgrounds and with myself in knowing that my vehicle is safely parked there. While myself being in the company of Gina Houston where we strolled off into that particular direction of the fairgrounds which of course the four teenage kids were there first to explore all the amusement park rides that's available on the public displayed scene. As for myself supporting awareness while have a large group of people that's following behind and swarming into this particular area from all directions. A short time later we arrived and played a few onsite amusement park games there on randomly, as we strolled by in having our own decision of choice. Now with having reference in support of the four teenage kids, they all insisted eagerly to go and displayed themselves upon the amusement park rides expressing the comfort of their own particular choice. There I gave each of the four kids a \$100 bill a piece, and then they all dispersed in their own separate ways while they all stayed together within the large crowd of people there onsite. To accommodate the four kids with some money, they were enjoying themselves to the fullest as they total imagined the over abundance on their own energetic physical power in supporting entertainment and only now hoping that the particular Saturday would never end. For myself having reference in supporting these four teenage kids as they participate pm every carnival

amusement rides that there was available at the time, and often have the odd periodical various rides over at their own choice. As our precious time period is coming to a close being in the company of Gina Houston's family and their two friends when I had to disappoint all the four kids, that we will soon have to leave the onsite rodeo fairgrounds soon, which they have avoided my alarm. Now to calculate this situation being in the company of the four young teenagers while they are having so much fun into extending this to its limits and expressing why that I have very little response to my alarm being approximately 4:10 pm. There once again I announced to Gina that we have to prepare ourselves to end Cloverdale fairground rodeo and soon return back to our regular daily grind. By the time Gina and myself got the four kids conducting under management, as we were now pushing 4:30 pm on this Saturday afternoon which I arranged everyone a light meal snack at the confectionery park stand that's held right on the rodeo grounds. Shortly after we ate our snack on the site, we finally dispersed from the fairgrounds at 5:00 pm sharp and we went on our way. As we were leaving the fairground site location within regards of the four kids, as they could not stop talking about their whole experience that they achieved on that particular day in having their own personal comments are as followed. Being there onsite and associating with the rodeo parade with everything else was so cool there, which they stated, "It was definitely their best day that they ever had." For the total amount of cash money that I have spent during this particular outing total was \$190.00.

Ephesians 3:14-18 (14) And for this I bow my knees unto the father of our Lord Jesus Christ (15) And of whom the whole family that's in heaven and upon earth is named (16) And that he would grant you in according to the riches of his glory, and that to be strengthened with his own might, by his loving spirit which in the inner man (17) And for that Christ the Lord may dwell in your hearts by faith. For that you are being grounded and rooted in love (18) And for he may be able to comprehend with all his saints of what is the breadth, and the length, and the depth, and the height, his love is.

To review over this particular cash money that I have spent on few various onsite amusement park games, rides and finally finishing off this awarding day at the Cloverdale rodeo in having a light meal snacks for two adults, and four young teenagers while myself being

on a budget of \$200.00 cash. Now having a word to the wise, while I demonstrate my own experience in advice to you that any young individual family can surely and easily be misled in their own way, showing full appreciation being over generous to your off spring and to pre-occupy their position in a situation while they themselves are financially poor. This has happened to so many families in Canada and throughout the world without realizing their financial situation while not being on a limited budget plan arrangement for each day daily ration over a cash budget while store the remainder of their cash money resources ahead for a rainy day while away from home. This is for any type of unexpected emergency that may arise from time to time. Always think ahead and be wise, while implying of that there are many fools in surrounding you in every single location to gain a piece of their action. Furthermore, while understanding this, the devil of this world will leave you and your family broke and in shambles from you own desires over you hard earned money.

Matthews 2:12-16 (12) For I will truly declare thy name unto my brethren, and in the midst of the church, which I will sing praise unto thee (13) And again, which I will put my formal trust in him and again behold the children which god hath given me (14) For as much as the children are partakers of our flesh and blood, for he himself likewise took part of the same. And through death that he might destroy him that had the power of death, which is the devil (15) And deliver them through who the fear of death that were all of their life time in bondage to bandage (16) And to verify, that he took not upon hi, the nature of angels, but he took upon him, the seed of Abraham.

Reviewing back to this particular time being on that Saturday evening of this March and onward to the early morning hours of Sunday March 23rd 1997 with have a total communication from our local R.C.M.P. detachment being closed at the time while moving into their new site location. As I research back to this precise time period where the investigator has been in social contact with Wendy Eistetter's on sided story, and upon her false testimonial reports mentioned that has been brought forward into evidence. To address upon this situation as the head court prosecutor only understand the information in and about this particular court case.

The lack of evidence upon this court case is where the court prosecutor decided to lay

these formal charges against me wrongfully. This is having reference to attempted murder charges, while following back in conjunction to unlawful confinement charge. How can these prosecutors actually say that when I left the onsite mobile home while the telephone being totally available located in the office area, if by chance that Wendy Eistetter wished to contact the R.C.M.P. of being in danger. I did not in any way physically harm this evil home-grown terrorist until the time when I was climbing in my own pick-up truck. There I once again was knifed directly in my lower back to prevent me from ever leaving the premises over the cash money issues of \$3000.00 that I was carrying at the time. Now being no more than a dirty down back stabber when I had enough of this crap when I gave her back the same medicine that she gave me, only in self-defense, as I escape from the company of Wendy Eistetter, while the evidence proves this for all to see.

Acts 20:28-30 (28) Take heed therefore unto yourselves, and to all the flock, over which the holy ghost hath made you overseers, to feed the church of god, which he hath purchased with his own blood (29) For I know this, that after my departing shall grievous wolves enter in among you, not sparing the flock

{3} Also of you own selves shall men arise, while they speak all of perverse things, to draw away disciples after them. Now for the court prosecutors where they have already made their own minds up in conjunction to this court case while I decided to go with the firm supporting the legal profession of the law and with the convenience all throughout the whole summer and well into the fall of 1997 connecting to every Friday afternoon toward there of. For it was mandatory of myself to drive to the Port Coquitlam Provincial Courthouse while being directly under their jurisdiction of the ministry court services of Canada. There I had to go way out of my way at times to sign a document in person on a regular weekly interview. During this precise time period that I also must talk directly to a lady bail bond officer being united in agreement on one to one basis. This particular lady bail officer, while having no name mentioned was actually authorized into dealing with this specific court case file of mine, and myself protecting the insolent co-worker. This episode continue on with having regular weekly intervals until the end of July of 1997 when I heard that this particular lady bail officer announced to me that she is going away on a trip.

week holiday vacation. From that time onward, I have never seen that party ever reappear back to her job for one reason or another. Now announcing the new guy on the block that has been appointed to my case file during her absence to the point where he ended up in taking over her permanent job in being a bail bond officer. During this time I was a little bit uncomfortable talking to this party while he was continuing asking me some such questions of things I know nothing about to seek information from me. From that particular point and onward during each and every individual meeting that I had with him, I had very little to say while they themselves are more bigger and damn fools then I ever was. As time progresses forward in being now only three days away from my court case trial into proceeding ahead of when the head court prosecutors finally announced that they decided to drop all these ongoing charges at that point in time. Now to successfully address myself over this situation while knowing that the court prosecutor decided that there is nothing at all for them to ever charge me with. Otherwise the court prosecutors will look quite stupid while in having lack of knowledge where Wendy Eistetter should have been originally charged with this particular crime instead of myself. In knowing that, with having a ton of evidence behind the court prosecutors will surely win this particular losing battle.

1 Corinthians 2:4-8 (4) As for my speech, and for my preaching was not with enticing words of man's wisdom, but in the demonstration of the spirit and of the power (5) For that you should not stand in the wisdom of men, but in the power of god (6) How about we boast in the wisdom among them that are perfect, and yet not in the wisdom of this world. For for the princes of this world that all comes to nothing (7) But we speak in the wisdom of god, and in a mystery even the wisdom hidden in god, which god has ordained before the world unto our glory (8) Which none of the princes of this world ever knew. For if they had known it, they would not have crucified the lord of glory.

Before I bring this particular episode to a close which I would really like to refresh my own mind as I go back in time, of which relates on the back in supporting my thoughts over this heart breaking evidence that originally took place in the early morning of 1978. As for myself in relating back to the extent of this one alarm that ended to a arson fire. That took place in the early morning hours of April which has taken

place at 953 Dominion Street property site. Now for this particular time and place was actually my family own hog barn which has been deliberately set a blaze around the time frame of 2:30 to 2:45am in these early morning hours. There my loss has totaling up to 103 head of my own livestock hogs which has also included two of my choice stock breeding boars that's only 10 months of age that I have formally received several months before. These livestock animals were originally from La Combe Alberta and been transported in a single deck livestock liner to Langly B.C. there I picked them up with my truck from Fraser Valley auctions in Langly while make three full truckloads of light feeder hogs. Now among the load was two eight month old pure bred La Cambre boars into update our own breeding stock for reproducing the characteristics of more leaner back fat and a sounder mature market hogs. This has also contribute into produce a more higher quality grade pork products for distinguishing a much higher market prices relating to their commodity on an open market. Additional to this one bazaar insolent which I have also lost over half the majority of the upper wood roof construction of this whole structure which of course can be rebuilt over time. Now moving ahead into the aftermath while leaving behind a shattered debris from all over the site area, and in among the large group of dead pigs where some of these hogs were roasted alive on the spot as pieces of the mass roof structure landed on top of the from high above. Here again is where my poor livestock animals really suffer the consequences of a crime to the point of where no one really cares at all. For the people to fully understand this situation, you really have to be there while witnessing these particular ongoing events. As you see all of these things happening directly in front of you being extremely helpless all throughout this whole ordeal, and among the toxic smoke, fire and smoldering debris surrounding the dead. Now moving into the after effects through all the devastating news of the deadly fire as myself being somewhat disoriented of what I should do. Looking ahead on the brighter side where I have totally recovered over 100 head of my own livestock hogs. Furthermore without having no particular roof construction over head on the surviving hogs that made it through the whole ordeal are suffering badly over their pain inflicted burn wounds by the horrendous fire that scared these poor animals for life. There some ignorant people while lacking knowledge as they say that they are only pigs and for that who actually cares, which is having the wrong type of attitude for their position to have.

Genesis 1:27-30 (27) So god created man in his own image, and in the image of god, he created them male and female (28) And god blessed them, and he said unto them, be fruitful

and multiply, and replenish the earth, and subdue it. And have dominion over the fish of the sea, and over the fowl of the air, and over every living thing that moveth upon the earth (29) And god said behold, I have given you every herb bearing seed, which is upon the face of all the earth and every tree, in which is the fruit of the tree in yielding seed. To you it shall be for meat. (30) And to every beast of the earth, and to every fowl of the air, and to everything that creepeth upon the earth where in there is life, I have given every green herb for meat.

We the people are all god's creation, and we are his steward as we having dominion over his whole creation. For myself being their caretaker as a custodian over my livestock animals in caring for all of their necessities they need from time to time. But in this case of my drastic loss, over my 103 head, expressing approximate fifty of them are heavy feeder hogs. Now leaving these livestock with improper shelter while leaving many of the surviving hogs has to be exposed directly to all nature's elements associated with in relationship to rain, wind and sun rays. During this whole mass cleanup which I have to give many thanks to west coast reduction for their support and hospitality, with their tremendous help. Now presently removing my substantial loss of 103 head, all supporting these poor worthless animals to contribute those pig carcasses remains into a recycling program for other more valuable commodities, as having my loss is their gain. Presently for this inconvenience while presenting myself to experience indicate my hurtful thought, as I go back to the main scene of the arson fire. This only now to observe and fully understand over that particular type of evil wickedness where these people would have to be there characteristics works of a group supporting very sick individuals. This only now to observe and fully understand over that particular type of evil wickedness where these people would have to be the characteristics works of a group supporting very sick individuals. This is to address over the group of people that did this to all these innocent farm livestock animals back in the spring of 1978 and persist for one reason or another, and now looking for answers.

18-20 (18) For they all brag about themselves with their own empty foolish boast-
with their own lustful desire being their own bait, as themselves lure back into
those who have just escaped from such wicked living (19) For they been promised

freedom, but they themselves are slave to sin and their corruption. For you are a slave to whatever controls you (20) And when these people escape from their wicked ways of the world by learned about our lord and savior Jesus Christ, and then again get tangled up in their sin and become it's slave over again, for they are worse off than before.

Now for myself being extremely upset over my heavy loss of my livestock animals when I formally alarmed the community R.C.M.P. constable that was dispatched into dealing with this one insolent, and was on the property site concerning the fire arsonist. Then I announced to the police constable with myself being a part share holder on this farm owned operation that I definitely want to persue over this disrespectful group of arsonists to the point of where I am extremely tired. This goes on deliberately week to week basis in this particular remote area. There are local community R.C.M.P. constable I stated directly to me then I cannot even persue over this particular matter at all of whatever. Furthermore, addressing over this which the police constable stated, the very reason why people have their own home owner's insurance policy holders for that very purpose. Addition to this situation, I want to alarm you that if you ever interfere in anyway with our investigation, which we will then have to formally charge you. Following with a remark of where I said, are you telling me that I cannot even in any way at all protect my own property site location. Then myself in being extremely curious to the point where the same constable said to me in his verbal remarks, "For you have no rights at all into taking law into your own hand, or for you into protect your own property." Presently myself being baffled with much confusion while I try to understand this situation that actually came from the R.C.M.P. constable, that our laws here in Canada are very corrupt and unreliable through the judgment by error. Now for this particular information all rest in the hands of our own local R.C.M.P. department, as their cover up, while they all remain to do nothing at all over this situation. This here fully explains in being under an obligation of the law, and for our own community police force is only there to protect the guilty and to persecute over the innocent in a very unfair way. Now in order for me to achieve this from my own loss while holding full responsibility over the remainder surviving pigs that made it through the ordeal as I try to move ahead and yet suffer all the consequences in being an innocent victim misfortune. Now to reveal my position over on going farm insurance policy documents while expressing all of my own livestock animals, and plus the location of the

barn in along with its contents, for the whole operation needed.

Ephesians 5:10-12 (10) And for proving of what is acceptable unto the Lord (11) And to have no fellowship with unfruitful works of darkness, but rather to reprove them (12) For it is a shame to even speak of all those things which are done to them in secret to others.

The reason why we did not apply for any farm insurance policies while knowing that we would have been rejected over two reasons that has emerged from time to time. The first major reason is that being isolated area which having the fire hydrant over 1/2 mile away. Then following back to back with the second major reason is that we are a bad risk insurance companies, because having family tie reputation in repeatedly other arsonist fires over 10 years.

Isaiah 11:7-8 (7) For truly the light is sweet, and pleasant thing that is for the eyes to behold the sun (8) And yes, if a man should live many years, let him rejoice in them all. Yet, let him seriously remember the day of darkness, for they will be many.

Isaiah 6:3-4 (3) For you who put far away, the evil day of punishment. And yet cause sitting in silence to come near (4) And woe to those who lie upon beds of ivory, and to stretch themselves upon their couches. And they eat the best lambs out of the flock, and the best out of the midst of their stall.

PART 2

In connection to CTV-W

After a whole lot of running around from one onsite location to another location which have stated being in connection to CTV WS news reporter of which they will be hot over the situation if by any chance the, Canada court of appeal, will in some way deny my request for myself to ever approach their witness court stand and without have any defense lawyer for my own support.

While I continue to wait very patiently day after day for their full response from the Canada Court of Appeal, but sadly to say I have heard nothing in response from them which knowing that I decided to arrange this by the way of registered mail and directly in care of Honorable Justice Rosalie Abella on November 4th, 2010. Now hearing no word from the Canada Court of Appeal by the early time frame of January 2011. Now being most curious that something has happened of when I decided to arrange for Greg Brighton to get in direct contact with the Canada Court of Appeal, only to see if these people have ever received the particular parcel by the way of registered mail. Upon my request in honoring my word where Greg Brighton contacted them in mid-January 2011, and with his former information which I have now received from him, where they signed for the parcel on November 16th 2010. Now for myself in know this of which I am having a very hard time ever believe that Honorable Justice Rosalie Abella being in from the Canada Court of Appeal located in Ottawa, Canada have not got the determination to even write back to me which I know that all these people are also behind this conspiracy theory as being fully responsible for an unexplained event. There is a whole lot of bad and crooked business that is going on behind the whole scene as for fully demonstrates the explanation in the order to understand.

and there to really see the inside grueling story, all about our own government of Canada while they do everything in their power only to prevent me from ever talking to anyone on the outside and that also includes having no contact of any sort with the new media.

Now fully understand this whole episode on the first time around with the full support of CTV-W5 news reporter, Jonathan Woodward to where I have failed on all accounts during the first round. While now moving ahead into round two with this particular episode that is going on behind the scene which has originally began around the later time frame of October 2010. This was the second application at Kent Institution of when CTV-W5 decided to go directly in contact with my parole officer by the name of Ron Leech which he is now been authorized into dealing with my case file. Now to my understanding that Ron Leech state in conjunction to CTV-W5 response to their formal request that we here at Kent Institution, will have no problem at all into accommodate room for this particular episode to take place. For this to really occur, Ron has to arrange me into signing all the legal proceedings and having also my full approval for this episode to take place while in connection on to both participants. But I also have stated to Ron Leech that I want to hold off temporary on CTCWS for now while I give Canada Court of Appeal ample time for feedback as I have been preparing 26 pages of hand written documents that I am going to mail promptly by the way of registered mail being on November 4th 2010. This is where I have planned to give the Canada Court of appeal a full two months leeway for them to fully respond while I am being extremely fair as for our Christmas holidays approaching them as soon while giving the Canada Court of Appeal the first chance for them to come clean to me if by any chance they deny my request. I will then have no choice while I proceed ahead in following with the back- up plan to take place in the later part of January 2011 when the CTV-W5 news reporter will be hot over this particular situation as I temporary hold off very patiently for their response. Meanwhile I was talking directly to Greg Brighton on his next visit around mid November 2010, while I announced to him about my future plan that if in anyway Canada Court of Appeal deny my request I am going ahead with my second option. This is where I have already explained this episode to my parole officer, Ron Leech in connecting up with CTV-W5 news media to finally go ahead towards the end of January 2011. Greg Brighton stated to me that Ron Leech is only a parole officer which I had to go through me before anything ever takes place in here that surprised me again. I am being a negotiator from one to another as these things getting a whole lot more complicated while they pass the buck around. This here explain that they don't know what the

right hand is doing compared to the left hand, while the blind leading the blind. Now with myself being somewhat confused when I announced to Ron Leech upon his next visit which was towards the end of November 2010. This is where I told him to get formally in contact with Greg Brighton which he has stated that he would. During this time CTV-W5 is left in the dark as they continue to wait for their full approval to move ahead with having all of the legal documents signed to support this evidence for backup being the second option, which having nothing confirmed yet. Moving ahead to this Thursday December 16th 2010 when I had this one formal unexpected visit from Richard Brooks, while being one of my defense lawyer's during the first portion of my ongoing court trial. During his visit, he handed me a small group of legal documents that supports a total of four pages contains files about the missing women commission of inquiry that's controlled by Honorable Wally Oppal.

During Richards Brooks visit where I announce to him that I took it upon myself and wrote a total of 26 pages in conjunction to much of the legal documents and to address that material directly back to the Canada Court of Appeal by registered mail on November 4th 2010 and that reached their destination on November 16th 2010. For this has now really surprised Richard Brooks while going over my lawyer's head without their consent. Following back with additional 23 pages that I have handed over to Richard, only for them to have a copy of each group of documents. Supporting this evidence is where Richard Brooks promised me that he would now return two sets of each group in supporting these documents that I gave him. Now to address over this, several days later I received two sets of each group of these legal documents returned back to me by the way of mail as Richard Brooks has promised during his visit. Now back to the missing women commission of inquiry, I had me to formally address over the small group of documents arranged was addressed in the care of Marilyn Sandford that stated, we write this to ask you to facilitate a formal meeting with Robert William Pickton that we would like to discuss these following proceedings with him. (1) For his views, of the police investigation as this relates to him? (2) Would you consider providing more information on any of the outstanding missing women? (3) Can he add anything to the crown decision not to proceed with charges against him arising from the 1997 charges?

Could you please let us know when we might be able to hear back from you in regarding this letter? Thank you, yours truly The missing women commission of inquiry.

Now for me to have concrete evidence while I am located in here at the Kent Institution

and also for me to back up my solitary word in dealing directly with the missing women commission of inquiry. For me to fully explain this I will need certain specific legal documents brought in here while I deal with this one situation or otherwise there is nothing to back up my word.

Now moving ahead to March 29th of when I have received this certain letter in here at Kent Institution which has been prepared and signed by the warden Mark Kimball. Now I would like to share this particular information with the readers as their cover up and adding extra information which is false, to where you will see in here. This relates upon their intelligence and support of their crooked dealings, or they are so stupid to even know any better which that again is very possible in here. To support this certain letter I received on March 23rd 2011. Mr. Pickton, as you may recall that the media organizations have now requested to interview you with in this institution. You were approached with this request back in October 25th 2010, during that time you advised your parole officer, Ron Leech that you were not prepared to conduct a media interview until after hearing their response, while you were in correspondence to the Canada Court of Appeal. All of that is true. You then anticipated a response from the court in 2011. That question is false. Then I said to my parole officer in November 2010 that if the Canada Court of Appeal ever reject my offer by the deadline, later than January 31st 2011, in giving them ample time to formally respond where I then decided to move ahead with the second option as having a back up plan and that is when I got on the CRV-W5 news media. Moving ahead to January 25th 2011 where you have advised your parole officer that you had not yet heard back from the Canada Court of Appeal. Then you planned to give your consent for having an interview once after you receive copies of files that you were expecting. That is a false question. All of these particular documents that I have required was only for my back up proof that I need to support my solitary word while I deal defending myself in the company of Wally Oppal associates over the missing women commission of inquiry. Now in understanding this which has nothing at all to do with crv-ws news media in going public. You have anticipated that this would occur around mid-February 2011. (True) To update more on this as the missing women commission of inquiry that was originally to take place around the time frame of mid-February.

That is just after the crv-ws ended with their interview which has continuing been left in the dark from January 2011. To support this certain letter I received on March 29th 2011. Which is now only waiting for their full approval in having all of their legal documents signed here at Kent Institution. At this time you also signed a consent for to be identified through the media. (False) Back on January 25th 2011 while talking directly to my parole officer which there he got me to sign a consent form that he had with him at the time of his visit. This information was to identify myself, and to arrange this open visit with me in here as I am in the company of Wally Oppal and their associates that's coming up mid-February, over the missing women commission of inquiry and nothing at all to do with CTV-W5 news media. On February 22nd 2011 you again met up with your parole officer, Ron Leech and you have advised him that you were able to acquire one of these boxes. But for the other box was still in the possession of your attorney's hands so then you requested a further postponement of the media interview. (False question) Answer= Back on February 15th 2011 where I did arrange this official meeting with my parole officer over the situation which I have totally explained to him that Tuesday late afternoon that I have only received one group of my legal court documents that I retrieved from my storage locker over two weeks ago. But on the other hand where the defense lawyers are still holding back this evidence to the point in stalling for more time. The particular information that I require from my defense lawyers is extra support and only the to match my solidarity word for additional proof.

This information will help with this ongoing investigation where the police department or looked this too. All of this particular group of legal documents is only for Wally Oppal and their associates over the missing women commission of inquiry and again nothing at all to do with the CTV-W5 news media interview. Now on March 17th 2011 where you advised your parole officer that you still are unable to have possession of the second box of legal court documents, and also at that time you have stated that your attorneys were no longer accepting any of your telephone calls. (True) Back in around the early time frame of February 2011 while unknowingly the correct date that this has originally occurred when I learned that my defense lawyer's decided to block all of my incoming calls from ever contacting them. To my knowledge, the last time that I ever communicated with my defense lawyer's was back in early January 2011. They stated to me at the time when Patrick M. Me Gowan being their associate lawyer, return from his Christmas Holidays later this month. We will then arrange for him to retrieve all these particular legal documents that you required of which in this case has never happened. You advised therefore that you wished to proceed ahead with the media

interview if permitted (False) Answer= For this information which I require from my defense lawyer's was over the legal court documents and that is only for the support of the missing women commission of inquiry. Having nothing to hide over this situation where I insist to have an open visit with them and that is without having any type of support from my defense lawyer being present, while dealing with these legal documents that I would presently have on hand. Not having this information is leaving me shorthanded, thanks to defense lawyer's failed drastically to act on my behalf without having these other legal court documents, and once again this has nothing to do with the CTV-W5 news cast interview.

How can our correctional service of Canada go so wrong being in the pacific regional district of Canada while having extremely so many additional screw up blunders back to back all located on one page letter that been under the control of Kent Institution and there to be supervised under the government is a joke.

FOLLOWING WITH THE MEDIA REGULATION BAN IN HERE AT KENT INSTITUTION "COVER UP"

Over your consent for a media interview request has been now considered in accordance with relevant of the law and policy.

Commissioner's directive 002 media relation under section 15-B states as following: The correctional service of Canada committed to be openness, accountability and integrity and also to the recognition of the rights of all individuals involved and that is being in the correctional process including the freedom of expression and in association with the press.

Commissioner's directive 002 media relation under section C states as following: That outlines the interviews with the offender which maybe and provided if that for this interview can be conducted with having very minimal disruption to the functioning of the operational unit and it will not in any way jeopardize the security system of the operational unit, or present any risk to the health and the safety of any person that's including a victim or a member of the victim's family.

Now after reviewing the media request for your own consent to participate this as well as considering the potential impact of such a media interview to the health and the safety of your victim's families, where I am satisfied that the risk presented is undue. Therefore a restriction being in accordance with this commissioner directive 022 media relations Part 1 is seen as the least restrictive measure. If you should be unsatisfied with this decision,

you may submit a grievance to the second level.

Warden Mark Kemball

Kent Institution

PART 3

Motor vehicles

Interrogation report- February 23 2002-project evenhanded. Bill Forty, Dana Lillies, Don

Bill: what was the worst thing that has ever happened to you? William: when I got knifed
back in spring of 1997.

Bill: um-hum, tell me about that.

William: there is not much to tell, it is all black and white.

Bill: now your brother said, "In the newspaper something about you buying cars or some-
thing like that?" William: We'll buy cars from the Vancouver police department.

Bill: Tell me about that?

William: We'll buy all the unwanted vehicles from the Vancouver police department. Bill:

William: For I got a contract there. I receive up to about seventy vehicles per year there.

Bill: Seventy—that's a week?

William: No seventy a year.

Bill: More than one a week? Yeah, how did you get that contract? William: I had that
contract for about four years now.

Bill: Yeah, so what's the deal, do you tow the vehicles for them or what?

William: No, I just buy the vehicles from them. These are the ones that are up for salvage or up for scrap. There are many things that are left inside these vehicles.

Time: 1:35 pm Saturday afternoon

"Now to address more over these vehicles"

For I have purchased approximately in a rough estimate as being 70 vehicles, give or take a little while being here on a yearly contract from the Vancouver police department which has originally started in March of 1999 and onward to November 2001. Now only have a rough estimate in total of all the vehicles that I have received from the police department and there to date would extend to be between 180 to 200 plus motor vehicles over the term of 32 month time frame. For the onsite location where I formally retrieved these motor vehicles was from the Vancouver police storage lot that during this present time was located on east side of Vancouver and that's directly under Georgea Street bridge which formally was called, The Georgea Via-duct. There is everything located inside these motor vehicles from soup to nuts and for me being into recycling. Having a major of these vehicles in my possession which must be removed from all clothing, mattresses, blankets and along with all personal owned items that was left inside these motor vehicles. Additional to this also includes everything that's inside the rear end truck portion that support all items left behind. Furthermore all vehicle tires and fuel tanks must be removed from each motor vehicle going for scrap. After this is all said and done I have to now remove all the old tires from their rims by my onsite tire machine before disposing these old tires for recycling these product into rubber mats. For I waste nothing and recycle everything. Now if all of these vehicles were cleaned out prior of myself coming into possession of them to where a lot of their personal effects would not be on my property, which to point I save everything of any value while having their D.N.A. located in my backyard having straight common sense. Back in July of 2000 which I picked up this particular 1989 Chevy Astro Safari mini-van being red and gray in color that I have retrieved from the Vancouver police compound while this one unit been submerged in salt water which I have been told. Soon after I unload this vehicle onsite at 953 Dominion Street located right in behind the house which I decided to look over this particular unit while having

no body damage at all. There I really had some problems opening passenger's sliding door which has been jarred and locked on the inside. With myself having much difficulty when I finally figured out how to re-open that door where I decided to raise all the bench seats back into their own proper location for seating up to nine people. As I raised the very last rear bench seat being the farthest one back, where there laid directly in front of my eyes was a new four foot single bladed axe that was bedded in between the bench seat cushion and the back rest while folded together all smeared with blood stains. Now to the extent of this particular scene with the axe blade and handle severely covered with blood that's been already dried up, which really means that this item was there for quite some time and long before receiving this Chevy Astro Safari mini-van. I was originally told by Bill Henke, being a co-owner of IGL auctions as my agent in between me and the Vancouver police department. For whatever you may find in these vehicles, everything is all yours. In order to achieve this I never contacted any police which could open another can of worms between R.C.M.P. and the Vancouver police. Now after my finding when I decided to remove this blood covered axe from the rear seat while I propped the axe up in leaning against the outer vehicle body, being located on the right hand side while I closed the sliding passenger door. Before long I left these and went on my way in putting me a little behind in doing my daily chores. Moving ahead to the next following morning when I went up to my house where I parked that Chevy Astro Safari mini-van and noticed that the axe was gone from where I have propped it up, while leaning against the vehicle body during the night before. Furthermore, additional to this information which I also found out that both driver and passenger's doors were badly scratched deep into the paint surface by our onsite dogs which has now left me quite upset while again knowing that we had some unwanted visitors that has arrived repeatedly. There again I have no clue who these people were and I am quite sure that these individuals have put themselves directly into harms way being so terrified from getting physically attacked and possibly using this mini-van for their own protection from the onsite dogs. With having this single blade axe missing now, these invaders have possibly grabbed the axe for their own protection while escaping from the situation that these onsite invaders put themselves into. This episode relates back to my affection, why in blue blazes did these individuals put their life directly in harms way while snooping around on private property being on that same night that I dropped off this particular mini-van back on this day of July 2000. Allow one's mind to dwell on difficulty having many un-answered questions that's left in the hands of many reader's to solve

the undisclosed mystery. Would this be only a coincidence of events the happened with out any apparent cause of any connection? I don't think so. Moving ahead in September 2001, where I finally sold this Chevy Astra Safari mini-van for parts only being the end of this particular story of this nine passenger mini-van along with all the abundance of the blood on the inside that's been all smeared with stains that were dried up. Then Bill For stated during the interrogation, while he tried to grab for straws what's not there. I thought it was in your work shop? But maybe I was wrong, maybe it was a different one.

Romans 16:17-20 {17} Now I beseech you brethren, mark them which cause divisions, and offences contrary to the doctrine which ye have learned, and to avoid them {18} For they that are such serve not our Lord Jesus Christ, but their own belly. And by good words and false speeches deceive the hearts of the simple {19} For your obedience is to come abroad unto all men, for I am glad, therefore on your behalf. But yet I would have you wise unto that which is good, and simple concerning evil {20} And the god of peace shall bruise satan under your feet shortly. For the grace of our Lord Jesus Christ be with you. AMEN.

Besides the 70 vehicles that I received from the Vancouver police department on a year contract over the past couple of years. As I still continue to keep all of my regular clients that I have been dealing with over the years on regular basis. In total this is another 80-100 vehicles over the country wide while some needs minor repairing to major tune-up and from body damage to engine block rebuilding making this a total of one vehicle every second to third day that I receive. The ones that are not worth repairing I purchased them outright and recycle the scrap.

Bill: For you are doing more cars than you are doing pigs for Christ sake. William: No. I do go through a whole lot of scrap.

Bill: You are on the front page of every newspaper today. William: They put me in the paper today?

Bill: Do you know why you are in the newspaper? Because you are all done. It's all over all over and it's all over because all of those pieces of the puzzle and all of the things that you need to build a case are all in place.

William: I don't believe any of these girls have been to my place.

Bill: They called Jack Mellis, and Jack is an expert for blood splatter analysis, and he is the best in the province. He's the man. He goes around giving a class of information internationally and lecture's okay. He is in you Dodge motorhome.

William: The Dodge motorhome?

Bill: Yes. The Dodge motorhome or whatever the heck you want to call it. He is inside there okay and he done a forensic examination.

William: Um-hum

Bill: What we have done Rob we have looked at that mattress okay. They took the mattress and they got it analyzed to see if anything is on there.

William: Who did what? Bill: What do you see hear? William: A bunch of drawings.

Bill: Okay, what are the drawings around? I mean it looks like a little dog, it looks like a poodle actually. William: I don't know.

Bill: Actually what it is, is blood stains. You know and it is human blood. Lots of it, it's called blood lettering.

William: Um-hum. Whatever you say.

Bill: This is in you Dodge motorhome camper or whatever the heck you want to call it. Now some of the guys joke around and they called it a poodle, but it's not. It's actually kind of sad, as this is Mona Wilson's blood.

William: So what's that got to do with me?

Bill: I will explain that to you. Let me explain that to you, okay. So that's Mona's blood, huge blood pooling is on this mattress. Alright? For the experts said that she would have rendered her unconscious, the amount of blood pooling there. Cause they are experts okay and I am certainly not an expert and neither are you. But I am telling you what the experts say. The most respected guy in the whole province and that is his expert opinion. This is the bed beside the mattress, this is what they called blood splatter. Alright? I will read you his

William: But why and what does that have to do with me?

Bill: Hear me out, for I am going to explain it to you. Her blood is everywhere at your place, right? She has never been to your place, you have told me that. This here is the floor, now trust me on this as this is not from a bloody nose. Okay?

William: No, I hear you, I agree with that to a point, but again what does that have to do with me? Mona Wilson linked back into the company of "Hell's Angels". Now we have hired our own forensic scientific experts only to confirm this about all of the blood that is on the mattress, which the R.C.M.P. stated that it sort of looks like a poodle and he further said that it is definitely human blood. Through our investigation of quality experts in to their qualifications through much intense laboratory testing done which exist there has now realized very clearly and has been confirmed that this is not human blood at all of what the police stated surely it is human blood. For the onsite fabric material that was formally spilled on this particular motorhome foam mattress was stained only with wall paper glue substance. This incident occurred back when Gerald did a small onsite renovation to the 1973 Dodge motorhome that originally took place back in Spring of 2000. To back up this evidence which supports in having concrete proof where the can of that precise material substance and was left behind in the onsite Dodge motorhome. This is the exact same material structure that has been soaked into that one foam mattress now confirming this to be the very same substance. Having all of this additional evidence with support of the can of material that still remained and left in the motorhome that sergeant Bill Fordy has call this here a murder scene investigation. Now going back to express over the situation of Mona Wilson, as where the R.C.M.P. jumped to their misconception for support over their conclusion, while only having DNA of saliva or her sweat located on the foam mattress is definitely confirms this to be Mona Wilson and the little bit of blood on the mattress is possibility no more than a nose bleed, or the careless use of needle phenomena being located in only three or four little spots total. Now to support the amount of Mona Wilson DNA all throughout that particular Dodge motorhome which totally understands that this person had certainly been living there onsite for quite some time being as an illegal occupant or a squatter. To address over this motorhome where it has been empty since the time of when Gerald Laughlin moved out from there back around mid- December 2000. Now to fully understand this situation which has been brought on by R.C.M.P., while desperately failing to do their job properly as they only continue to focus their full attention in looking

for somebody to take the fall which truly is pure evil. Now to fully understand this, while these over educated police really did their own job properly and accurately, while this one particular case would have been totally all wrapped up in a very short time frame. Taking everything into account of all the things that went on while preceeding with a little common sense to support all the parties involved behind this event. To understand this extraordinary bizarre event being disposed to mischief and impetuous decision to communicate in being blind while the R.C.M.P. deceitfully lead one another blindly down a crooked path.

Psalm 52:2-6 (2) For why boastest thou thyself in mischief o might man? For the goodness of go endureth continually {3} For thy tongue deviseth mischief. And like a sharp razor working in deceitfully. Thou lovest evil more than good, and lying rather than to speak righteousness (4) Thou lovest all devouring words o thou deceitful tongue (5) For god shall likewise destroy thee forever. For he shall take away and to pluck thee out of thy dwelling place, and root thee out of the land of the living {6} For the righteous well also shall see fear and shall laugh at him. For low, this is the man that he made not of god, his strength.

Bill: Not yet, for I am going to show you how you will know that you are gonna be convicted based on

DNA and based on other stuff too okay. Because we both know that you did it right?
William: What?

Bill: But what you did, is you put her shoes in the cupboard, because they got blood on them. Or did someone else cleaned up for you, after the pact that maybe, but also Mona Wilson's DNA is on those too. And the thing of when you handle something like that for people do not realize the course that DNA goes two ways. Right? Like when you and I shook hands this morning, just when we made a deal to tell the truth. For you know that your DNA is on my hands and my DNA is on your hands, like that there is a transfer.

William: That is possible.

Bill: Hear me out for a second. Okay? William: Okay.

"Bill Fordy to Dana Ullies = Interview goes on" Dana: HiWilliam. How are you doing?

William: Not too bad.

Dana: I guess you are in a bit different position right now, than you were in the last time when we were talking. It's a whole lot to digest in, isn't it?

¹William: According to Bill Fordy, "I am locked up forever".

Dana: Yeah, well like I was telling you last week, that we both know that this was going to happen.

' William: Did you find those bones that I was telling you about? Dana: Yes, we did, and you map there was perfect.

William: And they were three foot ostrich bone legs?

Dana: Yes, and you knew that they would be ostrich bones. William: I told you that, but now do you believe me?

Dana: But of course, but there is all this other evidence that's comes to light. And like Bill Fordy was telling you, there is more evidence coming out every day and every hour. For how are you feeling?

William: I don't know, presently I don't feel my toes because they are not on the ground.

Dana: You don't feel your toes?

William: Yeah, because there not on the ground.

Matthew 16:24-26 (24) For Jesus said to his disciples if any man will come after me, let him deny himself, and take up his cross and follow me (25) For who so ever will save his life shall lose it and who so ever will lose his life for my sake shall find it (26) For what is a man profited if he shall gain the whole world and lose his own soul? Or what shall a man give in exchange for his own soul?

Dana: I bet it is a lot to be taken in? Were you able to sleep last night? William: Very little.

Dana: Um, so I really want to fully understand what had happened with Mona Wilson, I really do. William: I did not do anything, and I don't know her.

Dana: Okay, well we all know that this is not the case.

William: That is what they say now. So I mean that I am nailed to the cross anyways.

Dana: Okay, like Bill was telling you that her DNA is all over that Dodge motorhome.

William: I know. I have heard that too.

Dana: Something here that I don't think Bill mentioned to you of where your DNA and her DNA was found. He did not mention that, did he?

William: I don't know. I don't know.

Dana: Okay, I don't think that he mentioned it, and your DNA was found on the dildo that you had at the time. This was connected to the end of the gun there. And that is where her DNA was also found in being on the tip of the dildo.

William: Just because I found it.

Dana: You know what, you are just hurting yourself and you are hurting your family and you are also hurting the families of all these women by you while you are continuing to deny these facts.

William: I never did anything.

"Now to update you more on this story"

During this relatively short time frame period which I was at the time while driving my one ton flat deck truck in heading towards the roadside barn in approximately between the time of 8:15 to 8:25am on this miserable Saturday morning December 1 "2001 from my place of stay. Now to further update more about this one particular location is where I have a large volume in support of my pregnant sheep are sheltered. For these pregnant sheep are all do to have spring lambs here onsite during various time throughout, while starting in around the very early time frame of February and that will extend onward right into the early part of March 2002. The weather at the time was extremely terrible in combination with heavy rain and the wind currents that has been blowing consistently throughout the night coming from the West of the property location and drifting East ward. Just as I was driving past my

auto repair workshop heading up towards the roadside barn which something has drawn to my attention, towards this old Dodge motorhome that's located some distance back. This particular noise that has brought my attention was the screen door of the motorhome whipping in the wind with mighty great force of wind power slapping against the Dodge motorhome exterior fiber glass body. For this particular reason, where I had to stop directly on the roadway and in spite of all the heavy rain with the wind combination of howling during this storm bulletin weather advisory. There I had to apply my emergency truck brakes while I leave the motor still running, as I hurried off to close the screen door of the motorhome. When I approached the old Dodge motorhome and there I encountered that the main entrance door to the motorhome was wide open as acting in combination to the screen door. At the time this really was a little unusual for me while saying to myself that I now do believe the wind never blew that particular door open, which presently got me thinking that someone been in here and now left the door deliberately wide open. Under these present circumstances is leaving me a whole lot more curious than I was before in wondering what in the hell is going on here and for myself is getting wetter by the minute. Then following as I yelled out saying, "Hello, Hello is anyone here?" which I have received no reply while the wind and the rain was lashing heavily against my face, with the support of the rain water began to run down the back of my neck. This has encouraged me to examine of what is going on in there as I decided to step into the Dodge motorhome while getting out of the direct rain, being on the first step of three flights. Over this puzzling situation, there I left the door continuing slapping against the fiberglass body while I questioning my formal thoughts of what's going on. My curiosity interest has overwhelmed me to the point where I once again yelled out in saying, "Hello, hello is anyone here? And with having to type of any response what so ever. Presently with myself being aroused over this curiosity while I evaluate the situation in being already there. I then closed the door behind me and walked up the remainder couple of stair flights into the Dodge motorhome while I examine the motorhome condition. With my presence being there as I yelled out again hello, hello is anyone here? Now during this time was only silence along with the noise of the heavy rain beating down in combination with the wind howling around the Dodge motorhome. Then I continue slowly moving onward down the narrow walkway approximately 10 feet which was just past the kitchen area. This is the particular location of where I have noticed that the floor carpet was completely saturated with extreme amount of water that was deliberately spilled in the center of the floor walkway, surrounding a four square foot

diameter area. While I explore this situation over the fact that this water has been spilled which I truly believe that actually came out from a one gallon milk jug described to be laying on the floor. The evidence of the empty milk jug was directly next to the site location where this water been spilled in having to cap on this unit while being total ignorant on their own behalf. Now moving ahead a little further along just past the onsite bathroom is a single bunk bed that is located on the left hand side of the motorhome. Upon the bunk bed which looks to me like a complete set of clean clothing to my awareness without me inspecting any deeper. Directly across located on the right hand side is another single bunk bed which I truly believe that this onsite motorhome was recently occupied and was used by some individual while having clean clothing there on hand. This particular bunk bed that's located on the right hand side is where the R.C.M.P. has jumped to conclusion and they have stated this to be women's blood which is by far from the truth. But through extreme testing of DNA which has been confirmed it to be Mona Wilson's DNA and for that I presume the complete set of clean clothing must also belong to Mona Wilson. For having all of this additional evidence relates back to her, to my firm understanding that Mona Wilson managed to live there onsite for quite some time with support in having abundance of her DNA located within every little corner throughout the motorhome as an illegal occupant, or a squatter. I further believe with having extreme evidence of her DNA all throughout the motorhome, that this particular milk jug of water also belonged to Mona Wilson, for her to drink while she continued to live there onsite. While I was in the Dodge motorhome during this short precise time period, next to the left hand side single bunk bed and directly below from where I presume that was Mona Wilson's clean clothing where I noticed a small rubber boot laying on the floor by itself. For this particular boot being about one inch round in diameter overall and roughly about a total of four inches long which I claimed at the time, While I am also a compulsive hoarder and collector of merchandise. Now going back to this particular item where the police constable Dana Lillies called this a dildo which is totally wrong on all counts. Now supporting my thought that is on the back of my mind after I retrieved this particular rubber boot that I found in there. Presently having my mind at ease of what has gone on in there is none of my concern, while I exit the Dodge motorhome and closed the door of the unit, as I went on my way in doing my business in the heavy rain. From there I head onward to care and feed my livestock sheep and other animals located at the roadhouse barn. For this little errand took me about a total of five minutes of my time from when I have parked my truck, and by the time I have returned back to my truck.

"Now to explain to you what really is a dildo"

Now to update the police constable Dana Lillie's, and let her know of what is a dildo. As to demonstrate this one particular unit is a mechanical hand held device that is strictly made for a particular purpose. This unit is formed and shaped like an erect penis, and that is to transmit a sexual stimulation which usually operates by a dry cell battery that accommodates the unit being portable.

This is the situation where the R.C.M.P. has again cast the law behind their back while they are totally untruthfully for themselves in being full of human mischief and their wickedness of unprofessional behavior that was inexcusable during the time. Now under these particular circumstances according to the R.C.M.P. these fools are making this little ivory colored rubber boot into a leading role, while the R.C.M.P. are building these block of DNA into this unique case against me only by the way of them in changing the name over from this little rubber boot into a dildo.

Psalms 15:2-5 (2) For he that walketh up rightly, and for that worketh righteousness, and speaketh the truth in his heart {3} and for he that back biteth, not with his tongue, nor doeth evil to his neighbor, nor taketh up a reproach against his neighbor {4} As in those eyes a vile person is contemned. But he who that honoreth them that he feareth the lord {5} And for he that putteth not out his money to usury, now that he taketh a reward against the innocent and for he that doeth all of these things shall never be moved.

But nevertheless, I do reckon that it is possible which this particular heavy rubber boot is capable to slip over top of any style dildo as only an option and use that item in that particular way. Now for myself being creative, as any one object has got more than one purpose in life while being customized into my project plan as I manufactured this object which will be entirely for a different use all together. Now examining this with very little work in alternating something useful from nothing by the way of using some plastic wrap and cling that tightly around the hand gun barrel while building up layers of plastic for a comfortable fit into the diameter of this little rubber boot. Doing this simple procedure which I have now incorporate my own silencer connect to the gun barrel with support of no cost into

fabricate this item. This little alternation with reference to reduce the sound of the hand gun while baffling the noise being fired. After I manufactured that item onto the hand gun, I have never tried it out, which my instincts tells me that, I know this will work in leaving me here at ease over that item. Now over all my born days I truly would never thought that I could create such a mighty stir over a small simple complex device as for this little rubber boot that is no much bigger than your finger on the inside diameter of the unit. I have only used this unit being a 22 calibrate hand gun revolver for a total of eight times with the accumulation of past events making such a loud noise and having the housing development is growing all throughout this whole neighborhood. There I decided to pause momentarily in using this for that one particular purpose while I bring down 500 to 650 pound boar pigs. What I have encountered to believe about my 22 calibrate hand gun revolver in having only a short barrow, where the small 22 gun shell lead has got a lot less distance to travel while having a lot harder impact. As comparing this to a 22 calibrate long riffle while introducing a whole lot more travel leaving a much softer impact that only reflects off of their head like having a blunt instrument. This relates only to the older breeding stock boars that reach between five years and older to the point where their bone structure get harder with age. When these livestock animals meet their maker and fully understand for this purpose that their meat on an older boar pig is firm, tough and dry. This is the grand daddy of all pigs and if I was going to challenge between a boar of this age with their mighty strength, against a black bear, I will bet money on the boar pig which will kill the black bear. The older boar pig meat is extremely dry and strictly used for variety supporting of miscellaneous dry sausage products in processed foods. Now in comparing with their own offspring in similarities on regular size physical structure domesticated hogs which is raise in the time frame of six months of age. Their particular meat is produced for a variety of many choice cuts of pork and pork by products in processed foods for the desire demand to support and feed the growing human world population growth.

Back to the interview with Dana Lillies

Dana: The police are going to continue to connect you to more of these murders, and you are in that one situation where you can sit and wait for the next bomb to drop to accept the facts.

William: So maybe more pending, one on top of another?

Dana: Um-hum. Like my boss was just telling me that there is new evidence that is coming in now. Are you hearing me?

William: I don't know.

Dana: But I will tell you, that is not something going to make any difference, because no matter of what you say. You are going to jail.

William: I said, "I don't know here".

Dana: Tell me how did Mona's DNA get on that dildo? William: I don't know.

Dana: I want you to sit here and think about every conversation that you have ever had with any one about how to get rid of bodies, about the people you have killed and about violent sex you have had?

This is another area of where our police force has deliberately now cast their jaw behind their back and showing their demonstration of their evil force intentionally, and for all their misleading evidence about violent sex. Now furthermore, the police stated that I get rid of bodies which is true, but they forget on word in being "Auto bodies". For this I am into all kinds of scrap recycling from car bodies right to household appliances and air conditioners to heating ducts alike, in keeping this material from ever entering into our land fill sites

Time: 5:00 pm February 23rd 2002 Saturday afternoon

Dana: Like I have said William, the evidence here does not lie and there is a mountains of it building up every day.

William: I don't know. For anything here is possible.

Dana: Each day we are putting more and more of the puzzle together William and to give these people the answers that they need and to give them the closure that they need to let them go on with their own lives.

William: This is way out of control. For I would like to go back to my room.

Dana: Well you know what? That is not going to happen right now, because there is more things that we want to talk to you about.

This is where Bill Fordy barged in very rudely when I stated to Dana that I wanted to go back to my room

Bill: How are you William? How are things? William: I guess I'm okay.

PART 4

Sereena Abbotsway linked to the company of the "Hell's Angels"

Don Adams: I am the one that will officially be in charge over this whole investigation alright? Now what is gonna be the evidence is a shiny case you brought into the house that you discussed it with a whole bunch of people and we got that which you cannot move away from the position.

William: This is a false report, for I have stated that I have removed everything from the passenger side floor of this particular dark gray scrap car and took everything in my place of stay where at that time I used my telephone. I phone Lesa Velds and he is a longtime friend of mine, which she got a doctors degree in PhD and she stated to me that it was out dated as back in its time and it's pretty expensive, and that is as far as anything ever went. The end.

Don Adams: William you need to understand something that the inhaler was not found by itself in your house. As it was found in a tote bag that belongs to Sereena Abbotsway. Inside the tote bag are her shoes, her clothes, a needle with you DNA and her DNA together. Okay? Additionally to this we went out into the garbage can and in the layers of garbage we found a total of four inhalers there. William you need to understand that you told a lie and now to justify how that inhaler got into your house.

I never lied at all which Don Adams stated that he caught me in a lie. Like I have stated before that I removed everything from this dark gray car about 2:00 pm on this Thursday afternoon and for the correct date which I'm not 100% sure of being to my knowledge in late

August 2001. For this was the second vehicle that I shipped out on that day to the scrap yard while making extra room for other motor vehicles that are coming in. Now all the contents that was located in the purse when I removed that merchandise from the passenger side front floor board and took that into my place of stay. Being born with dyslexia and having only grade five education at the age of 16 years old. What I called a purse is a unit that holds personal items of different articles and the unit comes with one or two handles. Now here comes Don Adams being a little more intelligent with having university degree where he call that a tote bag, wow that makes me into a liar this I personally do not think so. For of what I remember in examining the large purse which to me was this unusual box on the top and survey the other contents was some needles, along with the extent of some personal clothing. I do not at all ever recall seeing any shoes in there. But I am going back along time when this occurred. This particular car was parked on Burns Road property, being located at the other farm which been there for about nine months in that stop. The location was directly across from DJ's workshop and directly east of that across the large parking lot is thee piggy's palace. This particular purse or tote bag was possibly placed in that car while the unit was actually sitting in that location. According to many reports that I have officially read of citizen data information which Sereena Abbotsway has been providing her services being on regular weekly basis. There she is assisting in supporting a particular role, as her service to "Hell's Angels" being a person who engages in sexual activity, as a prostitute at their site location at 930 Dominion Street in Port Coquitlam.

Now to support a word of thought

The first thing is that I have not got the time of day to waste in doing any type of cleaning throughout the onsite mobile home, as I go so much work on the go from morning to night daily. During this precise time frame of 2001 where I arranged to get my mobile home cleaned out three times total.

The first time: Was around mid-February 2001 when Neta Casa Nova came over with her close friend on that particular Monday evening. They cleaned the onsite mobile home and washed all the dirty dishes. The time frame was from 7:00 pm to 10:00 pm of which I paid them \$100.00 a piece for their services.

The second time: Was around mid-May 2001 when Theresa Brewer came over on this particular Thursday afternoon which she cleaned the onsite mobile home while I continue onto deliver more orders of top soil. During that afternoon I have five delivery orders to full fill. While I started delivering my third load about 2:45 to 3:00pm when I decided in paying Theresa in full \$100.00 cash for her

service and when she finished her job a short time later Theresa contacted her brother and she arranged for him to pick her up, which the note stated upon my return which was signed by Theresa Brewer while ending my third delivery load approximately 4:15 pm. While knowing this has presently left me a little upset, for I was going to take her back to Surrey where she lives which plans been changed and now I had to bobtail empty handed back to Surrey with my Chevrolet S-15 pick-up truck to sign checks for our work crew. I arrived back from our office is where I managed to deliver another load totaling four of five loads of top soil this Thursday afternoon.

Gina Houston has stated in the New Westminster Courthouse while she was on the witness court stand where Gina stated her testimony under oath that Andrea Joesbury was the one that originally cleaned my onsite mobile home in May of 2001, which is totally wrong on all accounts. "This is what drugs do to a person's mind". Andrea Joesbury been at my place only once and that was back in December 2000 and that was that! Do you know Andrea Joesbury is infected with HIV that mean human immunodeficiency virus disease. In corresponding to Andrea's physical condition, and truly I do not need someone in that type of condition hanging around here so I have ordered her to leave and that was the last time I seen her.

The third time: Was on the very first Sunday in August of 2001 when Nancy Plasman moved into my place which during this time she was a flag person and working in the area of New Westminster at the time. During this time Nancy had no way to get around, so re-arranged my time schedule which I pick her up and dropped her off at different onsite locations. When Nancy originally moved in on Sunday afternoon August 5th 2001. During this time she cleaned the mobile home out severely and placed everything inside this McDonald's garbage can which the police stated that I put them in there and that is totally wrong on all counts. Now to address over the layers of garbage is my own library of all out dated collection that supporting these magazines which I cherished dearly where Nancy has thrown away during her clean up over time along with those four inhaler's. When Nancy Plasman

not presently working at the onsite, she is cleaning the mobile home thoroughly. Nancy Plasman moved out from the onsite mobile home on Sunday afternoon November 4th 2001 which she decided to change her career temporary as she arranged to work onsite expressing her capabilities being a caregiver in the role of a live nurse. This particular job is only for the next several months instead of working as a flag person out in the miserable rain and nature's elements. Further plan to relocate back permanent of 2552 Burns Road property, Port Coquitlam. After Nancy Plasman filled the McDonald's garbage can up during the time that Nancy had been at my place and I never have emptied the garbage can knowing that my whole collection of these magazines are there. Now implying to the practical time for myself to empty that unit I would once again return all of my out dated library collection of these magazines back into my place of stay, being mine. To understand me I am a compulsive hoarder or a pack rat like my earth parents did before me in the past.

"For I recycle everything and waste nothing"

Back in support of these wonderful old magazines that I cherish my emotions so much is from this old house and that covers everything into detail from kitchen to bathroom renovations. Along with other wonderful home and garden landscaping articles that makes my amazing out dated library collection. Additional to this there is planning and designing with support of their architects along with so many, many, more unlisted items that Nancy Plasman threw away during her stay in the mobile home.

2 Peter 2:2-3 (2) And many shall follow their pernicious ways, by reason of whom the way of truth shall be evil spoken of. And through covetousness shall they with their feigned words make merchandise of you (3) Whose judgement now of a long time lingereth not, and with their slumbereth not.

Their Sergeant Bill Fordy tried to get me to lie over and over again, and now he is taking a different approach of much mischief making over his unprofessional behavior, of which he stated I have to tell you that her DNA is all over your house. It is all over the clothing and I will tell you something else that your DNA is on top of it, so you cannot argue with this. You are done. We have already talked about Mona's DNA and how in the fact where your

DNA is mixed together with her DNA being there.

William: This is impossible.

Bill: That Sereena's DNA is mixed with your DNA along with DNA of eight other women. There is still being analyzed. This is tore right out of the scalp. All the garbage is also being analyzed, everything you know. This is interesting that this guy phoned in and said that you said after you killed some of these girls you have feed them to your pigs.

William: that is the biggest pile of crap that I have ever heard of this hog wash.

Bill: You know what's interesting here, if in fact it is true cause if it is not true then it's no big deal at all. I maybe you just buried them all under the town houses, you know in the property there?

William: Oh yeah right.

There Sergeant Bill Forday went on blabbering foolishly to me during their interrogation of what he said in the interview. You are now probably asking yourself what is the upside thing for me to do here? For the upside thing here is quite frankly William, you can go to jail on two conditions. You can go to jail with full respect of yourself and with other people that's going to read the papers, or you can go to jail with having no respect, and that is nobody even cares about who William is. This will be on your terms with respect or without respect, either way you are going to jail. For I am wondering what are you going to do? I do not know what the answer is to that because you have lived your whole life with no one ever respected you. The irony of this is, the first time in our life that you have ever been now recognized. Right now you are as big as the pope. Do you know for Christ sake, you are given the same amount of media coverage as Bin Laden got. I don't know you that well and I don't want to trust you. First of all you are talking to a police man and I don't know what you are thinking. But I want you to know that I have not lied to you about anything here today. For there in no police man in the world is ever going to set anybody up either.

How can Sergeant Bill Fordy stand up and deliberately stated that he never lied to me about anything here today which surprisingly he has intentionally lied to me more than twelve times over the nine hour interview which is still on going. For instance Bill Fordy stated all the twelve to fourteen boxed that was in the room that I was being interviewed was to be right full of evidence with more and more coming in every day. To address this all off

these legal boxes here are no more than a pile of empty boxes stacked there in rows. This is our most trusted police force being our local R.C.M.P. and this evidence proves to the community of people how crooked and dishonest our loyal police department is, in support of their credibility of reputation as unprofessionally immoral being.

People that partied at "Hell Angels" Located at 930 Dominion

For how foolish some people really are to draw full attention upon themselves in being 100% responsible for support of their own actions which this includes our own police as being busy bodies. For they are full of mischievously energetic devilish, which really is not considered standard by many individuals.

1 Timothy 5:12-13 (12) For having damnation, because they have cast off from their faith (13) And with all what they have learned to be idle, as they wandering about from house to house. And not just only idlers, but also tattlers in being busy bodies, and for them to speak of the things which they ought not too.

This particular evidence is located in the public eye and with their own personal experience that they have stated which has maybe or maybe not took place located at 930 Dominion Street in Port Coquitlam. For all these independent group of men and women that I am about here to mention, "To occupy their assistance, " which not one of these individuals will be summoned to appear in court of law by anyone of the court prosecutor's. For support of these individuals will really hurt their case in the court of law, while those individuals all stated that they have partied onsite at the pig farm. Now to update more on this to support the actual fact that every piece of farm land all throughout this whole area of Port Coquitlam which has raised pigs on time or another. The prior owner that did own this one particular property has raised two Hampshire market hogs that was on this certain site. Now for one's curiosity may wonder what is a Hampshire pig which is a particular breed of having black and white colored pigs.

Lamentation 4:14-15 (14) For they have wandered as the blind men in the streets. For they

have polluted themselves with blood, so that these men could not touch their garments {15} For they cried unto them, "Go away." Touch not! Depart! And when they fled away, they wandered in the streets as they said among the heathen that they shall no more journey there.

Now to support the group of individual people in working very close influence in being united as their police informant while they communicate on this specific subject and their location. Under these circumstances they have come forward and talked to the R.C.M.P. officer that's in charge of this one formal investigation and nothing at all to do with myself. Now according to all their statements that I have read through legal documents, as these individuals only talk about all the bad things that has went on at the formal booze can parties that was held at Hell's Angels. On the average week, they usually start to my understanding at approximately around 8:00pm on Thursday evening and onward right through to Sunday evening around midnight ending their onsite parties.

Individual people that I have listed here I read which they stated about their own personal experience and described summary into official legal documents as they report all of this information to the police in general as they partied for a time on that certain pig farm. Now for this particular location which was held directly across the street from 953 Dominion Street while that's all controlled by Hell's Angels. Enclosed in their formal reports totally explain all about Mona Wilson was "Hell's Angels" bartender in serving drinks all throughout their 930 Dominion Street basement and with respect to their entire property site location of Hell's Angels. Additional to this through our own police department investigation reports that conform this to be Mona Wilson body parts was now found on my property site, being the same person that works for the Hell's Angels regularly from Thursday evening and continue onward to Sunday midnight. During this precise time period, there have also been a lot of documentary reports of evidence that states Sereena Abbotsway was one of their regular clientel patron prostitutes. There she was onsite attending regularly on that particular property located at 930

Dominion Street while in the company of the Hell's Angels as they partied along with them for a matter of days on end. Never the less I am now unfortunately linked in being connected together in with the Hell's Angels while having Sereena Abbotsway's body parts that

has been planted on the formal property located on 953 Dominion Street. Now to express my personal thought over this in excusable behavior which caused by a group of evil eyed individuals that has participate as a team having extreme anger, and in being 100% disposed to mischief making over harmful effects to everyone involved. Now presently to update our local police department while they got totally involved and to cope with this particular affairs. Here the R.C.M.P. failed to solve this problem while the bling lead the blind down a crooked path of their own crafty workmanship expressing to their unprofessional behavior. As they use myself for their escape goat while the R.C.M.P. only focus strictly upon me from day one, with misleading evidence that they have brought forward.

Jude 12-13 (12) For these are spots in your feast of charity when they feast with you and they are feeding themselves without any fear. As those clouds are carried about by the winds, and while they all drift about having without water. And for those trees the fruit that withereth without any fruit, twice dead and been pluck up by their roots (13) And with the raging waves of the sea that is forming out of their own shame. As for these wandering stars to whom this is reserved with the blackness of darkness for evermore.

For I want to witness myself, that I am not here to talk or even to discriminate anything about The Hell's Angels and neither to talk about any of their formal parties that these individuals has brought into existence under adverse conditions. These particular ongoing parties that's been controlled by Hell's Angels which I have never ever attended their onsite to the point where some people stated that I did. Being neighbor's to Hell's Angels and Hell's Angels being neighbor's to u all on the same block is as far as that ever went, and myself been close neighbor where I have never ever attended to any of their ongoing parties. Furthermore I do not believe for a moment of an assertion which some of these individuals has stated about Hell's Angels. In spite of what some people actually think about the members of the Hell's Angels motorcycle club are some of my best of friend's through truck driving acquaintances. For the ones that are giving Hell's Angels a bad reputation with much criticism and in blabbling foolishly are the ones that presently been banned from their motorcycle club. For these particular type of individuals will never live up to their expectations, as these want to be of lacking desire were unrealistic which will never meet their qualifications being

members to support the Hell's Angels motorcycle club. Putting this in other words that these people will never meet up to any of their degree in standards as being their outcast and now trying desperately to destroy Hell's Angels reputation in the process. Presently using us while being close neighbors to Hell's Angels property in hoping that we will turn against them which these perpetrators all continue to sit in the background as they laugh with their hearts content. Now at the moment having everyone on the same page it will not happen in this life time, and it is about time the R.C.M.P. do their job over this episode of events. For thee onsite social gatherings of group parties in connecting to those mixed people that has been existing and ongoing that identifying their property address being 930 Dominion Street from mid-summer of 1995 and onward. Back in response to Hell's Angels motorcycle club member Scot Dwayne Chubb is one of the outcast from Hell's Angels being lack of his determination, including fighting and his rational outburst hot headed flare ups as he is barred from their club association. Now thinking back to the early time frame of July of 2007 when Scott Dwayne Chubb approached the witness court stand with in the supreme court of Canada which was held at the New Westminster courthouse. There he has deliberately lied directly in front of many viewers of where Scott Chubb stated that he never did attend to any one of the Hell's Angels on going parties. This is the biggest lie that he can ever dream up, that lead down to a road of lies one after another being the father of lies and ending with all these false misleading reports in the law courts.

Matthew 23:26-28 (26) Woe unto you, scribes and Pharisees, and pretenders, and hypocrites. For you to clean the outside of the cup and of the plate. But within they are full of extortion, prey, spoil, plunder, and grasping self-indulgence (27) For you are like tombs that have been white washed, and which looks beautiful on the outside, but throughout the inside are full of dead man's bones and everything impure (28) Just so you are also outwardly seemed to people, and to be just and upright, but deep inside you are full of pretense, and lawlessness and their iniquity.

For having additional evidence, where Scott Dwayne Chubb met his girlfriend named Tasha at Hell's Angels parties while she was one of their club members supporting Hell's Angel. Now understanding that how can this person actually deny these facts and say that he has

never been in the company of the Hell's Angels. As for Scott Chubb, he has bought many drugs supporting by Heroin, Cocaine and Marijuana while supporting his drug habit over the many years from Hell's Angels located at 930

Dominion Street. This particular information came from our own work crew which Scott even tried to arrange them to go with him to purchase drugs.

PART 5

Jane Doe- Hell's Angels

When we were in court back in November 2006 while we were addressing over this particular unknown woman in having no fixed Christian name which the local R.C.M.P. decided there to call this party Jane Doe and still to this day this remain unsolved.

For this evidence in court that have no social back ground, and going through DNA chromosomes that has originate over this Jane Doe in this particular area of Ruskin, British Columbia, Canada.

Now additional evidence in going through much scientific research that has been done by these quality experts involving their own systematic investigation while they established the facts in similarity that only a band saw was the one used to conform this cut on Jane Doe head skull directly in half which has now been achieved. Now going back to 953 Dominion Street location of Port Coquitlam is where the R.C.M.P. have declared that they have found a particular rib bone through their investigation that DNA relates back to this particular unknown woman called Jane Doe which was found back in the early summer of 1995.

During the fall of 2006, while going through our own biological team of experts on living organisms, studied this rib bon and they found out that the matrix substance around this particular bone is coated with having a structure of this marijuana residue composite for there is no evidence at all having any trace connecting to any ty of marijuana even been on that property what so ever! Now with this particular evidence that relates back to that one rib bone that's coated with having a structural support over this marijuana residue composite and being only states that this unique rib bone been placed there some time after that

one particular party been deceased.

"Marijuana"

For this particular type of a root plant that is being produced right from a seed me professional care as to mature and to germinate in their rapid growth. For this marijuana residue is being only developed from its own dried leaves, and from the flowering blossoms with the stem of the hems. This is also an intoxicating drug and with having hallucinogen, far beyond self-controlled, and usually consumed by smoking cigarettes.

For to back up my solitary word on this which you can contact my defense lawyer, Marilyn Sanford. Marilyn has proved this particular evidence during the court trial of November 2006.

Now going back to this particular rib bone that having matrix of marijuana residue composite which that evidence falls back directly in the hand of the Hell's Angels located at 930 Dominion Street that surrounding them while being in the company of the want to bee's, in joint relationship to where they are totally banned from ever joining Hell's Angels motorcycle members. Back on Tuesday late afternoon on May 29th 2012 2:30pm when I had this unexpected visit with the R.C.M.P. accompanied by retired Sergeant Don Adams and along with his partner being Sergeant Marg Kingsbury in here at Kent institution.

During their visit Don Adams was blabbering foolishly about all of the ongoing charges which I can prove far beyond any doubt that I am not linked to these crimes. Before long Dan has brought up this particular name of Jane Doe, while seeing over what kind of response that I am going to say about that situation. There I announced to Don Adams that this particular rib bone that was found on the property at 953 Dominion Street has got matrix substance of marijuana residue composite on this item. When Don Adams heard this, he was dumb founded and presently now he was lost for words of what to say as they look at each other for answers. In accordingly to my own understanding and now to relate over their expression that I really believe that they both knew all of this long before while the R.C.M.P. is continuing in using me as their escape goat.

Furthermore, now failing to compete all their duties which I truly believe that Don Adams feeling responsible for his guilt that came down heavy with much shame upon the R.C.M.P. detachment headquarters which has made him to retire early from his position being the head police investigator.

PART 6

Roxanne, the big 50 “The police created” HAVING A WORD OF THOUGHT

The party by the name of Andrea Joesbury arrived at my place back on Monday evening December 11th 2000 while being in the company of Dinah Mary Taylor. During this time Pat Casa Nova and myself was working approximately half way through our second work shift being 9:00- 9:15 pm. A short time later I learned through Dinah that Andrea has been infected with HIV positive which that means human immunodeficiency virus disease as this all corresponding back to Andrea Joesbury physical condition. I do not in any way need someone in that type of condition hanging around which I ordered Dinah and Andrea to leave these onsite premises, but only after I gave each of them \$50.00 a piece, and that was the very last time that I have seen Andrea Joesbury. Prior upon them leaving Pat Casa Nova announced to Dinah Taylor for her effort in finding someone for him but look for someone else a lot more healthier than this Andrea Joesbury. This was a fixed business deal that Dinah promised Pat Casa Nova that she would and soon they both left by the way they came while using the main public community routes upon the transit bus system.

Don: No, but you are screwed.

William: I am screwed any ways from the News media event? Don: Do you understand that you are screwed?

William: Yeah, but that is here nor there.

Don: But let's just talk about this like two gentlemen. William: Urn-hum. Whatever you say.

Don: You are smart. You are not overcome with this are you Willie? You are crazy as a fox.

William: Well, I don't know about that.

Don: Well, I think you are.

William: For I just want to get everybody back to work and get every ones lives back together.

Don: That's fair and I want to do what is best for this investigation, so I want you to tell me the truth. For I want to know how bad the situation is and also I would like to know, "What other killer's I am looking for?"

William: Yeh, right. (The R.C.M.P. is so ignorant and clueless while reaching out to me from their own screw ups.)

Don: You told me it is not just you agreed. There is more out there okay.

William: More about that? (This only leaves them in suspicion)

Don: Do you know any others, like is there other people that you worked with and know about this? William: No. You are looking in the wrong territory.

Don: Alright without giving numbers, how big of a chunk are we talking about? Now the truth Willie, don't under sell me, is that fair, and now where do I draw the line. In half?

William: I don't know.

Don: Will just numbers, will you know that there are Forty-eight numbers of people missing here? William: Um-hum. Whatever you say.

Don: Alright, there is no doubt in my mind that you know all of the girls that you killed. Agreed? William: No. For you are barking down the wrong tree.

Don: Willie, I know you don't know them by name, but they tell me that you don't take any drugs, is that true or not?

William: I never ever used any type of drugs!

Don: They tell me that you are a non-drinker so when you took these girls lives you were sober. You agree?

William: No! I don't drink any alcoholic beverages.

Don: How are you protecting Dinah Taylor or did you tell Dave that Dinah killed some of these girls? William: That is true. Dinah Taylor lived on the property site while we were all under the suspicion of murder.

Don: So is it true that Dinah did kill some of them?

William: I have to talk to her first. For I do not want to say something of what I don't know anything about and then I will tell you of what I know.

Now with a blind eye and unknowing of all the true facts, it is so easy into condemn one to another with violence, corruption, disorder, injustice and immoral wrong doing in society. But before you go on and criticize while finding fault with others, fir you ask yourself whether you are living a perfect life pleasing to the holy God. For there will be a day of judgement will fall upon every one of us which will have to give account of themselves to God the Father.

Don: Now in understanding this situation what you are saying here, that I am going to take the blame for everything including the stuff that Dinah Taylor has done. Is that what you are telling me here? Is that what you got to negotiate with, is that what you are saying?

William: Well, for I am not going to run from this and second is that I have nothing there to hide or to be ashamed of.

Don: Okay, good.

John 10:17-18 {17} There for doth my father love me because I lay down my life, that I might take it again {18} For no man taketh it from me, but I lay it down on myself. For I have power to lay it down and I have power to take it again. This commandment I received of my father.

Moving ahead to Friday December 22nd 2000 when Dinah Taylor had telephoned me about

8:30pm from some local pay phone located in the Vancouver's east side where Dinah introduced Roxanne to me. This is where I spoke to Roxanne personally for the first time on the telephone. That evening Roxanne and Dinah encouraged me to head to Vancouver and return back to my place with Roxanne and Dinah to fulfill the wishes of Pat Casa Nova. Also during the same time Roxanne stated to me, that she wish to bring all her dirty clothes with her and wash them at my place if that is okay with you, as I cat three bags with myself being somewhat baffled to a point, I have no problem with that situation in knowing that my washer and dryer is in full operational condition when I announced to them, that I guess I am heading off to Vancouver then. I arrived in Vancouver around 9:30pm where I have met up with Dinah and Roxanne along with their three large bags in the back of my pick-up truck and before long while exchanging views with ones thoughts, we were off back to my place without Dinah, as she stated that she has got some ongoing unfinished business to take care of. On our journey as we were heading back at the time, we were talking about our ongoing injuries which upon my own understanding that Roxanne been thrown directly out of a window being located three floors up and she landed on the hard ground far below. This tremendous impact have left Roxanne suffering with extreme back pain. Soon we arrived home being approximately 10:15 pm on that Friday evening and Roxanne was not really up into washing her own clothes so I placed everything of Roxanne's all on Nancy's bed. Now without me really knowing the whole truth, I truly believe that Roxanne was living on the streets, and all she's owned was just the items contained in those three bags. After having a good night sleep with all my thoughts behind me when I decided to introduce Roxanne to Pat Casa Nova on this Saturday morning December 23rd 2000 while he was barbecuing a whole pig for his ongoing Philippino community customer's. From that particular time and onward Pat Casa Nova and Roxanne helped one another throughout the Christmas rush which really pleased him during this time when he needed it, thanks to the company of Roxanne. Moving ahead to December 31st 2000 where Roxanne contacted me on my phone about 6:30pm which she wanted to come over to the piggy's palace celebration, for our 2000-2001 New Year's party. There I explained to Roxanne that I have no time to head off to Vancouver and pick you up at this time, but if you could somehow make your way over to the Port Coquitlam center bus depot and I can arrange to meet you there. Roxanne agreed to my terms and she stated that I will phone you upon my arrival at Coquitlam center. There Roxanne arrive at Coquitlam center approximately 8:35 pm and I arrived there about ten minutes later. Where I originally parked my truck was located on

the west side of the Coquitlam center parking lot being directly across from the bus terminal and right behind a four foot high snow bank that's blocking the view. There I parked and rushed over to the onsite bus terminal where I met up with Roxanne waiting for me. The weather climate was extremely cold and the ground was frozen solid while myself only ten minutes away which to Roxanne it felt to her over an hour. Before long we both arrived back in my pick-up truck and warmed up while putting the extreme cold behind us. After fifteen minutes later we have arrived back at my place being 9:15 pm. Now approximately 20 to 30 minutes later we drifted off to Piggy's Palace where Roxanne really and truly enjoyed herself to fullest in spite of the extreme weather climate outside. The 2001 New Year's Day came right ahead on schedule following with the count down from ten to one. By 1:45 am New Year's Day in the early morning hours, as the large crowd of people slowly disperse with the onsite musical band continue playing until 2:00am in the morning. As for Roxanne and myself left the Piggy's Palace at 2:30am on this New Year's Day while Roxanne stated that was the best party that I've ever been to and most definitely looking forward to be back here for the 2001-2002 New Year's again. Roxanne was so happy prior of going to bed in the early morning hours of 2001 where we had sex and once again we had sex when we woke up. There we had sex twice on that New Year's Day of 2001 and to total that to be four times throughout my whole life time. I returned Roxanne back to the Coquitlam bus terminal approximately 12:00 noon on January 1st 2001 and we waited there in my truck for the metropolitan transit bus service to arrive instead of waiting out in the extreme cold weather. That was the very last time that I have ever seen Roxanne in person and I gave her \$175.00 cash into helping her out being a friend. Now following a lost trail of Roxanne is where she left a message on my telephone answering machine around March of 2001 for me to return her call which I tried over and over again, but the phone number that she left did not even jar to any telephone director or cell number as I failed on all counts to contact her, to where Pat Casa Nova went looking for her in person while knowing the location where she lived. But the feedback that Pat Casa Nova received, Roxanne moved from that location some time ago and leaving no forwarding address again, as this all makes no sense at all. The very next time that Roxanne's name has been brought up was during the police interrogation report when Bill Fordy announced to me that Roxanne is also dead. Now according to Bill Fordy of what they are saying to me while having Roxanne's DNA at my place and she is a lady friend to me, to the point where I have to take full responsibility for her death also. Remember that, I have brought three bags of Roxanne's belongings into my place and one

of those was a tote bag of hers. After I returned back to my designated cell as I explain to the undercover officer of what went on during this lengthy interrogation of 13 hours long. This is where I told Dave that the police are linking me to 49 women total. As they say I was not charged for Roxanne's death at this point being the big 50 which our own R.C.M.P. has already done while using me as their fall guy.

From the information that I have received in according to the manuscript of the interrogation report, where there is no record of what so ever that Roxanne's name has ever been mentioned at all. For this particular episode to ever happen which can only happen by the way connecting over two main reasons.

First reason would possibly be, a couple of pages missing from this transcript which is extremely unlikely. Second reason would be, to the point where the Crown prosecutor have removed that one particular section from these transcripts which will really hurt their supporting evidence. Don Adams denied any of these facts took place. This is all the information that I can find what's left of the remainder of evidence in this certain manuscript, which encourages Don Adams to barge in on Bill Fordy over Roxanne's personal belongings that I had in my mobile home.

Don: Willie you need to listen to me because, I am not in here to lie and Bill got a bit of the evidence confused. Alright? And it is not his intention here to lie. For I am going to straighten up that confusion right her and now. We got dictaphone taped statements as everybody is talking all about you. We have got an army of investigators, and they are the best in the province and Willie we are not here making mistakes.

William: This is what takes place while one over educated blind man leads another blind man down a crooked path.

Here is additional evident that proves Don Adams is the one leading the blind down a crooked path of their own destruction.

William: You want me? You got me already.

Don: Yeah, I got you. You are absolutely right. Let me be completely straight with, absolutely

Willie. William: Okay, why don't you go to the higher up rank and let me know.

Don: No, no. I am as high as I can go, believe me I am way too high to be sitting in here.

William: Oh. Really?

Don: I am high up. I am the one here in charge.

Interrogation started at 9:58am Saturday and that ended at 9:54pm on that particular Saturday evening February 23, 2002. Now for the undercover officer while to secure his indemnify where I will only use his first name in calling him Dave in this case.

Dave: I didn't think you were coming back?

William: Yeah, they nailed me to the cross.

Dave: Holy fuck. You have been gone all day. Did they beat you up there or what happened?

William: They have sure put me through the ringer today.

Dave: Yeah, it sure sound like that to me.

William: Yeah, they cross questioned me over and over again. Dave: Yeah, those fucking bastards. They are sure good at that. William: It was like a fucking nightmare in hell.

Dave: Yeah, I know. They are all fucking goofs. William: Oh, my lord. What a fucking day.

Dave: Yeah, a fucking long day.

William: Oh, yeah. They want me really bad. Dave: Fuck that is not much to look forward to.

William: Just hang in there, seven to eight hours again tomorrow.

Remember, never empty all your eggs out from the same basket. Always plan ahead where Bill Fordy announce to me that he will place me upon their own police lie detector instrument tomorrow morning for determining whether a person is telling the truth or not which I will prove my innocence beyond, from any moral wrong doing.

(Roxanne) Extra clueless evidence to add to the police investigation. William: You won't find anything there, because nothing is there.

Don: Well, Willie I don't believe you, this we will find out for ourselves and if it is there, we well find it. Willie are you so foolish that you cannot even see what we are going to do?

PART 6 - ROXANNE, THE BIG 50 "THE POLICE CREATED" HAVING A WORD OF THOUGHT | 125

For you cannot see the millions of dollars that we are going to spend there and for you think that we are not going to find things there. We got you mobile home and you motorhome. We have also got evidence that you lived there. We don't know whether you started killing some time during the early nineties. I am thinking at a minimum by 1997 as you were full blown into it. Like I have said, we can associate you to twelve already and we have just started. Because we took down all the wallpaper that had blood on it and now behind

is you old wood paneling. We are going over every square inch of it and that has blood on it. Willie in that particular state it would last for five hundred years being preserved of their DNA.

Willie: Now understanding this is where the crooked R.C.M.P. charged me with two counts of murder and that grew to four counts of murder. From there it grew to eight and Don Adams has fabricated that to twelve, with another eight unidentified other women DNA found. Now during this lengthy interview while they tried to get me to even confess to one murder charge. Now for this particular 12ft. by 70ft. mobile home which was originally built back in Alberta of 1978. For this unit being in service for 19 years before we purchased this particular unit in late February 1997 while the R.C.M.P. continue into making fools out of themselves.

Saturday February 23rd 2002

PART 7

A lie detector instrument to a polygraph examiner

To understand my situation where I was always taught that if ever get caught in a jam or even in a tight squeeze of an awkward situation. For I shall not empty all my eggs out in the same basket of which I have more things up my sleeve to prove far beyond all means to support my innocence while connecting of any wrong doing, but suffering the consequences meanwhile.

On Saturday February 23rd 2002 in the early morning of where Sergeant Bill Fordy escorted me from Surrey police lock up to the interview room. On our journey down the corridors lead into the interview room. On our journey down the corridors lead into the upper floor stairway of the police department. There Bill Fordy informed me directly of what we here are going to do today, which you will be interviewed by myself, one on one in a room that is very closely monitored. Now in this particular room

I am going to ask you a few questions there and tomorrow, I will put you on a lie detector instrument for determining whether a person is telling the truth by test for physiological change the normal body functioning considered to be a symptomatic sign of lying as Sergeant Bill Fordy stated that his profession involves a polygraph examiner. I withhold this information from Sergeant Don Adams in the interrogation room because Bill Fordy promised me that this would take place Sunday, as for the truth will come out being consistent to the same principles while conforming to the whole truth. At this stage in the game I have

nothing here to hide, while I make our own police into big fools of mischief making and very poor management, on their behalf.

Don: But I am here to tell you that whether or not you say a word this thing is all over for you. But now for your future is how you are viewed here in prison, and whether or not Dave is under suspicion and you know right now whether or not Dave took any part in this stuff. Well, Willie only you and you only can explain this and then the whole truth here can clear the air. Now Willie if and when you finally do decide to tell the whole truth is when people will believe you.

William: How is it possible to explain to them the truth when they are blinded from any truth?

Don: For I was a polygraph examiner and do you know what that is? It is a lie detector instrument. Willie have you ever heard of a particular machine like that? A lie detector instrument tell me whether you are telling the truth or not. This is what I have done and I have become an expert on that and this telling when people were telling me and speaking the truth or not. This is what I have done for awhile, I have probably forgotten all of that now, but I used to be pretty good at that as a polygraph examiner.

William: I have heard of one, but I have never seen one yet.

Don: Willie, when you decide to speak the truth, it is when someone looks at you square in the eyes and that tells you the truth as there is a ring to it, alright? Now Willie, I have sat here and I've watched you when you denied from ever having been involved in any of these murders and for there is no ring to it, alright? For this I really need you to know that you are not telling me the truth.

William: this is our police force that we the people depend upon being deaf from the ring and blinded from the truth.

Now on Sunday February 24th 2002 where Sergeant Bill Fordy has never got to intervene with myself which he failed drastically in doing his job, into holding up to his promissory word to me in his support that Bill was going to place me upon his police lie detector instrument being a polygraph examiner. This has been originally planned by Bill Fordy into back up the providing evidence while to see if there is any truth involved to back up your support of what you may say during the interrogation. I am holding the R.C.M.P. full accountable for

their own actions and they are unworthy to support their own recommended word and disloyal while failing to do their job properly as he has promised me here. Now for more of this bazaar story as our own local R.C.M.P. engaged in their official duties which started back on February 23rd 2002 with support of three R.C.M.P. officers all back to back for a total of twelve agony hour of no end while I was in that interrogation room. During this precise time period while this was ongoing, my own defense lawyer had to wait outside patiently to see me for five long hours, is not normal to any one standards at all.

Furthermore, the R.C.M.P. played a particular role in this case while they perform on one person's mind steadily and condemn me on the spot as an error of judgement as the ignorant police in lacking of their experience and ability to understand what I am saying to the R.C.M.P. as for myself, being inherited with the characteristics of dyslexia being caused by dysfunctional condition of the brain that is wired different. Now expressing the influence upon one's own individualist qualities of normal social relations in communication of speech. For this type of inconvenience does not make myself any less of a person than the next person, ad that demonstrates quite clearly that we the people are all made different from on to another. But through the eyes of our God, we are his most precious children.

Now, in early August to early September over a three week period of 2006 when my defense lawyer's had some additional time on their hands. This originally took place shortly after they completed all of their enormous volume of paperwork which was deliberately caused by our own irresponsible prosecutor's ignorance. After they had a brief rest my defense lawyer's arrived here at North Fraser pre-trial center unannounced, as a surprise visit, and this was only now to examine me by cross questioning my thought on this particular lie detector instrument which was a complete surprise to me. For another name in connecting to this unit is also called a polygraph machine which I have been longing so desperately for to expose the truth. The R.C.M.P. have failed when our own police department neglected in doing their formal duty that they are hired to do being controlled by the R.C.M.P. I have been pleading with my defense lawyer's over and over again to organize this situation, but once again this probably will never happen of what my lawyer's stated. Like I was promised before to be placed on their own police lie detector instrument back on that particular Sunday February 24th 2002 located onsite at the Surrey R.C.M.P. detachment headquarters while being in the care of police Sergeant Bill Fordy. In that position, I am once again left in the dark, as only a cover up layer that has been swept under the carpet and now to update

this which has never took place while making our own police academy unreliable to even do their own assigned job properly.

Psalm 12:2-8 (2) For they speak vanity, and to everyone with his neighbor having flattering lips, and with a double hear do they speak (3) For the Lord shall cut off all flattering lips and their tongue speareth of all proud things (4) For the Lord who have said, with our tongue that we will prevail, and our lips are our own, who is the Lord over us (5) For the oppression of the poor, and for the sighing of the needy and now I will arise saith the Lord. For I will set him in safety from them that puffeth at him (6) For these words of the Lord are pure words, as silver tried in the furnace of earth that's purified seven times over (7) Thou shalt keep the O'Lord and thou shalt preserve them from this generation for evermore (8) And for the wicked walk on every side when the vilest man are exalted.

Now going back to this particular party that my own remarkable defense lawyer, Peter Ritchie came through for me in arranging it. This particular individual is licensed to operate his own polygraph tester which was strictly my own decision, that failed to comply in doing his job that Bill Fordy promised being an R.C.M.P. officer. Now the consequence of the fact that my defense lawyer's has pre-arranged this private meeting in advance for this main purpose to take place while the examination went on into cross examine my thoughts. For this particular temporary accommodation site location is adjoining next door to the health care unit and there the examiner in chief committed to operate his own unit under their legal authority with having their full approval by the onsite staff at North Fraser pre-trial center. For the polygraph examiner that has been hired by my defense lawyer's is very strict in following rules all throughout with having many unknown wires connecting off of my body in every which way possible going directly in conjunction to this formal instrument that he had with him. For this particular polygraph instrument is totally designed to detect and record to any kind of physiological reaction. Also connecting to every kind of body change performance in odd characteristics of emotional stress by their own normal body functioning. For the two main reasons why I wanted to take this polygraph test which Sergeant Bill Fordy promised me that option and to prove this information that the R.C.M.P. has got the wrong party, while also prove to the citizens of the world to appreciate myself in having

nothing to hide. Also provide this connection with my own thoughts that I myself is no more or less intelligent than the next person to attribute in having the equivalent of a grade five school qualification. Furthermore while have low grade ability of learning which relates back to my dilemma of a difficult situation for the unusual way that I think being a single individual of this eccentric characteristic's by the way our brain waves functioning, that's controlled within having the life style connecting to dyslexia. Now going back to the polygraph examination that went on for quite some time while the examiner in chief continue to ask me many onsite questions along the way, and with myself in answering truthfully to every ongoing question, upon my best ability while passing to a full score of 100% total. For this particular type of examination continue on for a total of four independent sessions over a time frame that supporting a three week period. Moving ahead from one session to another as I pass every examine test quiz along the way while we move well into the fourth session ending the third week time frame, as this is where I was formally interrupted with my last thoughts while that was a compounding question over my misunderstanding which I have failed according to the polygraph tester. This particular episode commonly occurs by my own short fall dilemma, that is a disorderly mind jumble which caused by overlapping one's thought as specified in here, where this does happen to me quite frequently at times while living with dyslexia. But with total respect upon the examiner in chief re-tested me over again on the situation where I have failed presently on that formal question which I have now passed the whole four sessions upon many various questions that been involved in the examination to complete this test by 100% approved.

Luke 21:9-12 (9) For when ye shall hear of wars and commotions, and be not terrified. For these things must first come to pass, but the end is not yet (10) Then he said unto them, nation shall rise against nation and kingdom against kingdom (11) But before all these, they shall lay their hands on you, and persecute you, delivering you up to the synagogues, and into prisons, being brought before kings and ruler for my name (12) And they shall turn to you for a testimony.

Robert William Pickton

PART 8

“AND HOW I ENDED UP HERE AT KENT INSTITUTION”

For I was arrested on Friday February 22nd 2002 at 2:30 pm on location at our demolition worksite in Richmond B.C. Canada.

From there I was transported to the Surrey detachment of the R.C.M.P. and there I remain in custody onsite.

Later that Friday afternoon @ 5:00 pm I was placed in a cell block there accompanying to another cellmate ending up to be an undercover officer. By the name of Dave.

Moving ahead to Saturday morning February 23rd 2002, I was removed from that cell block at 9:30am, accompanying with Sergeant Bill Fordy and journeyed down the corridors to some unknown private room at 9:53am. This particular room ended up to be called, the interrogation room. This has got on the way @ 9:58am, and that continued onward for 12 long hours starting off with Sergeant Fordy then onward to Constable Dana Lillies and finishing off with the Sergeant Don Adams @ 9:54pm on that Saturday evening.

During this progress of development while this was ongoing in the interrogation room, my defense lawyer arrived at the Surrey R.C.M.P. detachment at 4:45pm, and waited there for additional five plus hours, in keeping me from seeing my lawyer which is against all our constitutional legal rights here in Canada by any means while the interrogation continue on until 9:54 pm Saturday evening. Now being approximately 10:45 to 11:00 pm late Saturday evening, when I finally manage at that time to see my defense lawyer on their

terms after waiting for six long hours.

Shortly after my lawyer visit was over, I was united again with the undercover officer by the name of Dave located in the same cell block that was originally appointed for me there.

Now going back at the time of our journey while heading towards the interrogation room accompanying with Sergeant Bill Fordy. He stated to me of what is going on today, that I am going to ask you a few questions in this closed monitored room, following sometime tomorrow February 24th 2002, Bill Fordy promised to place me on a lie detector instrument. The he refrain the question in saying that the unit belongs to the R.C.M.P., but I am the only one that uses this machine being fully approved and certified. But sadly to say this has never took place leaving the R.C.M.P. not even capable in doing their job properly. This is our loyal R.C.M.P. that we the people really depend on them being Canadian citizens and the tax payers of British Columbia.

To update this information which my defense lawyer's finally came through for me during late summer of 2007. I was there placed on a lie detector instrument to determine whether a person is telling the truth or not. This particular situation took place at North Fraser pre-trial center on four separate times based on one hour per session and passed on all of the examinations

Now moving ahead to Monday morning February 25th 2002, as I transported from the Surrey police department to the Port Coquitlam provincial courthouse for the 10:00 am hearing. There onsite the provincial court trial judge remanded me in the custody located at North Fraser pre-trial center. This particular site location is in Port Coquitlam for the court trial to start on November 4th 2002, during this particular time I was remanded there for court to begin.

On this particular Sunday morning March 17th 2002 while I was there occupied the residence located in segregation block AW-01. There I was poisoned while accompanying a breakfast meal which has been planned ahead for me. This situation was pre-arranged by one of the new appointed staff members which has just arrived in here at North Fraser pre-trial center while working there onsite in segregation and in isolation wards. During

the remainder of that day, I improved and recovered from that one particular disrespectful insolent that has occurred on that Sunday morning March 17th 2002

Moving right ahead to November 4th 2002 @ 10:0, I was in the provincial courthouse to deal with my court case trial proceedings which is to start that day, while I need hardly a criminal lawyer for my court trial. Furthermore during this time, I had all of my legal court documents with me in my possession in here at North Fraser pre-trial center while under my full supervision. Before I could ever speak for myself, the provincial court judge have awarded Peter Ritchie to take full charge of my court trial. I know Peter Ritchie to take full charge of my court trial I know Peter Ritchie since the spring of 1997 and I would pick him over any other lawyer. That's if I need a lawyer at that time, but I had a little to say. After funding was finally cleared for my criminal lawyer Peter Ritchie, which has took several months to arrange. At that time all of my legal court documents that I had in my possession was then transferred into the hands of my official lawyer, Peter Ritchie

By the early spring of 2003 my court trial has now finally got on its way at the provincial court house located in Port Coquitlam while the trial judge override the many draw backs as one's own stumbling blocks, on the fault of the prosecutor's misconduct of unprofessional behavior. During this particular time he continued holding all the cards, and holding back much information from the defense lawyer to stall for extra time while hoping this court trial will not go ahead until the fall of 2003 or the early part of 2004. In spite of this, the provincial court trial judge has over ruled this and encouraged this court trial to move ahead without any more delay. Furthermore, the court trial judge indicated by gesture, to the prosecutor, that this is only a primary court hearing. This trial is only here to see if there is really any evidence here at all to submit this evidence to take this to Supreme Court. Throughout the whole continuance in part of the court order proceeds in accompanying with the court prosecutor's judgement in leading the court trial. This behavior continues onward for approximately 65 days, and this has stretched over a period of 3 month time, with much blasphemy of profane talk about me through the word of mouth. For I pleaded with my appointed lawyer Peter Ritchie, for myself to approach the provincial court witness stand while defending myself at that time. There he stated directly to me, that this will not happen which we will deal with this in the Supreme Court of Canada and not in the provincial courthouse. Now expressing the conclusion over the provincial court trial hearing where the provincial trial judge announced that there is some degree of evidence here

to take this to the higher court, being the Supreme Court of Canada, which the accused will remain at North Fraser pre-trial center

Moving ahead between late summer and early fall of 2005 where a Kelowna Supreme Court trial judge arrived down here at the west coast from way beyond his jurisdiction. There he will be resigning in the New Westminster Courthouse and he is now being appointed to take on my court case trial. After the court judge been on the bench for about two weeks, give or take a little and finally realized that this court trial could go onward for the next two years or longer. The appointed judge decided to quite in taking on more than he could handle, for this lengthy trial which presently awaits having mountable charges relating all back to back presenting 33 charges total.

Moving ahead to January 30th 2006 this is where another Supreme Court trial judge came aboard and he now has took over this extraordinary court case. Now in knowing very little about the case, and of what lies ahead to where he has took on one of the most toughest nerve racking cases that anyone could ever believe that went on in this particular court trial. For me to announce the most strenuous exhausting arguments that lies in between the prosecutors holding back many legal court documents from my defense lawyers that have went on for days of where the court judge had to take full control of the whole situation. This is where the Supreme Court trial judge being in his full authority and he ordered the head court prosecutors into being forward all the legal court documents and give it over to the defense lawyers that continue onward throughout 2006 and well into 2007. This head prosecutor has been on the hot seat continuously throughout this particular whole ordeal, and there have been time bringing forward 5,000 or more pages at a time which relates quite a challenge for the group of defense lawyers while reading this material connected to the court proceeds and move in stages.

At though out this particular time frame I approached to each one of my defense lawyers from time and time again to a total of seven individual occasions of juncture while I pleaded with them to place me on the witness court stand where I have been turned down repeatedly. During this portion of my court trial, I felt like I am hiding behind my defense lawyers and that is far from the truth by all means if the people think this.

Now failing on all respect of me entering upon the witness court stand by my defense lawyer's following with eight times when I wrote a letter directly to the court trial judge and handed the letter to one of the on duty sheriff's onsite. There he promised me that he will give my letter directly over to the trial while over ruling my defense lawyer's. But that has also failed when the onsite sheriff handed my letter directly back in the hands of my defense lawyer's in failing once again with all respect to ever approach the court witness stand.

Now progressing ahead to Friday morning December 7th 2007 after the jury team member has been deliberating from late afternoon Thursday November 29th 2007, for presently now being a total of eight days. During this time the jury members been stressed out nerve wracking and times having exhausted moments which they have not reached a decision yet. There presently the trial judge decided to call the jury into the New Westminster courthouse at approximately 11:00 am. As the trial judge corresponded with them and stated to help clear the air, "if you people find that there is any evidence at all that will link Mr. Pickton there or even being a third party, I want him charged." After that the judge announced for the 12 member jury to go and continue into deliberate as they left the court room. This is where the blind is leading the blind and place all my defense lawyer's on edge. This was a big major fault on the Supreme Court trial judge's behalf of unprofessional behavior and mad management on their own misconduct, by its court directors.

Moving ahead to December 8th 2007 in the early afternoon when the 12 member jury finally arrived to their conclusion being a final result that specified the formal procedure with myself linked to a second degree murder charge ending the first portion that's connecting to my court trial. Now at the present time following behind with the second trial to be scheduled in advance to move ahead which was to start right away, back to back. But with the favorable results from the jury members that's been brought on by the Supreme Court trial judge, everything has immediately been placed on hold by the court prosecutor until further notice.

Now on Sunday December 9th 2007 about 10:25 am during the early morning when the Supreme Court judge have directly spoke to me in the New Westminster court room. There he announced to me, "Have you got anything here to say over these allegations that we have laid against you?" Which has left me totally surprised at the time. There I was beginning to

stand up and for the first time to speak freely, directly to the court trial judge after all this time. But once again that was cut short where my defense lawyer, Peter Ritchie directly ordered me to sit down while he is now over riding the court trial judge. Over this interruption Peter Ritchie there announced to the trial judge, that Mr. Pickton will speak during the second court trial which is to be scheduled to start right away back to back as the funding is already in place. With the Supreme Court judge making little head way over this situation where he laid down the second degree murder charge of 25 year prison term.

On one side you obey your criminal defense lawyers for you own interest while ending one court trial and starting the second court trial back to back. For the other side of the coin where we got the prosecutor leading the Supreme Court trial judge down a crooked and blind pathway while the evidence demonstrates the fact far beyond any kind of doubt being questionable.

This is when the head crown prosecutor decided at this precise time period not to go ahead with the second court trial which has been terminated while now awaiting for the outcome of this verdict from the British of Columbia Court of appeal that's in progress.

Now moving ahead to the tenth time around which was during mid to late December 2007 for myself to approach their witness court stand is when I decided to go over my defense lawyer's heads. I wrote a letter directly to the court judge that assigned to my court trial after the first portion of the trial ended and mailed that directly to the New Westminster courthouse. The response that I got back stated that this is all on hold while awaiting for the outcome of the British Columbia Court of appeal.

The outcome of this with three Supreme Court judges was two to one verdict, leaving the court trial judge 100% responsible for his own misconduct of what he did which has open the doors to Canada Court of Appeal as the buck is passed down the line to one another.

Now the our come of the Canada Court of Appeal as justice Rosalie Abella stated that court judges are allowed to make mistakes from time to time but not to the point of redo the court trial over again, being a long court trial and the second court trial is cancelled.

I said to myself this is not right, when I took upon myself and wrote directly to Canada Court of Appeal in care of Justice Rosalie Abella and proved these facts that support over 25 plus pages of overwhelming evidence that nothing links back to me. I mailed these

hand written legal documents to the Canada Court of Appeal and they received that by registered mail on November 16th 2010. They never responded back at all for this unexplained event as a conspiracy theory linked to this bazaar disrespectful insolent while knowing that the R.C.M.P. is formally behind this all the way.

"The Fall Guy"

Robert Pickton, in prison for life, accused of murdering 6-49 women.

Finally tells his story of what happened on his Port Coquitlam family farm.

Written in his own words and grammar.
